Israel & the Palestinian Territories Lonely Planet

Revised Edition with New Afterword from the Author Time #1

Nonfiction Book of the Year Finalist for the National Book Critics Circle Award Over 3 million copies sold in 35 Languages "On the day after humans disappear, nature takes over and immediately begins cleaning house - or houses, that is. Cleans them right off

the face of the earth. They all go." What if mankind disappeared right now, forever... what would happen to the Earth in a week, a year, a millennium? Could the planet's climate ever recover from human activity? How would nature destroy our huge cities and our myriad plastics? And what would our final legacy be?

Speaking to experts in fields as diverse as oil production and ecology, and visiting the places that have escaped recent human activity to discover how they have adapted to life without us, Alan Weisman paints an intriguing picture of the future of Earth. Exploring key concerns of our time, this absorbing thought experiment reveals a powerful - and surprising - picture of our planet's future.
