The Worlds of Wes Anderson John Wiley & Sons

Paul Thomas Anderson's evolution from a brash, self-anointed "Indiewood" auteur to one of his generation's most distinctive voices has been one of

the most remarkable career trajectories in recent film history. From early efforts to emulate his cinematic heroes to his increasingly singular late films, Anderson has created a body of work that balances the familiar and the strange, history and myth: viewers feel perpetually off balance, unsure of whether to expect a pitch-black joke or a moment of piercing emotional resonance. This book provides the most complete account of Anderson's career to date, encompassing his varied side projects and unproduced material; his personal and professional relationships with directors such as Jonathan Demme, Robert Altman, and Robert Downey Sr.; and his work as a director of music videos for Fiona Apple, Joanna Newsom, and Haim. Ethan Warren explores Anderson's recurring thematic preoccupations—the fraught dynamics of gender and religious faith, biological and found families, and his native San Fernando Valley—as well as his screenwriting methods and his relationship to his influences. Warren argues that Anderson's films conjure up an alternate American history that exaggerates and elides verifiable facts in search of a heightened truth marked by a deeper level of emotional hyperrealism. This book is at once an unconventional primer on Anderson's films and a provocative reframing of what makes his work so essential.

Directors Close Up 2 Routledge

Beginning in the late 1970s as an offshoot of disco and punk, dance-punk is difficult to define. Also sometimes referred to as disco-punk and funk-punk, it skirts, overlaps, and blurs into other genres including post-punk, post-disco, new wave, mutant disco, and synthpop. This book explores the historical and cultural conditions of the genre as it appeared in the late 1970s and early 1980s and then again in the early 2000s, and illuminates

what is at stake in delineating dance-punk as a genre. Looking at bands such as Gang of Four, ESG, Public Image Ltd., LCD Soundsystem, The Rapture, and Le Tigre, this book examines the tensions between and blurring of the rhetoric and emotion in dance music and the cynical and ironic intellectualizing associated with post-punk.

that, author Mark Browning considers whether Anderson's allusions create resonance or simply play a game with an audience keen to spot references. He argues that, in Anderson's films, the style is the substance, and the apparent comedic superficiality is what actually provides depth. Chapters covering the individual films are followed by an examination of Anderson as set designer, author, and stylist. The conclusion explains how his films can be viewed as relevant, exploring links to events and figures in the real world.

Wes Anderson's Symbolic Storyworld presents a theoretical investigation of what makes the films of Wes Anderson distinctive. Chapter by chapter, it relentlessly pulls apart each of Anderson's narratives to pursue the proposition that they all share the same deep underlying symbolic values – a common symbolic storyworld. Taking the polemical strategy of outlining and employing Claude Lévi-Strauss's distinguished (and notorious) work on myth and kinship to analyze eight of Anderson's films, Warren Buckland unearths the peculiar symbolic structure of each film, plus the circuits of exchange, tangible and intangible gift giving, and unusual kinship systems that govern the lives of Anderson's characters. He also provides an analysis of Wes Anderson's visual and aural style, identifying several distinctive traits of Anderson's *mise en scène*.

From fan-generated content on TikTok to music videos, the contemporary media landscape is becoming ever more vast, spectacular, and intense. In *The Media Swirl* Carol Vernallis examines short-form audiovisual media—Beyoncé's *Lemonade*, brief sequences from Baz Luhrmann's *The Great Gatsby*, TikTok challenges, YouTube mashups, commercials, and many other examples—to offer ways of understanding digital media. She analyzes music videos by Beyoncé, Lady Gaga, Janelle Monáe, Kendrick Lamar, Anderson .Paak, and others to outline how sound and image enhance each other and shape a viewer's mood. Responding to today's political-media landscape through discussions of Fox News and Presidential inaugurations, Vernallis shows how a media literacy that exceeds newscasts and campaign advertising is central to engaging with the democratic commons. Forays into industry studies, neuroscience, and ethics also inform her readings. By creating our own content and knowing what corporations, the wealthy, and the government do through media, Vernallis contends, we can create a more just world.
