|Owners edition. This
Owners Edition -
Workshop Manual covers
the following Mercedes-
Benz Vito and V-Class
petrol and diesel powered
vehicles spanning model
years 2000 to 2003. The
petrol model 113 with 130
b.h.p. engine (type 111)
and the three diesel
models 108 CDI, 110 CDI
and 112 CDI, all fitted
with the latest common
rail 2.2 litre diesel

engines. Depending on
the version, the power
units have outputs of 82
b.h.p., 102 b.h.p. and 122
b.h.p. respectively. In
Sections 0 and 1 can be
found further details of
the various models and
engines dealt with here.
This manual has been
written for the practical
owner who wants to
maintain their vehicle in
first-class condition and
carry out the bulk of their

own servicing and repairs. Comprehensive step-by-step instructions are provided for service and overhaul operations to guide the reader through what might otherwise be unfamiliar and complicated tasks and hundreds of illustrations are included to amplify the text. With the aid of this manual, many aspects of service, overhaul and repair are within the scope of an owner with a reasonable degree of mechanical aptitude. Some operations however demand more

skill. Other jobs require the use of special tools and in some cases, testing facilities and techniques that are not generally available. Only you can judge whether a job is within your capabilities. We do however try to assist the reader to come to an informed decision. Whilst every effort has been made to ensure that the information provided is correct, it is obviously not possible to guarantee complete freedom from errors or omissions. Information to be found in

the driver's handbook is not necessarily duplicated here and it is not possible within this volume to cover every aspect to be found in the manufacturer's own workshop manual which is of much greater size and complexity. However, it should be consulted if more detailed information is needed. Always remember that you are responsible for your own safety and that of others when working with you on a vehicle. Take particular care with safety-related systems like the brakes

and steering and seek professional advice if in any doubt. Never work under a vehicle unless it is properly supported (a single jack is not enough). Take care with power tools, also regard as potentially harmful fuel, lubricants, solvents and sealers which should always be stored in labelled, sealed containers. Always obtain your spare parts from an officially appointed Mercedes-Benz dealer. With care and common sense, the practical owner can make an excellent job

of maintenance and overhaul. The benefits include money saved and the satisfaction of work well done. You will be adding to your knowledge too, knowing more about the vehicle you own will help you to make logical decisions about what needs to be done, even if it does in some instances have to go into a professional repair shop. The Mercedes-Benz Vito and V-Class vehicles are built with care and precision. W regular care and maintenance they will provide long, reliable and

faithful service.
