This thesis presents the underlying mechanisms for the occurrence of surface anomalies in turning of difficult-to-cut materials with high-pressure coolant supply. Based on empirical and

analytical investigations of each type of surface anomaly, the cause-and-effect relationships between the relevant process parameters and the surface quality were identified, translated into an explanation model and validated in a case study. Finally, an overview of different possibilities for anomaly-free machining with high-pressure coolant supply were discussed.

Little John lives a lifetime of adventure—from humble ferryman to legendary outlaw John Little is strong enough to be a knight, but he knows he is destined to life as a thief. He spends his days on the river, poling nobles back and forth on a wooden ferry, the master of which robs the passengers blind. When an arrogant knight draws his sword to protect his purse, John defends his unscrupulous boss. The struggle leaves the knight dead, and John becomes an outlaw who must flee into the forest to hide from the king's justice. John thinks his life is over, but his adventure has just begun. In shadowy Sherwood Forest, John meets a

mysterious bandit dressed in green, who goes by the name Robin Hood. At Robin Hood's side, John Little becomes "Little John"—friend of the poor, defender of the weak, and scourge of evil men across Nottinghamshire.

At the age of 43, Thomas Brookbank volunteered to join the army in September 1914 just weeks after the start of the war and when the wounded from the first encounters with the German army at Mons and Le Cateau were arriving back in England. There was nothing special about Tom Brookbank. He was a painter and a decorator by trade, but he was swept along in the surge of patriotism that drove hundreds of thousands of ordinary men and women to respond to the Kitchener's call

for the raising of a great volunteer army - an enterprise that most military men of the time, friend and foe alike, regarded as a ludicrous waste of time and money. This much was known by family legend, together with knowledge that he had gone to Italy in November 1917 with the 41st Division in response to the near collapse of the Italian army at Caporetto that he ended the war in Belgium with this Division. Tom Brookbank need not have volunteered at all. He was too old to be fighting a soldier and was well over the age group that Kitchener was calling for, but there was also a need for men in the support services behind the lines - the men of the Army Services Corps - and this is where Tom Brookbank and fellow men like him ended up. Early research showed that he did not start

the war with the 41st Division, so, what happened to him, what did he do and where did he go? 'Searching for Pop' is the story of a grandson's search for the answers to what he did and where he went between the time he volunteered and his discharge at the end of the war. It illustrates what might be achieved from a very limited amount of initial knowledge by perseverance and the use of the records available in National Archives.

'There was a rumour, too, that he was a devil-worshipper, or something of that sort, and also that he had the evil eye...' Arthur Conan Doyle was the greatest genre writer Britain has ever produced. Throughout a long writing career, he drew on his own medical background, his

travels, and his increasing interest in spiritualism and the occult to produce a spectacular array of Gothic stories. Many of Doyle's writings are recognized as the very greatest tales of terror. They range from hauntings in the polar wasteland to evil surgeons and malevolent jungle landscapes. This collection brings together over thirty of Conan Doyle's best "Gothic Tales," in a scholarly edition for the first time. Darryl Jones's introduction discusses the contradictions in Conan Doyle's very public life - as a medical doctor who became obsessed with the spirit world, or a British imperialist drawn to support Irish Home Rule - and shows the ways in which these found articulation in that most anxious of all literary forms, the Gothic.

Shift of Fate Oxford University Press
Among the British troops bound for the Black Sea in May 1854 was a young officer in the 5th Dragoon Guards, Richard Temple Godman, who sent home throughout the entire Crimea campaign many detailed letters to his family at Park Hatch in Surrey. Temple Godman went out at the start of the war, took part in the successful Charge of the Heavy Brigade at Balaklava and in other engagements, and did not return to England until June 1856, after peace had been declared. He took three very individual horses and despite all his adventures brought them back unscathed. Godman's dispatches from the fields of war reveal his wide interests and varied experiences; they range from the pleasures of riding in a foreign

landscape, smoking Turkish tobacco, and overcoming boredom by donning comic dress and hunting wild dogs, to the pain of seeing friends and horses die from battle, disease, deprivation and lack of medicines. He writes scathingly about the skein of rivalries between the Generals (□a good many muffs among the chiefs□), inaccurate and □highly coloured□ newspaper reports and, while critical of medical inefficiency, regards women in hospitals as □a sort of fanaticism□. Yet at other times he will employ the pen of an artist in describing a scene, or wax eloquent on the idiosyncrasies of horses. He is altogether a most gallant and sensitive young cavalryman, and deservedly went on to achieve high rank after the war. Always fresh and easy to read, his letters

provide an unrivalled picture of what it was really like to be in the Crimea.

The Civil War may be over, but in this thrilling historical novel, the battle for the West is only just beginning. Dakota Territory, 1866. Following the murders of a frontier fort's politically connected sutler and his wife in their illicit off-post brothel, Lieutenant Martin Molloy and his long-suffering orderly, Corporal Daniel Kohn, are ordered to track down the killers and return with "boots for the gallows" to appease powerful figures in

Washington. The men journey west to the distant outpost in a beautiful valley, where the soldiers inside the fort prove to be violently opposed to their investigations. Meanwhile, Irish immigrant brothers Michael and Thomas O’Driscoll have returned from the brutal front lines of the Civil War. Unable to adapt to life as migrant farm laborers in peacetime Ohio, they reenlist in the army and are shipped to Fort Phil Kearny in the heart of the Powder River Valley. Here they are thrown into merciless combat with Red Cloud’s coalition of Native tribes fighting American expansion into their hunting grounds. Amidst the daily carnage, Thomas finds a love that will lead to a moment of violence as brutal as any they have witnessed in battle—a moment that will

change their lives forever. Blending intimate historical detail and emotional acuity, *Wolves of Eden* sets these four men on a deadly collision course in a haunting narrative that explores the cruelty of warfare and the resilience of the human spirit.

Jess Willard, the "Pottawatomie Giant," won the heavyweight title in 1915 with his defeat of Jack Johnson, the first black heavyweight champion. At 6 feet, 6 inches and 240 pounds, Willard was considered unbeatable in his day. He nonetheless lost to Jack Dempsey in

1919 in one of the most brutally one-sided contests in fistic history. Willard later made an initially successful comeback but was defeated by Luis Firpo in 1923 and retired from the ring. He died in 1968, largely forgotten by the boxing public. Featuring photographs from the Willard family archives, this first full-length biography provides a detailed portrait of one of America's boxing greats.

Dr. John Thorndyke is a medical jurispractitioner - originally a medical

doctor, he turned to the bar and became one of the first, in modern parlance, forensic scientists. His solutions were based on his method of collecting all possible data (including dust and pond weed) and making inferences from them before looking at any of the protagonists and motives in the crimes. (Freeman, it is said, conducted all experiments mentioned in the stories himself.) It is this method which gave rise to one of Freeman's most ingenious inventions, the inverted detective story, where the criminal act is described first and the interest lies in Thorndyke's subsequent unraveling of it.
