"Rising above extreme adversity was the common response from those with whom I served in North Vietnamese prisoner-of-war camps. Dave Carey, a truly motivational individual, describes in heartbreaking detail his experience and, much more importantly, the lessons he learned from that experience and has applied in his life. His is a story of courage and honor and I commend it to anyone who seeks to find the positive that can come from the worst of times." -- Senator John McCain "The Ways We Choose is a powerful story of how, together, American POWs in the Hanoi Hilton were able not just to survive, but to be victorious over great adversity. Dave Carey presents simple, yet profound lessons in perseverance and victory." -- Ken Blanchard, co-author of *The One Minute Manager* and *Leadership By The Book* "Dave Carey has written a riveting book that poignantly illustrates the triumph of the human spirit. His experience of conquering in a horrendous environment is a powerful example of and motivator for winning the everyday battles of life. This book is a winner." -- Dr. Ron Jenson, chairman Future Achievement International; author *Make Life Not Just A Living* Dave Carey is a graduate of the United States Naval Academy. During the Vietnam War, after his plane was shot down, he was interred as a POW in Hanoi for five and a half years. His military honors include the Legion of Merit, five Bronze Stars, two Meritorious Service Medals, the Purple Heart, eight Air Medals, and the Navy Commendation Medal. He resumed his career as a Naval officer after returning from Vietnam. During that time he held three positions as commanding officer, including service as Director of the Navy's Leadership and Management program. He retired with the rank of Captain.

Let's be blunt: library funding is political. And the struggle to secure funding is ongoing; the work that librarians need to do to influence local politics doesn't just pop up in the few months before Election Day. It should span the years before or between elections. The authors' previous book *Winning Elections and Influencing Politicians for Library Funding* targeted library ballot committees and advocacy organizations. But their new book speaks directly to librarians, library staff, and boards. It is designed to help library leaders understand and navigate the political nature of their work in the years leading up to a ballot measure or political initiative. Sharing the tools and tactics developed by their organization EveryLibrary, the nation's first and only Political Action Committee for Libraries, in this book they discuss how the day-to-day work of librarians, their communications

with the public, and their roles and responsibilities in the community can help increase the willingness of public and local elected officials to support funding libraries through taxes; guide readers through the practical side of running a public-facing Informational Communications Campaign for their library before Election Day; explain the concept of surfacing, the important groundwork of occupying a strong and positive space in the community during the years before and between ballot measures; demonstrate why surfacing is one of the most crucial steps a library can take to build and maintain support; share the most recent data insights into voter attitudes about libraries and librarians; show how libraries can coordinate internally to build new external partners; offer advice on finding, activating, and holding onto supporters; and discuss the path to the ballot with practical insights about how to get onto the ballot. This essential resource is filled with concrete steps that librarians, library staff, and boards can take to ensure that political support is there when they need it the most.

"The Victorian cup on my shelf--a present from my mother--reads 'Love the Giver.' Is it because the very word patronage implies the authority of the father that we have treated American women patrons and activists so unlovingly in the writing of our own history? This pioneering collection of superb scholarship redresses that imbalance. At the same time it brilliantly documents the interrelationship between various aspects of gender and the creation of our own culture."--Judith Tick, author of *Ruth Crawford Seeger: A Composer's Search for American Music* "Together with the fine-grained and energetic research, I like the spirit of this book, which is ambitious, bold, and generous minded. *Cultivating Music in America* corrects long-standing prejudices, omissions, and misunderstandings about the role of women in setting up the structures of America's musical life, and, even more far-reaching, it sheds light on the character of American musical life itself. To read this book is to be brought to a fresh understanding of what is at stake when we discuss notions such as 'elitism, ' 'democratic taste, ' and the political and economic implications of art."--Richard Crawford, author of *The American Musical Landscape* "We all know we are indebted to royal patronage for the music of Mozart. But who launched American talent? The answer is women, this book teaches us. Music lovers will be grateful for these ten essays, sound in scholarship, that make a strong case for the women philanthropists who ought to join Carnegie and Rockefeller as household words as sponsors of music."--Karen J. Blair, author of *The Torchbearers: Women and Their Amateur Arts Associations in America*
