South Africa is in the eye
of a slow-building
economic storm: junk
status, political upheaval,
civil unrest, spiralling
unemployment, state
capture and the fallout
from Covid-19. There is no
better time to assess the
impact of one of the
biggest economic
experiments in Africa that
began a quarter of a
century ago: black
economic empowerment,
or BEE, the legislation-
backed effort to transfer
wealth to black people
and to facilitate their
broader participation in
the economy to redress
the inequalities created
by apartheid. In *The BEE
Billionaires*, Chris Bishop
gets up close and
personal with some of the
biggest names in BEE:

Sandile Zungu, Gaby
Magomola, Sipho Nkosi,
Richard Maponya, the
Kunene Brothers, Gibson
'Mr Gautrain' Thula, Fred
Robertson, Ipeleng
Mkhari, Tshepo Mahloele,
Tim Tebeila, Linda
Mabhena-Olagunju and
even President Cyril
Ramaphosa. These are
the people who made it,
who carry the flag for
black empowerment. By
examining their struggles
and the impact of BEE on
their successes, Bishop
seeks to uncover the ways
in which BEE as an
upliftment scheme has
both succeeded and
failed. Because, while BEE
has made billionaires of
some, it has ruined others
and remains one of the
most controversial
policies born in those first
heady days of democracy.
There is also a debate
over how long the BEE
codes should remain. By
examining those
individuals who have been
either shunned or burnt
by BEE, as well as various
deal facilitators and other
key insiders – including
the president of South
Africa – Bishop hopes to
answer one very complex
question: Has BEE
achieved what it was set

up to do, or, in the long
term, will it prove more of
a hindrance than a help?

This book is a strange and fascinating collection of information, seemingly thrown together without any regard for structure. It offers homemade remedies for various ailments, including the alarming claim of a cure for cancer through an open lesion. Alongside these dubious medical treatments are recipes for candy and instructions for using the most complex memory system ever devised. However, the bulk of the book is dedicated to hog cholera, with numerous pages devoted to its symptoms and testimonials from those who swear by the book's cure.

This “smart analysis of the New Space sector” goes inside the rapid rise and dramatic rivalry of private space companies SpaceX and Blue Origin

(The New York Times Book Review). For the outsize personalities staking their fortunes on spaceships, the new race to explore space could be a dead end, a lucrative opportunity—or the key to humanity’s survival.

Rocket Billionaires shines a light on Elon Musk and Jeff Bezos as they attempt to make history, reinvent the space economy, and feed their own egos. Beyond these two towering figures, Tim Fernholz introduces a supporting cast of equally fascinating entrepreneurs, from the irrepressible British mogul Richard Branson to the satellite internet visionary Greg Wyler. Fernholz’s fly-on-the-wall reporting captures an industry in the midst of disruption. While NASA seeks to preserve its ambitious space program, traditional aerospace firms like Boeing and Lockheed Martin scramble to adapt to new competitors, lobbyists tussle over public funds, and lawmakers try to prevent this new space race from sparking global conflict. It’s a high-stakes marathon that Fernholz recounts with expert analysis and revealing detail. Featured on NPR and PBS’s SciTech Now,

CAAM Covert American Australian Mission

American Trent Davis is a Vietnam vet and retired policeman, now operating his own security firm. He deals in the 'bad people' business and thinks that the pendulum has swung too far in their favour. That the bad bastards, that the law are helpless against, are flaunting their power with no remorse. He is going do something about that.

Paul J Gent Jnr is a Manhattan billionaire who will back Davis's play. A chance meeting with a brash Australian gives rise to opportunity--to bring an assault team to Australia to fine-tune their skills before launching attacks in the States. Tom Roach is a meek and mild travelling salesman--his family killed by a drug-dealer fleeing a police chase ten years previous. Roach has been found and headhunted and seemingly dies to become a chameleon--a ghost to provide surveillance for the hit team, their mission: shoot four bad bastards in Australia as a forerunner to bigger scale missions in the USA.

Roach needs to decide--is he now a murderer and or a vigilante, or is he a social corrector? Will he stay and play 'rich man's justice'?
