and Series • Answer keys and detailed explanations for each drill and test question • Engaging guidance to help you critically assess your progress

Apex AP Calculus AB Peterson Nelnet Company

The Princeton Review realizes that acing the AP Calculus AB & BC Exams is very different from getting straight A's in school. We don't try to teach you everything there is to know about calculus-only what you'll need to score higher on the exam. There's a big difference. In *Cracking the AP Calculus AB & BC Exams*, we'll teach you how to think like the test makers and -Score higher by reviewing key calculus concepts -Earn more points by familiarizing yourself with the format of the test -Safeguard yourself against traps that can lower your score -Perfect your skills with review questions in each chapter This book includes 5 full-length practice AP Calculus tests. All of our practice test questions are like the ones you'll see on the actual exam, and we fully explain every answer.
