RISHI VALENTINE

Singing Flails Palgrave Macmillan

Dieses Buch bietet einen umfassenden Einblick in die Geschichte und die Entwicklung des deutschen Madrigals von seinen Anfängen im 16. Jahrhundert bis zur Mitte des 18. Jahrhunderts. Karl Vossler, ein bedeutender Vertreter der deutschen Sprach- und Literaturwissenschaften, zeigt auf eindringliche Weise die verschiedenen Entwicklungsstufen des Madrigals auf und stellt heraus, wie sich dieses Genre im Laufe der Zeit verändert hat. Das Werk ist ein Klassiker der Musikgeschichtsschreibung. This work has been selected by scholars as being culturally important,

and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. Havelock Ellis dubbed *The Homosexuality of Men and Women* "encyclopedia". Winner of Choice: Current Reviews for Academic Libraries best release for the year 2000: "A major German

classic...a remarkable tome. This excellent translation by Lombardi-Nash brings Hirschfeld alive." -- R. W. Smith, California State University, Northridge. "This work is indispensable and unsurpassed. It belongs in every library." --William A. Percy and John Lauritsen, *The Gay & Lesbian Review*. "I clearly also owe a great debt to Paul Nash as well; both of you have had a huge impact." --Gayle Rubin

German Influences on Education in the United States to 1917

Walter de Gruyter

The Neanderthal is among the most mysterious relatives of Homo sapiens: Was he a dull, club-swinging muscleman, or a being with developed social behaviour and the ability to speak, to plan precisely, and even to develop views on the afterlife? For many, the Neanderthals are an example of primitive humans, but new discoveries suggest that this image needs to be revised. Half a million years ago in Ice Age Europe, there emerged people who managed to cope well with the difficult climate - Neanderthal Man. They formed an organized society, hunted Mammoths, and could make fire. They were able to pass on knowledge; they cared for the old and the handicapped, burying their dead, and placing gifts on their graves. Yet, they became extinct, despite their cultural abilities. This richly illustrated book, written for general audiences, provides a competent look at the history, living conditions, and culture of the Neanderthal.

Hölderlin's Madness Berg Publishers

Finally available in English to coincide with the 150th anniversary,

this highly original study of the German Revolution of 1848-49 examines the "failure" of the revolution, its repression and the attempts to come to terms with this repression. Wolfram Siemann's analysis centers on the contradictory forms of collective protest, the tensions in the social, agrarian and commercial spheres, the nature of the crisis cycles of the Vormarx period, the different stages of development in individual German territories, and the regional centers of industrialization and politicization. It is against this backdrop that the "failure" of the revolution is put into perspective.

"Companion volume to Politics and government in the Federal Republic of Germany"--Editor's pref.

The Shiites Harvard University Press

Die IBOHS verzeichnet jährlich die bedeutendsten Neuerscheinungen geschichtswissenschaftlicher Monographien und Zeitschriftenartikel weltweit, die inhaltlich von der Vor- und Frühgeschichte bis zur jüngsten Vergangenheit reichen. Sie ist damit die derzeit einzige laufende Bibliographie dieser Art, die thematisch, zeitlich und geographisch ein derart breites Spektrum abdeckt. Innerhalb der systematischen Gliederung nach Zeitalter, Region oder historischer Disziplin sind die Werke nach Autorennamen oder charakteristischem Titelhauptwort aufgelistet.

Catalog of Copyright Entries. Third Series Berghahn Books
Wolfram Siemann tells a new story of Clemens von Metternich, the Austrian at the center of nineteenth-century European diplomacy. Known as a conservative and an uncompromising

practitioner of realpolitik, in fact Metternich accommodated new ideas of liberalism and nationalism insofar as they served the goal of peace. And he promoted reform at home.

Travels in the Interior of Africa Cambridge University Press

Otto von Bismarck (1815-1898) ist die wohl wichtigste Gestalt der deutschen Geschichte des 19. Jahrhunderts. Der ostelbische Junker übernimmt 1862 unter ungünstigsten Umständen das Amt des preussischen Ministerpräsidenten, führt mit zwei Kriegen die kleindeutsche Reichsgründung herbei und gestaltet bis zu seiner Entlassung durch Wilhelm II. 1890 maßgeblich die Innen- und Aussenpolitik des Kaiserreichs. Eberhard Kolb schildert anschaulich Bismarcks Lebensweg und beschreibt mit souveräner Kennerschaft die Leistung des Reichsgründers.

Advanced historical analysis of the life and time of Moses by a radical biblical critic.

Das frühe Persien OUP Oxford

Charlemagne was the first emperor of medieval Europe and almost immediately after his death in 814 legends spread about his military and political prowess and the cultural glories of his court at Aix-la-Chapelle.

Airport Competition Franklin Classics Trade Press

A biography of the German statesman Bismarck, which looks not only at his personal achievements but at how he may have affected the subsequent history of Germany and Europe.

Art of the Celts Yale University Press

Provides a comprehensive introduction to the human, social and economic aspects of science and technology. It is broad, interdisciplinary and international, with a focus on Australia. The authors present complex issues in an accessible and engaging form. Invaluable for both students and teachers.

Moses De Gruyter Saur

This volume summarizes recent scholarship on German-American relations in the field of education until World War I. The articles prove the various influences of German scholarship and institutions on the development of the American system of education from kindergarten to university. The book provides an overview for the benefit of scholars, students and the interested general reader. As a cooperative effort of German and American scholars the volume is intended to stimulate further exploration of these themes on both continents.

Germany's Aims in the First World War LIT Verlag Münster

The big landlords of eastern Germany have loomed large in the country's history, but the absence of official statistics on landownership has left their position and identity confined to folklore, without satisfactory quantification. This study, making extensive use of primary sources from the seven 'core provinces' of eastern Germany-the so-called 'East Elbian' region-establishes answers to questions pivotal to our understanding of pre-war Germany: who were the biggest landowners, both by area and by the tax assessment of their land? Which social groups held land? How much land did they own and where? How did this change, especially during the last decades before the Great War? Professor Eddie demonstrates that most of the inroads into landownership by the bourgeoisie had already been made by the mid-1850s, perhaps even before the mid-1830s. However, one of the most interesting findings in this study is that, despite rapid industrialization after 1880, there was a net exodus of the nouveaux riches from the ranks of large land owners. On the eve of war, the largest landowners were the Prussian state, the royalty, and the higher nobility. Meticulously researched and thoroughly documented, this book will be the benchmark for all future work in this area.

Hitler's Volksgemeinschaft and the Dynamics of Racial Exclusion
Hansebooks

In the span of only seventy years, Estonia first proclaimed its independence, was occupied and deprived of its sovereignty, saw many of its citizens deported, and yet managed to recover its independence. How did this small nation keep its language and traditions alive during half a century of occupation, and how did it maintain such a vivid sense of identity? For the first time in

English, this book gives a comprehensive view of the events which shaped the destiny of contemporary Estonia. The Editor, Jean-Jacques Subrenat, has called upon an unusually broad spectrum of the best experts (in history, archeology, political science, genetics, literature), but also on some of the leaders who took part in the rebuilding of Estonia, to offer more than a history, rather a unique testimony on a nation reborn. Estonia: Identity and Independence provides rare insight into the many aspects of a country whose location in Northern Europe, within the European Union, and as a NATO ally, but also as a close neighbour of Russia, deserves the attention of scholars, journalists, and informed readers today. This volume includes a thorough chronology of Estonia (from prehistory to accession to the European Union), and a brief c.v. of each co-author. Estonia: Identity and Independence is also available in three other languages (A. Bertricaeu is the pen-name of Jean-Jacques Subrenat, the initiator and Editor of this book): Estonian: 1st and 2nd edition: A. Bertricaeu, "Eesti identiteet ja iseseisvus," published by Avita in Tallinn, 2001 and 2002; Russian: A. Bertricaeu, "Samoopredelenie i nezavissimost' Estonii," published by Avita in Tallinn, August 2001; French: A. Bertricaeu, "Estonie, identite et independance," published by L'Harmattan in Paris, November 2001.

To Die for Germany Copyright Office, Library of Congress

The author highlights the three main aspects of Shi'a Islam: its historical development, especially the history of the Imams; the rituals, including flagellation and passion plays; and the rule of the mullahs, known as the "government of experts." Shi'ism is as old as Islam. It began as an exclusively Arab political issue of

succession to Muhammad, and was later embraced by the Iranians. At the core of Shi'i religious practice are rituals of mourning and atonement.--Publisher description.

Landownership in Eastern Germany Before the Great War
Springer Science & Business Media

In the spring of 1933, German society was deeply divided – in the Reichstag elections on 5 March, only a small percentage voted for Hitler. Yet, once he seized power, his creation of a socially inclusive Volksgemeinschaft, promising equality, economic prosperity and the restoration of honor and pride after the humiliating ending of World War I persuaded many Germans to support him and to shut their eyes to dictatorial coercion, concentration camps, secret state police, and the exclusion of large sections of the population. The author argues however, that the everyday practice of exclusion changed German society itself: bureaucratic discrimination and violent anti-Jewish actions destroyed the civil and constitutional order and transformed the German nation into an aggressive and racist society. Based on rich source material, this book offers one of the most comprehensive accounts of this transformation as it traces continuities and discontinuities and the replacement of a legal order with a violent one, the extent of which may not have been intended by those involved.

Hamburger Adressbuch Routledge

Vascular pathology is essentially based on a transverse, the main basic lesions, this book provides precise multi-organ approach to pathology. It has been the descriptions in all of the main areas : atherosclerotic, subject of only a few reference works as it tends to be inflammatory, dysplastic, and traumatic diseases, etc. ignored by organ specialists. However, the vascular Throughout this book, the lesions are precisely system is widely distributed in all tissues ; it is modelled described with identification of the various recognized very early during organogenesis by haemodynamic syndromes and discussion of the main established factors, it possesses a remarkable reactivity and pathophysiological interpretations, together with a plasticity, and it is involved in a large number of complete bibliography. pathological processes. General pathologists are often poorly equipped to interpret morphological features We hope this book, based on the authors' medical and encountered during histological examination and to scientific knowledge, has the success it deserves. We integrate these findings into a rational approach. would like to thank them for giving us a very well documented book, which will be useful to both This book by Doctor Phat N. VUONG and Professor students and experienced pathologists.
