Peterson's This book is the first practical, hands-on guide that shows how leaders can build psychological safety in their organizations, creating an environment where employees feel included, fully engaged, and encouraged to contribute their best efforts and ideas. Perhaps the leader's most challenging task is to increase intellectual friction while decreasing social friction. When this doesn't happen and it becomes emotionally expensive to say what you truly think and feel, that lack of psychological safety triggers the self-censoring instinct, shuts down learning, and blocks collaboration and creativity. Timothy R. Clark, a former CEO, Oxford-trained social scientist, and organizational consultant, provides a research-based framework to help leaders transform their organizations into sanctuaries of inclusion and incubators of innovation. When leaders cultivate psychological safety, teams and organizations progress through four successive stages. First, people feel included and accepted; then they feel safe to learn, contribute, and finally, challenge the status quo. Clark draws deeply on psychology, philosophy, social science,

literature, and his own experiences to show how leaders can, and must, set the tone and model the ideal behaviors—as he says, “you either show the way or get in the way.” This thoughtful and pragmatic guide demonstrates that if you banish fear, install true performance-based accountability, and create a nurturing environment that allows people to be vulnerable as they learn and grow, they will perform beyond your expectations. Addressing the emotional and academic needs of kids in grades four through twelve, Lawrence Greene examines the counterproductive behaviors and attitudes that undermine academic performance, diminish self-esteem and limit educational and career options. Each chapter focuses on a particular deficit area and offers accessible, hands-on methods for parents to guide and mentor their struggling child. Parents learn how to:

- \* Help their child identify natural talents and use them when learning
- \* Choose a democratic or autocratic approach to modifying behavior
- \* Use the DIBS system to solve problems
- \* Open an effective dialogue with their child
- \* Express positive expectations and affirm and praise effort and progress
- \* And much more

Insights: #1 I had been on the job for a few months when I was assigned the task of voting on early decision applications. The process seemed straightforward, but actually voting—that was another story. The thing is, when it comes to college admissions, there are no clear-cut answers. No easy answers. The decision-

making process is a messy, complicated, and imprecise art. -> The application process is not transparent. Admissions officers fiercely protect the privacy of their decisions.
