As a teacher, you have the unique opportunity to teach and inspire your students to be goal-oriented, compassionate, confident and ambitious. Anna Unkovich, a former teacher of thirty-five years, made a difference in her students' lives through the daily use of stories from the bestselling Chicken Soup for the Soul series. As a teacher, you have the unique opportunity to teach and inspire your students to be goal-oriented, compassionate, confident, and ambitious. Anna Unkovich, a former teacher of thirty-five years, made a difference in her students' lives through the daily use of stories from the bestselling series Chicken Soup for the Soul. For many years, Unkovich read these stories to her students and noticed remarkable changes in them, both academically and personally. Recognizing that today's teenagers have more challenges in finding positive role models, she teamed up with bestselling author Mark Victor Hansen and veteran teacher, inspirational speaker, and bestselling author Jack Canfield to create an unprecedented educational curriculum for teachers to use to empower their students in the same way that they have. Unkovich chose the most inspirational stories from the more than one hundred Chicken Soup books published. These stories, activities, and plans will enhance your existing curriculum. Designed to be read aloud to students, each story is accompanied by thought-provoking questions and exercises specifically designed and used by the authors. Your students will identify with each of the powerful stories and will be encouraged to apply the lesson plans to their own lives, challenges, and situations, and at the same time improve their critical thinking and writing skills. More important, unlike other curriculums, Chicken Soup for the Soul in the Classroom educates and provides opportunities for open dialogue on real-life issues, including character building and self-esteem.

Now in its 3rd edition, *Better Learning Through Structured Teaching* is the definitive guide to the gradual release of responsibility—an instructional framework any teacher can use to help students to be more successful and self-directed learners. To gradually release responsibility is to equip students with what they need to master content and develop new competencies. On a day-to-day basis, it means delivering lessons intentionally structured to incorporate four interrelated phases: * Focused

Instruction ("I do it") that sets students up for cognitive apprenticeship by establishing lesson purpose, modeling strategies and skills, and sharing information and insight. * Guided Instruction ("We do it together") that incorporates targeted prompts, cues, and questions to scaffold understanding. * Collaborative Learning ("You do it together") that allows students to consolidate and extend understanding through accountable group tasks built on discussion and cooperative problem solving. * Independent Learning ("You do it alone") that provides students opportunities to practice and apply the skills and knowledge they've acquired to create authentic products and ask new questions. Authors Douglas Fisher and Nancy Frey detail the components of each phase, sharing proven strategies and real-life examples. You'll find a variety of useful tips for classroom implementation, along with new guidance on teacher credibility, social-emotional learning, and embedding assessment throughout all four phases. No matter what grade level or subject you teach, *Better Learning Through Structured Teaching* is an essential resource for improving your practice and empowering your students.

In the second edition of *Reading with Meaning*, Debbie Miller shares her new thinking about comprehension strategy instruction, the gradual release of responsibility instructional model, and planning for student engagement and independence. It has been ten years since the first edition, in which Debbie chronicled a year in her own classroom. *Reading with Meaning, Second Edition* supports that work and expands her vision of strategy instruction and intentional teaching and learning. Debbie believes that every child deserves at least a full year of growth during each classroom year and offers planning documents with matching assessments to ensure that no child falls through the cracks. The second edition also provides new book recommendations that will engage and delight students, and current picture books for reading aloud and strategy instruction. This new edition reflects Debbie's professional experiences and judgment, her work in classrooms and collaboration with colleagues, and the current research in the field, showcasing her newest, best thinking.

Newbery-winning *Rules* meets *Counting by 7s* in this affecting story of a girl's devotion to her brother and what it means to be home. When eleven-year-old Thyme Owens' little brother, Val, is accepted into a new cancer drug trial, it's just the second chance that he needs. But it also means the Owens family has to move to New York, thousands of miles away from Thyme's best friend and everything she knows and loves. The island of Manhattan doesn't exactly inspire new beginnings, but Thyme tries to embrace the change for what it is: temporary. After Val's treatment shows real promise and Mr. Owens accepts a full-time position in the city, Thyme has to face the frightening possibility that the move to New York is permanent. Thyme loves her brother, and knows the trial could save his life—she'd give anything for him to be well—but she still wants to go home, although the guilt of not wanting to stay is agonizing. She finds herself even more mixed up when her heart feels the tug of new friends, a first crush, and even a crotchety neighbor and his sweet whistling bird. All Thyme can do is count the minutes, the hours, and days, and hope time can bring both a miracle for Val and a way back home. With equal parts heart and humor, Melanie Conklin's debut is a courageous and charming story of love and family—and what it means to be counted.
