During the Elizabethan Age and for the following hundred and fifty years, such figures as Shakespeare and Jonson, Milton and Pope dominated the English literary scene. But what was the vast majority of society really watching, reading and singing? This pioneering anthology, set in two volumes, attempts to answer this question by offering a wide selection of material, ranging from broadside ballads and drolls to witch trial reports and political newsbooks.

*Sybil Or the Two Nations* by Benjamin Disraeli, the earl of Beaconsfield, is about the Chartists' attempt to secure more rights for the working class during the mid-to-late 19th century. Excerpt: "I'll take the odds against Caravan." "In poneys?" "Done." And Lord Milford, a young noble, entered in his book the bet which he had just made with Mr. Latour, a grey-headed member of the Jockey Club. It was the eve of the Derby of 1837.

In a vast and golden saloon, that in its decorations would have become, and in its splendor would not have disgraced, Versailles in the days of the grand monarch, were assembled many whose hearts beat at the thought of the morrow, and whose brains still labored to control its fortunes to their advantage."

The Common Touch

The more you look around the world, at the chaos, conflict, horror and repression in the name of religious ideology, not least in the lands very close to India, the more you realise how Nehru, for all his imperfections, got the biggest question right. Now that India is finally positioning itself for a spectacular economic takeoff, it is not the right time to endanger that by opening the can of worms that is communalism.
