 "The first cocktail book from the award-winning mixologist Masahiro Urushido of Katana Kitten in New York City, on the craft of Japanese cocktail making"--

 This book is about the emigration, film careers and socio-cultural influence of British filmmakers moving to Hollywood in the studio era. It deals with some of the unknown and neglected émigrés, as well as the leading lights who founded, initiated and ensured that American film became the leading national cinema of the

twentieth century.

 This volume explores the notion of "affective media" within and across different arts in Japan, with a primary focus on music, whether as standalone product or connected to other genres such as theatre and photography. The volume explores the Japanese reception of this "affective media", its transformation and subsequent cultural flow. Moving from a discussion of early encounters with the West through Jesuits and others, the contributors primarily consider the role of music in the nineteenth, twentieth, and twenty-first centuries. With ten original chapters, the volume covers a wealth of themes, from education, koto music, guitar making, avant-garde recorder works, musicals and rock photography, to

interviews with contemporary performers in jazz, modern rock and J-pop. Innovative and fascinating, the book provides rich new insights and material to all those interested in Japanese musical culture.
The History of the Decline and Fall of the Roman Empire by Edward Gibbon
 Bloomsbury Publishing
 Film historian James Chapman has mined Hitchcock's own papers to investigate fully for the first time the spy thrillers of the world's most famous filmmaker. Hitchcock made his name as director of the spy movie. He returned repeatedly to the genre from the British classics of the 1930s, including *The 39 Steps* and *The Lady Vanishes*, through wartime Hollywood films *Foreign Correspondent* and *Saboteur* to the Cold War tracts *North by Northwest*, *Torn Curtain* and his

unmade film *The Short Night*. Chapman's close reading of these films demonstrates the development of Hitchcock's own style as well as how the spy genre as a whole responded to changing political and cultural contexts from the threat of Nazism in the 1930s and 40s to the atom spies and double agents of the post-war world.
