The period of
Kierkegaard's life
corresponds to
Denmark's "Golden
Age," which is

conventionally used to
refer to the period
covering roughly the
first half of the
nineteenth century,
when Denmark's most
important writers,
philosophers,
theologians, poets,
actors and artists
flourished. Kierkegaard

was often in dialogue with his fellow Danes on key issues of the day. His authorship would be unthinkable without reference to the Danish State Church, the Royal Theater, the University of Copenhagen or the various Danish newspapers and journals, such as *The Corsair*, *Fædrelandet*, and *Kjøbenhavns flyvende Post*, which played an undeniable role in shaping his development. The present volume features articles that employ source-work research in order to explore the individual Danish sources of Kierkegaard's thought. The volume is divided into three tomes in order to cover the different fields of influence. Tome II is dedicated to the host

of Danish theologians who played a greater or lesser role in shaping Kierkegaard's thought. In his day there were a number of competing theological trends both within the church and at the Faculty of Theology at the University of Copenhagen, and not least of all in the blossoming free church movements. These included rationalism, Grundtvigianism and Hegelianism. In this quite dynamic period in Danish ecclesial history, Kierkegaard was also exercised by a number of leading personalities in the church as they attempted to come to terms with key issues such as baptism, civil marriage, the revision of the traditional psalm book, and the relation of church and state.

One of the more intriguing developments within medieval Japanese literature is the incorporation into the teaching of waka poetry of the practices of initiation ceremonies and secret transmissions found in esoteric Buddhism. The main figure in this development was the obscure thirteenth-century poet Fujiwara Tameaki, grandson of the famous poet Fujiwara Teika and a priest in a tantric Buddhist sect. Tameaki's commentaries and teachings transformed secular texts such as the Tales of Ise and poetry anthologies such as the Kokin Wakashū into complex allegories of Buddhist enlightenment. These commentaries were

transmitted to his students during elaborate initiation ceremonies. In later periods, Tameaki's specific ideas fell out of vogue, but the habit of interpreting poetry allegorically continued. This book examines the contents of these commentaries as well as the qualities of the texts they addressed that lent themselves to an allegorical interpretation; the political, economic, and religious developments of the Kamakura period that encouraged the development of this method of interpretation; and the possible motives of the participants in this school of interpretation. Through analyses of six esoteric commentaries, Susan Blakeley Klein presents

examples of this interpretive method and discusses its influence on subsequent texts, both elite and popular. Modernism Reborn VIZ Media LLC Tsuna, a timid junior high student, is a failure at school, sports, and social life. But everything changes for Tsuna when Reborn, a fedora-wearing, gun-toting toddler who claims to be an Italian hit man, shows up at his house. Reborn was sent to Japan to groom Tsuna for his future life as a big mafia boss! Reborn's gun has quite an unusual effect: When Reborn shoots people in the head, they die but are then "reborn" with temporary supernatural powers that allow them to

fulfill their dying wish. Reborn and Tsuna make an unlikely pair, but every day they're together, Tsuna gets reborn into a new (and better) guy!

While Kierkegaard is perhaps known best as a religious thinker and philosopher, there is an unmistakable literary element in his writings. He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with. This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians, but at the same time it has made their interpretation more complex.

Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew, but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions. The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard. The volume is arranged alphabetically by name, with Tome II covering figures and motifs from Gulliver to Zerlina.

Love and Vulnerability: Thinking with Pamela Sue Anderson developed out of the desire for dialogue with the late feminist philosopher Pamela Sue Anderson's extraordinary,

previously unpublished, last work on love and vulnerability. The collection publishes this work for the first time, with a diverse, multidisciplinary, international range of contributors responding to it, to Anderson's oeuvre as a whole and to her life and death. Anderson's path-breaking work includes *A Feminist Philosophy of Religion* (1998) and *Re-visioning Gender in Philosophy of Religion: Reason, Love and Epistemic Locatedness* (2012). Her last work critiques, then attempts to rebuild, concepts of love and vulnerability. Reason, critical self-reflexivity, emotion, intuition and imagination, myth and narrative all have a role to play. Social

justice, friendship, conversation, dialogue, collective work are central to her thinking. Contributors trace the emergence of Anderson's late thinking, extend her conversations with the history of philosophy and contemporary voices such as hooks and Butler, and bring her work into contact with debates in theology; Continental and analytic philosophy; feminist, queer and transgender theory; postcolonial theory; African-American studies. Discussions engage with the Me Too movement and sexual violence, climate change, sweatshops, neoliberalism, death and dying, and the nature of the human. Originally published as a special issue of the

journal, Angelaki, this large, wide-ranging collection, featuring a number of distinguished contributors, makes a significant contribution to the burgeoning interdisciplinary research on interpersonal relations, sympathy and empathy, affect and emotion.

Kierkegaard's Concepts is a comprehensive, multi-volume survey of the key concepts and categories that inform Kierkegaard's writings. Each article is a substantial, original piece of scholarship, which discusses the etymology and lexical meaning of the relevant Danish term, traces the development of the

concept over the course of the authorship, and explains how it functions in the wider context of Kierkegaard's thought. Concepts have been selected on the basis of their importance for Kierkegaard's contributions to philosophy, theology, the social sciences, literature and aesthetics, thereby making this volume an ideal reference work for students and scholars in a wide range of disciplines. *Reborn to Master the Blade Tome 4* VIZ Media LLC

The first comprehensive yet accessible history of the state of Israel from its inception to present day, from Daniel

Gordis, "one of the most respected Israel analysts" (The Forward) living and writing in Jerusalem. Israel is a tiny state, and yet it has captured the world's attention, aroused its imagination, and lately, been the object of its opprobrium. Why does such a small country speak to so many global concerns? More pressingly: Why does Israel make the decisions it does? And what lies in its future? We cannot answer these questions until we understand Israel's people and the questions and conflicts, the hopes and desires, that have animated their conversations and actions. Though Israel's history is rife with conflict, these conflicts do not fully communicate the spirit

of Israel and its people: they give short shrift to the dream that gave birth to the state, and to the vision for the Jewish people that was at its core. Guiding us through the milestones of Israeli history, Gordis relays the drama of the Jewish people's story and the creation of the state. Clear-eyed and erudite, he illustrates how Israel became a cultural, economic and military powerhouse—but also explains where Israel made grave mistakes and traces the long history of Israel's deepening isolation. With Israel, public intellectual Daniel Gordis offers us a brief but thorough account of the cultural, economic, and political history of this complex nation, from its

beginnings to the present. Accessible, levelheaded, and rigorous, Israel sheds light on the Israel's past so we can understand its future. The result is a vivid portrait of a people, and a nation, reborn.

In recent years interest in the thought of Kierkegaard has grown dramatically, and with it the body of secondary literature has expanded so quickly that it has become impossible for even the most

conscientious scholar to keep pace. The problem of the explosion of secondary literature is made more acute by the fact that much of what is written about Kierkegaard appears in languages that most Kierkegaard scholars do not know. Kierkegaard has become a global phenomenon, and new research traditions have emerged in different languages, countries, and regions. The present volume is dedicated to trying to help to resolve these two problems in Kierkegaard studies. Its purpose is, first, to provide book reviews of some of the leading monographic studies in the Kierkegaard secondary literature so as to assist the community of scholars to become familiar with

the works that they have not read for themselves. The aim is thus to offer students and scholars of Kierkegaard a comprehensive survey of works that have played a more or less significant role in the research. Second, the present volume also tries to make accessible many works in the Kierkegaard secondary literature that are written in different languages and thus to give a glimpse into various and lesser-known research traditions. The six tomes of the present volume present reviews of works written in Catalan, Chinese, Czech, Danish, Dutch, English, Finnish, French, Galician, German, Greek, Hebrew, Hungarian,

Italian, Japanese,
Norwegian, Polish,

Portuguese, Romanian,
Russian, Slovak,
Spanish, and Swedish.
