Creative Collaboration
 Hachette UK

The steady increase in joint programmes and qualifications offered by UK and French universities is a cause for celebration. But language constraints, financial pressures and political uncertainty present real obstacles to continued expansion. How are these to be overcome? And how can higher education institutions on either side of the Channel help each other to realise the enormous potential of Franco-British partnerships? Franco-British Academic

Partnerships: The Next Chapter is a valuable opportunity not only to take stock of intensifying bilateral cooperation in the higher education sector, but also to share experience and best practice, and, hopefully, to identify some new initiatives and areas for collaboration. Boasting contributions from leading politicians and higher education managers, alongside essays from distinguished international scholars, the book will be required reading for academics

and university leaders. Spanish B: IB Skills and Practice OUP Oxford Part of the A-Z series from Elemi which aims to support students throughout their IB Diploma studies, this A-Z for Spanish B provides a glossary of Spanish-English vocabulary: Essential vocabulary and key phrases organized in topics to reflect the five conceptual themes of IB Diploma Spanish B. Entirely focused on the needs of the IB Diploma curriculum, students learn and engage with current

topical vocabulary across a variety of text types. Provides a useful reference to help students express their own ideas and opinions in written and spoken Spanish. Offers a range of appropriate vocabulary and key phrases to develop students' interactive skills and help them maintain a conversation. Suitable for both HL and SL studies. This popular book specifically offers help with: learning and engaging with appropriate and varied vocabulary in

topic-by-topic lists
developing extended
writing in a variety of text
types supporting speaking
skills, particularly oral
presentations and
discussions as part of the
internal assessment.

This version has been fully re-

checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very

popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and

structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every

text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

transformation with the liberalization of Indian politics and economics since 1991. Although the Indians had experienced the learning of English as a foreign language due to their colonial past, the need to learn other European/Romance/Germanic languages has intensified with the growing linkage of India with the developed and developing countries in the post-Cold War era. In response to this intensified need for learning foreign languages, many new

foreign programs of study/curricula have been introduced in Indian schools (especially those with international curriculum). The central objective of this book is to shed light on the specific challenges of teaching Spanish language through foreign curricula in India. The book performs a qualitative study not only to investigate the problems of teaching Spanish language but also to design suggestive measures to resolve these pedagogical problems."
