**Acrostic Poetry** Baker Books  
 This eclectic collection of essays focuses on a number of intriguing issues in translation: some of these "polemic" essays challenge certain widespread beliefs and practices: for example, the belief that humor is untranslatable; the assumption that translations are always inferior to the originals; the spread of translations that are more impenetrable to the target audience than the originals ever were to the source language audience; above all, the notion that translation is a marginal rather than a major area of study: indeed, as one essay suggests, translation may represent a model of thought, and translating a mode of thinking. These essays also consider the international trade in translations, the ratio of translations out of the language and of translations into the language, as a possible index to historical development; analyze the humor that can be translated as well as the humor that cannot be translated; uncover the implicit indicators of time and place in traditional Chinese poetry (offering thereby a study in comparative deictics); examine the hermeneutics of Old Testament exegeses, which -- unlike the modern world -- privileged the oral over the written word; discuss the subtle but definable differences between translations that appropriate previous versions by way of allusion and quotation, and translations that merely plagiarize. In the final section, entitled "Divertissements", Eugene Eoyang provides an exposition of his translation of a poem, first published in the People's Daily (and since banned), that contained a hidden -- and decidedly hostile -- acrostic, in which the challenge was not only to convey the original meaning but also to preserve the disguise of the original meaning in the Chinese text. (The translation appeared in

The New York Times.) He also offers a wry typology of translators, comparing them -- metaphorically and paronomastically -- to different species of birds; in a concluding coda, he excavates the place-names in bicultural and multilingual Hong Kong, uncovering not only translations and transliterations, but also "heteronyms" (different names for the same place) as well as, remarkably, "phononyms" (names where the pronunciation of a word in one language happens to coincide with a word in another language with the same meaning). The result is a provocative potpourri of fascinating insights into the cultural and semiotic complexities of translation that will surely interest students of translation, literature, linguistics, and history, as well as the informed general reader.

This book examines the material and immaterial values that are used and perceived in heritage educational environments that have been adapted to 21st century education needs. Offering an approach to architectural conservation practice focused on the design and implementation processes, it provides a post-occupation evaluation of the effects of such physical actions on historic learning environments and their values. A comprehensive study of architectural conservation and Theory of Change (ToC) is supported by an extensive literature review and personal insights from the author's everyday practice. Using a selection of recently rehabilitated historic secondary schools in Portugal (liceus), the text presents insights into their existing cultural significance, identifying the design strategies applied and assessing the short-term effects of design decisions on the cultural values. It demonstrates that, whilst design strategies were less concerned with social values, material cultural values were generally considered and preserved, contributing to the enhancement of intangible values. The implications of this research highlight the importance of evaluating actual effects in cultural heritage theory, architectural conservation practice and heritage management policy. Following worldwide investment in the rehabilitation of schools, the interest in this topic has grown among architectural heritage academics and practitioners, who seek to better understand and approach these learning environments in order to achieve better outcomes. The book will also be of interest to public policy makers, given its emphasis on the importance of stakeholder engagement in the conservation process and in the sustainability of re-using existing buildings. Furthermore, it will capture the attention of schools' stakeholders, including students, parents, teachers, non-teaching staff, alumni and the local community, for whom the school environment is a collective, shared memory.

Hebrew culture experienced a renewal in medieval Spain that produced what is arguably the most powerful body of Jewish poetry written since the Bible. Fusing elements of East and West, Arabic and Hebrew, and the particular and the universal, this verse embodies an extraordinary sensuality and intense faith that transcend the limits of language, place, and time. Peter Cole's translations reveal this remarkable poetic world to English readers in all of its richness, humor, grace, gravity, and wisdom. The Dream of the Poem traces the arc of the entire period, presenting some four hundred poems by fifty-four poets, and including a panoramic historical introduction, short biographies of each poet, and extensive notes. (The original Hebrew texts are available on the Princeton University Press Web site.) By far the most potent and comprehensive gathering of medieval Hebrew poems ever assembled in English, Cole's anthology builds on what poet and translator Richard Howard has described as "the finest labor of poetic translation that I have seen in many years" and "an entire revelation: a body of lyric and didactic verse so intense, so intelligent, and so vivid that it appears to identify a whole dimension of historical consciousness previously unavailable to us." The Dream of the Poem is, Howard says, "a crowning achievement."

Preachers often struggle with preaching Old Testament poetry. They are uncertain how to preach the highly emotive poems in Psalms, the one-liners in Proverbs, the tedious conversations in Job, the esoteric observations about life in Ecclesiastes, and the confusing love poems in the Song of Songs. Here leading pastor theologian Steven Mathewson instructs and inspires preachers to preach some of the most challenging--and some of the richest--material in the Old Testament. This companion to his successful *The Art of Preaching Old Testament Narrative* guides readers through preaching the oft-neglected Old Testament poetic books. Mathewson introduces foundational issues and offers basic methodology and preaching strategies that are faithful to the text and sensitive to its listeners. Highlighting Mathewson's skill at bringing the riches of the Old Testament to bear on the life of the church, this book makes scholarship on the poetic books accessible for pastors and pastors-in-training. It also includes sample sermons.

In this extensive study of two of the most celebrated seventeenth-century religious poets, Robert Whalen examines the role of sacrament in the formation of early modern religious subjectivity. For John Donne and George Herbert, sacramental topoi became powerful conceptual tools with which to explore both the intersection of spiritual and material aspects of human experience and their competing claims to Christianity. Whalen's argument builds upon his central idea of 'sacramental Puritanism,' or the effort to cultivate a Calvinist sense of interiority through a fully ceremonial apparatus, and thereby to reconcile the potentially disparate imperatives of sacrament and devotion. Unique in its combination of current historiography and informed analysis, its attention to the sacramental features of Donne's 'secular' lyrics, and its advancement of sacramental thought as an important element of Renaissance English culture, *The Poetry of Immanence* illuminates a crucial dimension of the work of two major Stuart writers. In his comprehensive critical readings, Whalen offers a substantial contribution to the increasing study of religious themes and devotion in the literature of the early modern period.

*A Word Fitly Spoken* explores significant poetic devices within the four alphabetic acrostic psalms found in Book I of the Psalter. The majority of scholarly opinion has been that these acrostics are poetically and artistically deficient due to the writers' and editors' preoccupation with the alphabetic pattern. In contrast to this view, *A Word Fitly Spoken* proposes that the acrostic pattern contributes to, rather than detracts from, the poetic artistry of these psalms. In an effort to promote a holistic, canonical reading of the four acrostic poems within Book I of the Psalter, this study also examines the linguistic and grammatical connections within the text. Such a close reading repeatedly demonstrates the emotive power and the imagination of this literature in contradiction to its supposedly stiff, wooden nature. *A Word Fitly Spoken* is attuned to the frequent plays on word and sound that occur throughout these four poems and as such would be useful in graduate courses on biblical interpretation, Hebrew poetry, or the Psalms.

[40 Days in Psalms](#) Jessica Kingsley Publishers

The presence of didactic, wisdom-like passages in the Book of Psalms presents a puzzle because it suggests a non-liturgical origin and pedagogical aim distinct from the more dominant psalmic language of lament and praise. Catherine Petran argues for a literary and theological approach to the question of wisdom's role in the psalms that accounts for its meaningful integration with these other kinds of discourse. The unique contextualization of wisdom motifs in the psalms creates a pedagogical platform unique to the book, one related to but distinct from the pedagogies of the biblical wisdom corpus. Human wisdom speech in the psalms points beyond the classroom to the congregation and asks its hearers to become speakers, that is, to enter into conversation with the divine.
