This hand-picked collection of untranslatable worlds from all over the world celebrates the magic of language, with gorgeous original artwork and fascinating facts about each word and the

The bright, taut, explosive poems in Jordan Scott's *Blert* represent a spelunk into the mouth of the stutterer. Through the unique symptoms of the stutter (Scott, like fifty million others, has always stuttered), language becomes a rolling gait of words hidden within words, leading to different rhythms and textures, all addressed by the mouth's slight erosions. In Scott's lexicon, to blert is to stutter, to disturb the breath of speaking. The stutter quivers in all that we do, from a skip on a CD to a slip of the tongue. These experiences are often dismissed as aberrant, but in *Blert*, such fragmented milliseconds are embraced and mined as language. Often aimed full-bore at words that are especially difficult for the stutterer, Scott's poems don't just discuss, they replicate the act of stuttering, the 'blort, jam, and rejoice' involved in grappling with the granular texture of words.

In this new edition of a wordless modern classic, a frog picks a beautiful flower. When a mouse sees him with it, his jealousy overcomes him, and he grabs it for himself. Then Frog's friends chase the mouse away. But before the frogs can

celebrate, a counter-attack from Mouse's friends surprises them—and the conflict soon escalates into a full-blown war. When the dust finally clears, all either side can ask is: Why? With an afterword by children's literature expert Leonard S. Marcus, this seemingly simple book is an invaluable way to talk to young children about conflict and warfare.

Bear Feels Sick HarperCollins UK Ukraine's most famous novelist dramatises the conflict raging in his country through the adventures of a mild-mannered beekeeper. "A warm and surprisingly funny book from Ukraine's greatest living novelist" Charlie Connelly, New European Books of the Year Little Starhorodivka, a village of three streets, lies in Ukraine's Grey Zone, the no-man's-land between loyalist and separatist forces. Thanks to the war, only two residents remain: retired safety inspector turned beekeeper Sergey Sergeyich and Pashka, his "frenemy" from his schooldays. With little food and no electricity, under ever-present threat of bombardment, Sergeyich's one remaining pleasure is his bees. As spring approaches, he knows he must take them far from the Grey Zone so they can collect their pollen in peace. This simple mission on their behalf introduces him to combatants and civilians on both sides of the battle lines: loyalists, separatists, Russian occupiers and Crimean Tatars. Wherever he goes, Sergeyich's childlike simplicity and strong moral compass disarm everyone he meets. But could these qualities be manipulated to serve an unworthy cause, spelling disaster for him, his bees and his country? Translated from the Russian by Boris Dralyuk
