I love looking at the green fields around my little house. A little house, yes, a one-room house. Since Grandma has been gone, this place has been uninhabited for years, but for the past eight months it has become all mine. Freshly bloomed violets distract me and push my thoughts away. I can't tell if they're really purple, the streaks inside are yellow and white, forming something unique. In a moment, the memories take me inexorably, I see myself happy and serene at my parents' house. Ours is a small town, but we live well there. With my friends we share everything: we like to spend whole afternoons at the beach, bathing and playing in the water, laughing over nothing, noises and words echoing in the air. I have always loved that place at the end of the beach. The sand becomes one with the sky and the sea. I would spend hours admiring this spectacle of nature, breathing serenity, but everything seems so far away.

The untold story of America's attempt to forge a nation from scratch, from euphoric

birth to heart-wrenching collapse. South Sudan's independence was celebrated around the world—a triumph for global justice and an end to one of the world's most devastating wars. But the party would not last long: South Sudan's freedom fighters soon plunged their new nation into chaos, shattering the promise of liberation and exposing the hubris of their foreign backers. Chronicling extraordinary stories of hope, identity, and survival, *A Rope from the Sky* journeys inside an epic tale of paradise won and then lost. This character-driven narrative is first a story of power, promise, greed, compassion, violence, and redemption from the world's most neglected patch of territory. But it is also a story about the best and worst of America—both its big-hearted ideals and its difficult reckoning with the limits of American power amid a changing global landscape. Zach's Vertin's firsthand accounts, from deadly war zones to the halls of Washington power, brings readers inside this remarkable episode—an unprecedented experiment in state-building and a cautionary tale. It is brilliant and breathtaking, a modern-day Greek tragedy that will challenge our perspectives on global politics.

Another *Earth* meets *Perks of Being a Wallflower* in this thoughtful, mesmerizing debut and subject of a TedX talk about the discovery of a mirror planet to Earth and how it dramatically changes the course of one Indian-American girl's junior year. "[O]ne of the most powerful reads of the year. A novel about family, race, and discovering who you are, *Mirror in the Sky* promises a unique read that blends YA contemporary struggles with imaginative science fiction." —Paste Magazine For Tara Krishnan, navigating Brierly, the academically rigorous prep school she attends on scholarship, feels overwhelming and impossible. Her junior year begins in the wake of a startling discovery: A message from an alternate Earth, light years away, is intercepted by NASA. This means that on another planet, there is another version of Tara, a Tara who could be living better, burning brighter, because of tiny differences in her choices. The world lights up with the knowledge of Terra Nova, the mirror planet, and Tara's life on Earth begins to change. At first, small shifts happen, like attention from Nick Osterman, the most popular guy at Brierly, and her mother playing hooky from work to watch the news all day. But eventually those small shifts swell, the discovery of Terra Nova like a black hole, bending all the light around it. As a new era of scientific history

dawns and Tara's life at Brierly continues its orbit, only one thing is clear: Nothing on Earth--or for Tara--will ever be the same again.

"I had no idea how to find my way around this medieval city. It was getting dark. I was tired. I didn't speak Arabic. I was a little frightened. But hadn't I battled scorpions in the wilds of Costa Rica and prevailed? Hadn't I survived fainting in a San José brothel? Hadn't I once arrived in Ireland with only \$10 in my pocket and made it last two weeks? Surely I could handle a walk through an unfamiliar town. So I took a breath, tightened the black scarf around my hair, and headed out to take my first solitary steps through Sana'a."—from *The Woman Who Fell From The Sky* In a world fraught with suspicion between the Middle East and the West, it's hard to believe that one of the most influential newspapers in Yemen—the desperately poor, ancestral homeland of Osama bin Laden, which has made international headlines for being a terrorist breeding ground—would be handed over to an agnostic, Campari-drinking, single woman from Manhattan who had never set foot in the Middle East. Yet this is exactly what happened to journalist, Jennifer Steil. Restless in her career and her life, Jennifer, a gregarious, liberal New Yorker, initially accepts a short-term opportunity in 2006 to teach a journalism class to the staff of *The Yemen Observer* in Sana'a, the beautiful, ancient, and very conservative capital of Yemen. Seduced by the eager reporters and the challenging prospect of teaching a free speech model of journalism there, she extends her stay to a year as the paper's editor-in-chief. But she is quickly confronted with the realities of Yemen—and their surprising advantages. In teaching the basics of fair and balanced journalism to a staff that included plagiarists and polemicists, she falls in love with her career again. In confronting the blatant mistreatment and strict governance of women by their male counterparts, she learns to appreciate the strength of Arab women in the workplace. And in forging surprisingly deep friendships with women and men whose traditions and beliefs are in total opposition to her own, she learns a cultural appreciation she never could have predicted. What's more, she just so happens to meet the love of her life. With exuberance and bravery, *The Woman Who Fell from the Sky* offers a rare, intimate, and often surprising look at the role of the media in Muslim culture and a fascinating cultural tour of Yemen, one of the most enigmatic countries in the world. *Under a War-Torn Sky* 5Continents For as long as Esmerine can remember, she has longed to join her older sister,

Dosinia, as a siren--the highest calling a mermaid can have. When Dosinia runs away to the mainland, Esmerine is sent to retrieve her. Using magic to transform her tail into legs, she makes her way unsteadily to the capital city. There she comes upon a friend she hasn't seen since childhood--a dashing young man named Alandare, who belongs to a winged race of people. As Esmerine and Alandare band together to search for Dosinia, they rekindle a friendship . . . and ignite the emotions for a love so great, it cannot be bound by sea, land, or air.
