FITZGERALD DILLON

Kingdom Triangle David C Cook

It seems self-evident that music plays more than just an aesthetic role in contemporary society. It is thus surprising that the subject of ethics is often neglected in discussions about music. Music and Ethics examines different ways in which music can contribute to theoretical discussions about ethics as well as concrete moral behaviour. Rather than offer a general musico-ethical theory, the book explores ethics as a practical concept, and demonstrates through concrete examples that the relation between music and ethics has never been absent.

Naming the Elephant David C Cook

Teacher Guide for Book 1 of the Principles of Mathematics - Biblical Worldview Curriculum for junior high! Math is a real-life tool that points us to God and helps us explore His creation, yet it often comes across as dry facts and meaningless rules. Here at last is a curriculum that has a biblical worldview integrated throughout the text and problems, not just added as an afterthought. The resources in the Teacher Guide will help students master and apply the skills learned in the Student Textbook. What does this Teacher Guide include? Worksheets, Quizzes, and Tests: These perforated, three-hole punched pages help provide practice on the principles taught in the main student textbook. Answer Keys: The answers are included for the worksheets, quizzes, and tests found in this Teacher Guide. Schedule: A suggested calendar schedule is provided for completing the material in one year, though this can be adapted to meet individual student needs. There is also an accelerated schedule for completing the material in one semester. Are there any prerequisites for this course? This curriculum is aimed at grades 6-8, fitting into most math approaches the year or two years prior to starting high school algebra. If following traditional grade levels, Book 1 should be completed in grade 6 or 7, and Book 2 in grade 7 or 8. In Book 1 students should have a basic knowledge of arithmetic (basic arithmetic will be reviewed, but at a fast pace and while teaching problem-solving skills and a biblical worldview of math) and sufficient mental development to think through the concepts and examples given. Typically, anyone in sixth grade or higher should be prepared to begin. The focus of the course is actually learning math for life, not simply preparing to pass a test.

In the Name of Knowledge and Wisdom Fisherman Press

In a world indifferent or even opposed to Christian truth, followers of Christ must be better equipped to communicate the timeless of the Christian faith. But how do you have a conversation with someone who is intent on proving you wrong and won't accept the Bible as a source of authority? In *Tactics*, Gregory Koukl demonstrates how to artfully regain control of conversations, keeping them moving forward in constructive ways through thoughtful diplomacy. You'll learn how to maneuver comfortably and graciously through the minefields of a challenging discussion, how to stop challengers in their tracks, and how to turn the tables on question or provocative statement. Most importantly, you'll learn how to get people thinking about Jesus. Drawing on extensive experience defending Christianity in the public square, Koukl shows you how to: Initiate conversations effortlessly Present the truth clearly, cleverly, and persuasively Graciously and effectively expose faulty thinking Skillfully manage the details of dialogue Maintain an engaging, disarming style even under attack *Tactics* provides the game plan for communicating the compelling truth about Christianity with confidence and grace. X

Creating a Christian Worldview Ignatius Press

We know that faith means "being sure of what we hope for and certain of what we do not see" (Hebrews 11:1, NIV). *Love Your God with All Your Mind* explains the importance of using your mind not only to win others to Christ but also to experience personal spiritual growth. Author J. P. Moreland challenges you to use logic and reason to further God's kingdom through evangelism,

apologetics, worship, and vocation. This revised edition includes expanded appendixes and three new chapters that outline how to reason for the reality of God and the historicity of Jesus' life teachings, death, and resurrection.

Becoming Conversant with the Emerging Church University of Michigan Press

What should Christian witness look like in our contemporary society? In this timely book, Alan Noble looks at our cultural moment, characterized by technological distraction and the growth of secularism, laying out individual, ecclesial, and cultural practices that disrupt our society's deep-rooted assumptions and point beyond them to the transcendent grace and beauty of Jesus.

Understanding the Times Association of Christian Schools International and Summit MI

Your view of God determines your view of the world. You hold in your hands a landmark guide to understanding the ideas and forces shaping our times. *Understanding the Times* offers a fascinating, comprehensive look at the how the tenets of the Christian worldview compares with the five major competing worldviews of our day: Islam, Secular Humanism, Marxism, New Age, and Postmodernism. *Understanding the Times* is a systematic way to understand the ideas that rule our world. While the material is expansive, the engaging, easy-to-understand writing style invites you to discover the truths of God – and our world. This classic should be on the shelf of every Christian home, on the desk of every pastor, and in the hands of every Christian student headed off to college.

Tactics Tyndale House

New York Times best-selling author Tim LaHaye and author David Noebel give a wake-up call for Christians to fight the tide of popular beliefs and win the battle for your mind. Two basic sources of reasoning determine the thoughts, ideas, beliefs, values, aims, morals, lifestyles, and activities of mankind—the wisdom of man and the wisdom of God. According to Tim LaHaye and David Noebel, life is mainly about the battle for your mind: whether you will live by man's wisdom, from the likes of Marx, Darwin, Freud, and Nietzsche, or God's wisdom and those who gave it, such as Moses, the prophets, Christ, and the apostles. Your choice will affect the way you live now and ultimately where you will spend eternity.

The Universe Next Door (Large Print 16pt) Baker Books

A careful and informed assessment of the "emerging church" by a respected author and scholar The "emerging church" movement has generated a lot of excitement and exerts an astonishingly broad influence. Is it the wave of the future or a passing fancy? Who are the leaders and what are they saying? The time has come for a mature assessment. D. A. Carson not only gives those who may be unfamiliar with it a perceptive introduction to the emerging church movement, but also includes a skillful assessment of its theological views. Carson addresses some troubling weaknesses of the movement frankly and thoughtfully, while at the same time recognizing that it has important things to say to the rest of Christianity. The author strives to provide a perspective that is both honest and fair. Anyone interested in the future of the church in a rapidly changing world will find this an informative and stimulating read. D. A. Carson (Ph.D., University of Cambridge) is research professor of New Testament at Trinity Evangelical Divinity School in Deerfield, Illinois. He is the author of over 45 books, including the Gold Medallion Award-winning book *The Gagging of God*, and is general

editor of *Telling the Truth and Worship by the Book*. He has served as a pastor and is an active guest lecturer in church and academic settings around the world.

[Love Your God with All Your Mind](#) B&H Publishing Group

In this companion volume to *The Universe Next Door*, James W. Sire offers his refined definition of a worldview and addresses key questions about the history of worldview thinking, the existential and intellectual formation of worldviews, the public and private dimensions of worldviews and how worldview thinking can help us navigate an increasingly pluralistic universe.

[Understanding the Faith](#) New Leaf Publishing Group

Explains how the author lost his faith in Christianity and then explains why Christianity is wrong.

Christianity and Law Ashgate Publishing, Ltd.

Does the Bible have authority in a world committed to relative truth? The understanding of absolute, objective truth has been largely lost. Spend just a few minutes discussing politics or religion and you'll hear responses like, "There is no truth!" or "That may be true for you, but not for me."

Understanding the Faith dares to wade into the middle of the controversy with chapters such as: Is God Christian? Isn't Claiming Truth Intolerant? Is the Bible Anti-Science? Summit Ministries' half century of teaching, this first volume of the *Understanding the Times* Series is your definitive resource for deepening and defending your faith. It's a required resource for every Christian's bookshelf.

[The Marxist Minstrels](#) Cambridge University Press

An inspiring guide for developing the Christian mind extols the crucial roll of Christian higher education in the intellectual and spiritual formation of believers.

[Principles of Mathematics Book 1 Teacher Guide](#) Wm. B. Eerdmans Publishing

The Harry Potter series of books and movies are wildly popular. Many Christians see the books as largely if not entirely harmless. Others regard them as dangerous and misleading. In his book *A Landscape with Dragons*, Harry Potter critic Michael O'Brien examines contemporary children's literature and finds it spiritually and morally wanting. His analysis, written before the rise of the popular Potter books and films, anticipates many of the problems Harry Potter critics point to. *A Landscape with Dragons* is a controversial, yet thoughtful study of what millions of young people are reading and the possible impact such reading may have on them. In this study of the pagan invasion of children's culture, O'Brien, the father of six, describes his own coming to terms with the effect it has had on his family and on most families in Western society. His analysis of the degeneration of books, films, and videos for the young is incisive and detailed. Yet his approach is not simply critical, for he suggests a number of remedies, including several tools of discernment for parents and teachers in assessing the moral content and spiritual impact of this insidious revolution. In doing so, he points the way to rediscovery of time-tested sources, and to new developments in Christian culture. If you have ever wondered why a certain children's book or film made you feel uneasy, but you couldn't figure out why, this book is just what you need. This completely revised, much expanded second edition also includes a very substantial recommended reading list of over 1,000 books for kindergarten through highschool.

[Understanding the Culture](#) Baker Books

"The high priests of atheism really have no clothes." So says Jonas E. Alexis. He takes the atheists and skeptics on the ground they cherish most-logical consistency and experiential relevance. He believes we are living in a time when thinking people believe the unthinkable, the unreasonable, and the unimaginable. In the name of "knowledge" and "wisdom," many intellectuals, atheists, and skeptics embrace irrational ideas. In *The Name of Knowledge and Wisdom* challenges those ideas. He takes the atheists, skeptics, and critics of Christianity to task for believing the impossible about Christianity. Armed with simple logic and common sense, Alexis demolishes the atheist position and points the way to Christianity. This book is for anyone who has questions about the new "golden age" of atheism. Furthermore, the book also provides a strong critique of the nihilism that is quite rampant in our pop culture. Ultimately, the book shows that if God is dead, as the German philosopher Friedrich Nietzsche proposed in the nineteenth century, then anything is permitted. Jonas E. Alexis has a bachelor's degree in mathematics and a master's degree in education. He is a math teacher in Florida. His first book in this trilogy is *In the Name of Education*, and the third book will be *Education's Dangerous Idea*. It is tentatively scheduled to be released in the winter of 2009.

"Alexis has written an important book." -Don DeYoung, Ph.D. in physics Chairman of the Department of Physical Science at Grace College Author of *Astronomy and the Bible* "In the Name of Education is not only worth reading, it is worth believing, worth heeding, and most important, worth acting upon."

-Dr. David A. Noebel, best-selling author of *Understanding the Times* "Alexis has certainly done a block of research." -Paul Sperry, author of *Infiltration: How Muslim Spies and Subversives have Penetrated Washington* "In the Name of Education is excellent and rich with solidly documented information. For me, any book of social criticism needs to be fully attributed so that I

can validate both the quote and the author's interpretation. This book accomplishes that mission. It is clearly written." -Judith A. Reisman, Ph.D., author of *Kinsey: Crimes and Consequences: The Red Queen and the Grand Scheme* "In the Name of Education documents the weird and dangerous ideas that have put generations of Americans at risk, even as it points the way back toward genuine intellectual and moral reform." -Jim Nelson Black, Ph.D., author of *Freefall of the American University* [Why I Became an Atheist](#) MIT Press

Ryan and Selena Frederick were newlyweds when they landed in Switzerland to pursue Selena's dream of training horses. Neither of them knew at the time that Ryan was living out a death sentence brought on by a worsening genetic heart defect. Soon it became clear he needed major surgery that could either save his life--or result in his death on the operating table. The young couple prepared for the worst. When Ryan survived, they both realized that they still had a future together. But the near loss changed the way they saw all that would lie ahead. They would live and love fiercely, fighting for each other and for a Christ-centered marriage, every step of the way. *Fierce Marriage* is their story, but more than that, it is a call for married couples to put God first in their relationship, to measure everything they do and say to each other against what Christ did for them, and to see marriage not just as a relationship they should try to keep healthy but also as one worth fighting for in every situation. With the gospel as their foundation, Ryan and Selena offer hope and practical help for common struggles in marriage, including communication problems, sexual frustration, financial stress, family tension, screen-time disconnection, and unrealistic expectations. [Rhythm, Riots, and Revolution](#) InterVarsity Press

For more than thirty years, *The Universe Next Door* has set the standard for a clear, readable introduction to worldviews. In this new fifth edition James Sire offers additional student-friendly features to his concise, easily understood introductions to theism, deism, naturalism, Marxism, nihilism, existentialism, Eastern monism, New Age philosophy and postmodernism. Included in this expanded format are a new chapter on Islam and informative sidebars throughout. The book continues to build on Sire's refined definition of worldviews from the fourth edition and includes other updates as well, keeping this standard text fresh and useful. In a world of ever-increasing diversity, *The Universe Next Door* offers a unique resource for understanding the variety of worldviews that compete with Christianity for the allegiance of minds and hearts. *The Universe Next Door* has been translated into over a dozen languages and has been used as a text at over one hundred colleges and universities in courses ranging from apologetics and world religions to history and English literature. Sire's *Naming the Elephant: Worldview as a Concept* provides a useful companion volume for those desiring a more in-depth discussion of the nature of a worldview. [Restoring All Things](#) Zondervan

In 1992, the voters of Colorado passed a ballot initiative amending the state constitution to prevent the state or any local government from adopting any law or policy that protected a person with a homosexual, lesbian, or bisexual orientation from discrimination. This amendment was immediately challenged in the courts as a denial of equal protection of the laws under the United States Constitution. This litigation ultimately led to a landmark decision by the United States Supreme Court invalidating the Colorado ballot initiative. Suzanne Goldberg, an attorney involved in the case from the beginning on behalf of the Lambda Legal Defense and Education Fund, and Lisa Keen, a journalist who covered the initiative campaign and litigation, tell the story of this case, providing an inside view of this complex and important litigation. Starting with the background of the initiative, the authors tell us about the debates over strategy, the court proceedings, and the impact of each stage of the litigation on the parties involved. The authors explore the meaning of legal protection for gay people and the arguments for and against the Colorado initiative. This book is essential reading for anyone interested in the development of civil rights protections for gay people and the evolution of what it means to be gay in contemporary American society and politics. In addition, it is a rich story well told, and will be of interest to the general reader and scholars working on issues of civil rights, majority-minority relations, and the meaning of equal rights in a democratic society. Suzanne Goldberg is an attorney with the Lambda Legal Defense and Education Fund. Lisa Keen is Senior Editor at the Washington Blade newspaper.

Mind Siege Zondervan

This abridged version of "Understanding the Times" provides Christians with a readable, comprehensive treatment of the most popular worldviews of our day: worldviews that have a surprisingly powerful presence in American education, business, politics, and the media.

Understanding the Times Xulon Press

In clear, concise prose, Timothy Paul Jones takes on Bart Ehrman's misleading conclusions about how we got the New Testament, how the New Testament documents have been transmitted and what kind of diversity existed among early Christians.
