Fidel Castro is one of

the most interesting  
and controversial  
personalities of our  
time - he has become  
a myth and an icon. He  
was the first Cuban  
Caudillo - the man who  
freed his country from  
dependence on the

USA and who lead his people to rediscover their national identity and pride. Castro has outlived generations of American presidents and Soviet leaders. He has survived countless assassination attempts by the CIA, the Mafia, and Cubans living in exile. He has become one of the greatest politicians of the 20th Century. His biography, and the history of his country exemplify the tensions between East and West, North and South, rich and poor. As Castro's life draws to a close, the question as to what will become of Cuba is more important than ever. Will Castro open Cuba to economic reform and democratization, or stick to his old slogan socialism or death? In this remarkable, up-to-date

reconstruction of Castro's life, Volker Skierka addresses these questions and provides an account of the economic, social, and political history of Cuba since Castro's childhood. He draws on a number of little-known sources, including material from the East German communist archives on Cuba, which were until recently inaccessible. This is an exciting, painstakingly researched, and authoritative account of the life of one of the most extraordinary political figures of our time.

Shamed Random House

In 1998, Sarbjit Athwal was called by her husband to attend a family meeting. It looked like just another family gathering. An

attractive house in west London, a large dining room, two brothers, their mother, one wife. But the subject they were discussing was anything but ordinary. At the head of the group sat the elderly mother. She stared proudly around, smiling at her children, then raised her hand for silence. 'It's decided then,' the old lady announced. 'We have to get rid of her.' 'Her' was Surjit Athwal, Sarbjit's sister-in-law. Within three weeks of that meeting, Surjit was dead: lured from London to India, drugged, strangled, and her body dumped in the Ravi River, never to be seen again. After the killing, risking her own life, Sarbjit fought secretly for justice for nine long, scared

years. Eventually, with immense bravery, she became the first person within a murderer's family ever to go into open court in an honour killing trial as the Prosecution's key witness, and the first to waive her anonymity in such a trial. As a result of her testimony, the trial led to the first successful prosecution of an honour killing without the body ever being found. But her story doesn't end there. Since the trial, her life has been threatened; her own husband arrested after an allegation of intimidation. Shamed is a story of fear and of horror – but also of immense courage, and a woman who risked everything to see that justice was done. Savage Shadows

This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. In the climate of “make do and mend,” sales of sewing machines have soared, but many are only accompanied by a difficult-to-understand technical manual. Here, Jane Bolsover provides a comprehensive guide for beginners. Starting with an essential overview of the sewing machine, learn how to

thread it and wind bobbins, why tension is important, and which needles to choose. There's information on the basic sewing kit you will need, plus advice on which fabrics to choose and how to cut out. The chapters then build into a complete sewing course, and at the end of each chapter is a simple project to consolidate the skills you have just mastered. The projects include items for the home, including a cushion cover and a lampshade, stylish accessories, such as bags and scarves, plus great clothing basics, such as an A-line skirt and a simple shift dress. Also included at the back of the book are two full-size pull-out paper pattern sections.

This volume covers not only the wartime story of the German Navy, but also shows how it stealthily built up in the 20s and 30s, in defiance of the treaty of Versailles. The famous pocket battleships are examined, as well as U-boats, minesweepers and one-man torpedoes.

Papageien werden seit Generationen in Menschenobhut gepflegt. Ihre Individualität und ihre Intelligenz machen diese Vögel zu bemerkenswerten, aber bisweilen auch anspruchsvollen Pfleglingen. Im ersten Band der Reihe "Papageien als Heimvögel" wird daher der Auswahl des richtigen Papageis für den zukünftigen Halter besonders viel Aufmerksamkeit geschenkt. In dem ausführlichen Gattungsteil werden

die für die Heimvogelhaltung geeigneten Papageien in drei Kategorien für Anfänger, Halter mit Vorkenntnissen und erfahrene Halter eingeteilt und vorgestellt. Die emotionale und körperliche Gesundheit des zukünftigen Familienmitgliedes sollte beim Kauf ebenso berücksichtigt werden wie die richtige Ausstattung für das Vogelheim. Die Einteilung des Ratgebers in Küfer von Jungvögeln, aber auch älteren Papageien, die bereits mehrere Haltungen erlebt haben, machen diesen Ratgeber auch für erfahrene Halter interessant. Ist die Entscheidung für den zukünftigen Papagei gefallen, so begleitet die Autorin den Leser

nach einem aufregenden Start in die Papageienhaltung durch das erste Jahr, den Alltag, die Pubertät, die Balz und das Seniorenalter des Papageis. Diese neue Reihe soll Heimvogelhaltern zu einem entspannten und freundlichen Verhältnis zu ihren zukünftigen Pfleglingen verhelfen, ohne Probleme zu verschweigen. Ursachen für Haltungsprobleme werden schon vor dem Kauf angesprochen, um späteren potentiellen Verhaltensproblemen vorzubeugen. Dieser Ratgeber begleitet Sie und Ihren Papagei durch den Alltag!

Like the bestsellers Princess and Not Without My Daughter, Do They Hear You When You Cry? tells the dramatic, compulsively readable story of a woman fighting to free herself from the injustices of her culture. Fauziya Kassindja's harrowing story begins in Togo, Africa, where she enjoyed a sheltered childhood, shielded by her progressive father from the tribal practice of polygamy and genital mutilation. But when her father died in 1993, Fauziya's life changed dramatically. At the age of seventeen, she was forced to marry a man she barely knew who already had three wives, and prepare for the tribal ritual practice of genital mutilation - a practice that is

performed without painkillers or antibiotics. But hours before the ritual was to take place, Fauziya's sister helped her escape to Germany, and from there she travelled to the United States seeking asylum - and freedom. Instead she was stripped, shackled and imprisoned for sixteen months by the Immigration and Naturalization Service. Enter Layli Miller Bashir, a twenty-three-year-old law student who took on Fauziya's case. When the two women met, Layli found a broken, emaciated girl with whom she forged an extraordinary friendship. Putting her heart into Fauziya's case, Layli enlisted help from the American University International

Human Rights Clinic. The clinic's acting director Karen Musalo, an expert in refugee law, assembled a team to fight on Fauziya's behalf. Ultimately, in a landmark decision that has given hope to many seeking asylum on the grounds of gender-based persecution, Fauziya was granted asylum on 13 June 1996. Here, for the first time, is Fauziya's dramatic personal story, told in her own words, vividly detailing her life as a young woman in Togo and her nightmarish day-to-day existence in American prisons. It is a story of faith and freedom, courage and inspiration - one that you will not easily forget.

During the Holocaust

the young Hetty was rounded up by the Nazis and sent for 14 long months to Belsen Concentration Camp. Hetty and her two little brothers were forcefully separated from their parents. This is her story; how she as one of the eldest children had to become the 'Little Mother' not only taking care of her two brothers but also forty young children living in Barrack 211 known as 'The Children's House of Belsen'. At fourteen-years-old, an unimaginable task amidst the inhumane conditions of hunger, cold, sickness death and despair, she kept up her spirits. A truly remarkable story of a young girl's determination.

Mark Mathabane first came to prominence with the publication of *Kaffir Boy*, which became a New York Times bestseller. His story of growing up in South Africa was one of the most riveting accounts of life under apartheid. Mathabane's newest book, *Miriam's Song*, is the story of Mark's sister, who was left behind in South Africa. It is the gripping tale of a woman -- representative of an entire generation -- who came of age amid the violence and rebellion of the 1980s and finally saw the destruction of apartheid and the birth of a new, democratic South Africa. Mathabane writes in *Miriam's voice* based on stories she told him, but he has re-created

her unforgettable experience as only someone who also lived through it could. The immediacy of the hardships that brother and sister endured -- from daily school beatings to overwhelming poverty -- is balanced by the beauty of their childhood observations and the true affection that they have for each other.

Why birds are smarter than we think Birds have not been known for their high IQs, which is why a person of questionable intelligence is sometimes called a "birdbrain." Yet in the past two decades, the study of avian intelligence has witnessed dramatic advances. From a time when birds were seen

as simple instinct machines responding only to stimuli in their external worlds, we now know that some birds have complex internal worlds as well. This beautifully illustrated book provides an engaging exploration of the avian mind, revealing how science is exploding one of the most widespread myths about our feathered friends—and changing the way we think about intelligence in other animals as well. Bird Brain looks at the structures and functions of the avian brain, and describes the extraordinary behaviors that different types of avian intelligence give rise to. It offers insights into crows, jays,

maggies, and other corvids—the “masterminds” of the avian world—as well as parrots and some less-studied species from around the world. This lively and accessible book shows how birds have sophisticated brains with abilities previously thought to be uniquely human, such as mental time travel, self-recognition, empathy, problem solving, imagination, and insight. Written by a leading expert and featuring a foreword by Frans de Waal, renowned for his work on animal intelligence, Bird Brain shines critical new light on the mental lives of birds.
