Fill-in Mini Books National
 Geographic Books

The next Big Book in the
 series introduces young
 children to some of the
 most colorful,
 magnificent, silly, and
 surprising feathered
 creatures from around the
 world. Following up the
 hugely successful The Big
 Book of Bugs, The Big
 Book of Beasts, and The
 Big Book of the Blue, The
 Big Book of Birds is a fact-
 filled tour of the world's

most wonderful winged creatures. Yuval Zommer's distinctive illustrations show off some of the most colorful, flamboyant, impressive, and wacky birds of the sky. Picture-book charm pairs with informative nonfiction to make a beautiful, large-format title for parents to share with young children and for older children to read by themselves. The book draws in children and parents alike with captivating information about and charming illustrations of

hummingbirds, peacocks, flamingos, bald eagles, secretary birds, puffins, red-crowned cranes, and more. The book also invites young bird-watchers to protect birds where they live and make their gardens bird-friendly. The text is chatty, funny, and full of remarkable facts. Yuval Zommer's illustrations and fresh approach are what make this series feel distinct. His glorious and quirky pictures appeal to young children, who will relish the flighty questions and pithy facts about the

most exciting creatures of the sky.

The Big Book of Things That Go Big Books

If you were asked to come up with a list of the most important events, inventions, people, or discoveries in the past 100 or 1,000 years, what would you choose? TIME FOR KIDS new Big Book of When, the newest release from the hugely successful Big Book Series, is a riveting new resource for younger curious readers. This engaging and instructive book presents kids with

answers to the kinds of intriguing questions that appeal to their sense of curiosity about when the most important events in history happened. Colorful graphs, spectacular photos, and clear, engaging timelines help answer a myriad of questions. TIME FOR KIDS Big Book of When is a must have book to satisfy the most curious kids. It will have readers of all ages thumbing through its pages again and again.

Monsters Are Baloney

DK Publishing (Dorling Kindersley)

After The Big Book of Bugs and The Big Book of Beasts, the hugely successful series Following the wild success of The Big Book of Bugs and The Big Book of Beasts, The Big Book of the Blue is the third installment in Yuval Zommer's beloved series. Alongside everything the young oceanographer needs to know, Zommer's charming illustrations bring to life some of the slipperiest, scaliest, strangest, and most monstrous underwater animals. The book opens

by explaining how different types of animals are able to breathe and survive underwater, and the different families to which they belong. Subsequent pages are dedicated to specific creatures, including sea turtles, whales, sharks, stingrays, and seahorses, and show varied life in specific habitats, such as a coral reef or deep sea bed. The Big Book of the Blue also explores the underwater world thematically, looking at animals in danger, learning how to spot

creatures at the beach, and discovering how to do our part to save sea life. Beautiful and filled with fascinating facts, young, curious readers won't be able to tear their eyes away from the page.

Rhyming Around the Alphabet Welcome Books This book has over two hundred stickers and is filled with fun facts and activities centered around birds. Drawing from Yuval Zommer's hugely popular, fact-filled *The Big Book of Birds*, this jam-packed sticker activity book brings the avian world

alive in a creative way. Taking fascinating facts as its starting point, activities invite children to draw, color, and play games with birds from around the world—creating an interest in nature as they play. Yuval Zommer's rich illustrations illuminate some of the quirkiest creatures in the animal kingdom. *The Big Sticker Book of Birds* features over two hundred fantastic stickers for children to use in their drawings and to complete games and puzzles.

Bad Luck Duck First Edition Design Pub. *I Like Big Books and I Cannot Lie* brings fun and laughter to lovers of '70s and '80s music as well as book lovers. This fun, full-color book is full of trivia, puzzles, and games that tie books and music together in a way you've likely never considered. Parodies, quizzes, trivia, and crossword puzzles bring nostalgia and *The Big Book of ACT Metaphors* National Geographic Books They have magical, rhythmic, rhyming text so

students will want to read and re-read them over and over. For teachers, a different teaching focus is suggested for each day: - Day 1: Comprehension - Day 2: Vocabulary - Day 3: Flow/Phrasing/Fluency - Day 4: Phonic Knowledge, Phonemic Awareness - Day 5: Oral, Written and Visual Language The FOCUS PANEL provides prompts to support each focus. 1 copy of 1 Big Book.

Day 5: Oral, Written and Visual Language The FOCUS PANEL provides prompts to support each focus. 1 copy of 1 Big Book.

Super Squid Clever Publishing
Metaphors and exercises play an incredibly important part in the successful delivery of acceptance and commitment therapy (ACT). These powerful tools go far in helping clients connect with their values and give them the motivation needed to make a real, conscious

commitment to change. Unfortunately, many of the metaphors that clinicians use have become stale and ineffective. That's why you need fresh, new resources for your professional library. In this breakthrough book, two ACT researchers provide an essential A-Z resource guide that includes tons of new metaphors and experiential exercises to help promote client acceptance, defusion from troubling thoughts, and values-based action. The book also includes scripts

tailored to different client populations, and special metaphors and exercises that address unique problems that may sometimes arise in your therapy sessions. Several ACT texts and workbooks have been published for the treatment of a variety of psychological problems. However, no one resource exists where you can find an exhaustive list of metaphors and experiential exercises geared toward the six core elements of ACT. Whether you are treating

a client with anxiety, depression, trauma, or an eating disorder, this book will provide you with the skills needed to improve lives, one exercise at a time. With a special foreword by ACT cofounder Steven C. Hayes, PhD, this book is a must-have for any ACT Practitioner.

Big Book of Spot the Difference Narrow Gate Books

Packed with trucks, cars, ships, and planes DK's The Big Noisy Book of Things That Go is filled with amazing facts for

young children. Discover every type of transport imaginable in this fun, informative visual guide, from trucks and diggers to aeroplanes and trains, kids will find out all about how things go on the road, at sea and in the air. The annotated high-resolution photographs show them in stunning detail everything there is to know about these vehicles. Including the latest breakthroughs in the world of transport, DK's *The Big Noisy Book of Things That Go* is the perfect book for any child

who has been fascinated by any type of vehicle. *Mice in the Kitchen Time For Kids* They have magical, rhythmic, rhyming text so students will want to read and re-read them over and over. Pirate Polly HarperCollins Concepts embody our knowledge of the kinds of things there are in the world. Tying our past experiences to our present interactions with the environment, they enable us to recognize and understand new objects and events. Concepts are also

relevant to understanding domains such as social situations, personality types, and even artistic styles. Yet like other phenomenologically simple cognitive processes such as walking or understanding speech, concept formation and use are maddeningly complex. Research since the 1970s and the decline of the "classical view" of concepts have greatly illuminated the psychology of concepts. But persistent theoretical disputes have sometimes obscured this progress.

The Big Book of Concepts goes beyond those disputes to reveal the advances that have been made, focusing on the major empirical discoveries. By reviewing and evaluating research on diverse topics such as category learning, word meaning, conceptual development in infants and children, and the basic level of categorization, the book develops a much broader range of criteria than is usual for evaluating theories of concepts.

Big Book of WHEN (A TIME

for Kids Book) National Geographic Books

Why do we have eyebrows? What's a black hole and what happens if you fall into one? What's the fastest a human is capable of running? Why do wet fingers stick to metal in the freezer? Where is the deepest point on Earth?

Divided by subject area - humans, animals, environment/nature, technology, and space - and written in an upbeat manner, each answer is accompanied by either a photo or an illustration to show the rea-

sons why. Of course, TIME for Kids goes beyond answering the question by dipping into the science or history to further explain the answer in an easy-to-follow, straightforward manner. This is a must-have book to satisfy the most curious of kids and provokes a great way to encourage interest and knowledge about a wide range of subjects, as well as to stimulate reading. Kids will be desperate to share what they've learned with their parents, teachers, and friends...and anyone else who

will listen.
