Moon Knight Vol. 3 Annick Press

This highly acclaimed biography from the author of *Last Train to Memphis* illuminates the extraordinary life of one of the most influential blues singers of all time, the legendary guitarist and songwriter whose music inspired generations of musicians, from Muddy Waters to the Rolling Stones and beyond. The myth of Robert Johnson's short life has often overshadowed his music. When he died in 1938 at the age of just twenty-seven, poisoned by the jealous husband of a woman he'd been flirting with at a dance, Johnson had recorded only twenty-nine songs. But those songs would endure as musical touchstones for generations of

blues performers. With fresh insights and new information gleaned since its original publication, this brief biographical exploration brilliantly examines both the myth and the music. Much in the manner of his masterful biographies of Elvis Presley, Sam Phillips, and Sam Cooke, Peter Guralnick here gives readers an insightful, thought-provoking, and deeply felt picture, removing much of the obscurity that once surrounded Johnson without forfeiting any of the mystery. "I finished the book," declared the New York Times Book Review, "feeling that, if only for a brief moment, Robert Johnson had stepped out of the mists."

The Stolen Ones National Geographic Books

Eco facts come to light as a plastic duck narrates this beautifully illustrated true story of thousands of bath toys that were lost at sea and swept to the four corners of the Pacific. If a shipping container filled with 28,000 plastic ducks spilled into the Pacific Ocean, where would all those ducks go? Inspired by a real incident, this captivating and innovative look at the pollution crisis in our oceans follows one of the ducks as it is washed away on ocean currents, encountering plastic-endangered whales and sea turtles and passing through the giant floating island of marine debris known as the Great Pacific Garbage Patch. From the author-illustrator of the acclaimed *Curiosity: The Story of a Mars Rover* comes a highly accessible and graphically stylish picture book with an ultimately hopeful message about environmental issues and the state of our oceans. An end map documents the widely scattered journey of the real-life plastic ducks, showing where they have been found, as well as facts about the ways

plastic is affecting various parts of the world.
