If My Moon was Your Sun Portobello Books

Was machen wir, wenn die Zahnpastatube leer ist? Womit verbringt man die Zeit vor dem Computer tatsächlich? Was tun wir, wenn der Wecker klingelt? Und woran erkennt man, dass jemand keinen Fernseher hat? Der Graphitti-Blog präsentiert witzige Grafiken, die das alltägliche Leben, vor allem aber gefühltes Wissen abbilden – überraschend, kreativ, ungeheuer komisch und unnachahmlich gut!

The One Hour China Book Heyne Verlag

The days of the Other are over in this age of excessive communication, information and consumption. What used to be the Other, be it as friend, as Eros or as hell, is now indistinguishable from the self in our narcissistic desire to assimilate everything and everyone until there are no boundaries left. The result is a 'terror of the Same', lives in which we no longer pursue knowledge, insight and experience but are instead reduced to the echo chambers and illusory encounters offered by social media. In extreme cases, this feeling of disorientation and senselessness is compensated through self-harm, or even harming others through acts of terrorism. Byung-Chul Han argues that our times are characterized not by external repression but by an internal depression, whereby the destructive pressure comes not from the Other but from the self. It is only by returning to a society of listeners and lovers, by acknowledging and desiring the Other, that we can seek to overcome the isolation and suffering caused by this crushing process of total assimilation.

Was Sie dachten, NIEMALS über CHINA wissen zu wollen Abrams

In this inspiring meditation, Patrick Sjskind considers the two great forces of human existence. He draws on scenes as varied as a young couple having oral sex while stuck in traffic, and an elderly Thomas Mann tumbling back into forbidden love. Sjskind then dazzles as he writes about Orpheus and Jesus, comparing their very different stories of death conquered through love.

The Art of the Good Life Routledge

The second edition of this successful machine vision textbook is completely updated, revised and expanded by 35% to reflect the developments of recent years in the fields of image acquisition, machine vision algorithms and applications. The new content includes, but is not limited to, a discussion of new camera and image acquisition interfaces, 3D sensors and technologies, 3D reconstruction, 3D object recognition and state-of-the-art classification algorithms. The authors retain their balanced approach with sufficient coverage of the theory and a strong focus on applications. All examples are based on the latest version of the machine vision software HALCON 13.

Into the Deep John Wiley & Sons

"One hour with this book will make you an expert on business in China." - Dick Gephardt, Majority-Minority Leader, U.S. House of Representatives, 1989-2002 "Without question, the best 60 minutes you will spend on China." - Jonathan Anderson, Emerging Markets Advisors This is the China book for everyone - whether an expert or novice. It can be read in an hour and gives you most of what you need to know about China business today - and its increasing impact on the rest of the world. This "speed-read" book is the distilled knowledge of two Peking University business professors with over 30 years of experience on the ground in China and the emerging markets. According to authors Jeffrey Towson and Jonathan Woetzel, "if we had the undivided attention of someone from Ohio, Brighton or Lima for just one hour, this little book is what we would say." Author Jonathan Woetzel is a senior partner of McKinsey & Company. He opened McKinsey's Shanghai location in 1995 and has been resident since then. He currently the global leader of its Cities Special Initiative and the Asia-based Director of the McKinsey Global Institute. He has led many of the Firm's most significant

projects in China including the first major international listing of a Chinese company and the development of the economic plans for the cities of Shanghai, Wuhan, Shenzhen, Xian and Harbin among others. He co-chairs the Urban China Initiative along with Tsinghua University and Columbia University to catalyze the next stage of China's urbanization. Author Jeffrey Towson is a private equity investor, professor and best-selling author. His area of expertise is developing economy investing and cross-border strategies - primarily US-China deals in healthcare and consumer products. He was previously Head of Direct Investments for Middle East North Africa and Asia Pacific for Prince Alwaleed, nicknamed by Time magazine the "Arabian Warren Buffett" and arguably the world's first private global investor.

What's for tea? John Wiley & Sons

November 1932. With the German economy in ruins and street battles raging between political factions, the Weimar Republic is in its death throes. Its elderly president Paul von Hindenburg floats above the fray, inscrutably haunting the halls of the Reichstag. In the shadows, would-be saviours of the nation vie for control. The great rivals are the chancellors Franz von Papen and Kurt von Schleicher. Both are tarnished by the republic's all-too-evident failures. Each man believes he can steal a march on the other by harnessing the increasingly popular National Socialists - while reining in their most alarming elements, naturally. Adolf Hitler has ideas of his own. But if he can't impose discipline on his own rebellious foot-soldiers, what chance does he have of seizing power?

Eichmann Before Jerusalem MIT Press

Named a Notable Work of Nonfiction of 2020 by the Washington Post As heard on NPR's Fresh Air, We Have Been Harmonized, by award-winning correspondent Kai Strittmatter, offers a groundbreaking look, based on decades of research, at how China created the most terrifying surveillance state in history. China's new drive for repression is being underpinned by unprecedented advances in technology: facial and voice recognition, GPS tracking, supercomputer databases, intercepted cell phone conversations, the monitoring of app use, and millions of high-resolution security cameras make it nearly impossible for a Chinese citizen to hide anything from authorities. Commercial transactions, including food deliveries and online purchases, are fed into vast databases, along with everything from biometric information to social media activities to methods of birth control. Cameras (so advanced that they can locate a single person within a stadium crowd of 60,000) scan for faces and walking patterns to track each individual's movement. In some schools, children's facial expressions are monitored to make sure they are paying attention at the right times. In a new Social Credit System, each citizen is given a score for good behavior; for those who rate poorly, punishments include being banned from flying or taking high-speed trains, exclusion from certain jobs, and preventing their children from attending better schools. And it gets worse: advanced surveillance has led to the imprisonment of more than a million Chinese citizens in western China alone, many held in draconian "reeducation" camps. This digital totalitarianism has been made possible not only with the help of Chinese private tech companies, but the complicity of Western governments and corporations eager to gain access to China's huge market. And while governments debate trade wars and tariffs, the Chinese Communist Party and its local partners are aggressively stepping up their efforts to export their surveillance technology abroad—including to the United States. We Have Been Harmonized is a terrifying portrait of life under unprecedented government surveillance—and a dire warning about what could happen anywhere under the pretense of national security. "Terrifying. ... A warning call." —The Sunday Times (UK), a "Best Book of the Year so Far"

A Little Too Far Hachette UK

Between Germany and Russia is a region strewn with monuments to the horrors of war, genocide and disaster - the bloodlands where the murderous regimes of Hitler and Stalin unleashed the violence that scarred the twentieth century and shaped so much of the world we know today. In

September 2016 the German-Iranian writer Navid Kermani set out to discover this land and to travel along the trenches that are now re-emerging in Europe, from his home in Cologne through eastern Germany to the Baltics, and from there south to the Caucasus and to Isfahan in Iran, the home of his parents. This beautifully written travel diary, enlivened by conversations with the people Kermani meets along the way, brings to life the tragic history of these troubled lands and shows how this history leaves its traces in the present. It will be of great interest to anyone concerned with current affairs and with the events that have shaped, and continue to shape, the world in which we live today.

**The Boy's Book of Adventure** Farrar, Straus and Giroux

Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today.

**The Gravediggers** Polity

Racism, extremism, anti-democratic sentiment - our increasingly polarized world is dominated by a type of thinking that doubts others' positions but never its own. In a powerful challenge to fundamentalism in all its forms, Carolin Emcke, one of Germany's leading intellectuals, argues that we can only preserve individual freedom and protect people's rights by cherishing and celebrating diversity. If we want to safeguard democracy, we must have the courage to challenge hatred and the will to fight for and defend plurality in our societies. Emcke rises to the challenge that identitarian dogmas and populist narratives pose, exposing the way in which they simplify and distort our perception of the world. *Against Hate* is an impassioned call to fight intolerance and defend liberal ideals. It will be of great interest to anyone concerned about the darkening politics of our time and searching for ways forward.

**She Came from Mariupol** John Wiley & Sons

Nine-year-old Max sneaks his grandfather and Miss Schneider out of their nursing home to enjoy a walk in the country, where he admits he is afraid Grandfather will soon forget to love him.

**Along the Trenches** Conbook Verlag

Die Studie verfolgt das Ziel, das geschriebene Alltagsdeutsch in der neueren Sprachgeschichte als sprachliche Normallage zu beschreiben, deren Entwicklungen die Tendenzen der Gegenwartssprache erst verstehbar machen. Es wird erstmals der Versuch unternommen, auf breiter Materialbasis für das gesamte deutsche Sprachgebiet Gebrauchsnormen der Schriftsprache routinierter wie unroutinierter Schreiberinnen und Schreiber zu ermitteln. Grundlage der sprachlichen Analysen sind Texte privater Auswandererkorrespondenz, ein bislang kaum beachteter Quellentyp, der an Umfang, Nähe zur konzeptionellen Mündlichkeit sowie regionaler und sozialer Variation in der Geschichte des Neuhochdeutschen vor dem 20. Jahrhundert seinesgleichen sucht. Gestützt auf die Einzelanalysen, insbesondere zur Grammatik, Lexik und Graphie des Alltagsdeutschen im 19. Jahrhundert, wird für einen Perspektivenwechsel der sprachwissenschaftlichen Forschung zum Neuhochdeutschen plädiert: »Sprachgeschichte von unten« appelliert zum einen an eine stärkere Berücksichtigung des Sprachgebrauchs der Bevölkerungsmehrheit in der Sprachgeschichtsforschung. Zum anderen wird die Notwendigkeit unterstrichen, Geschichte und Gegenwart einer modernen Kultursprache von ihrem soziokommunikativen Fundament der Alltagssprache aus zu beschreiben und zu erklären.

**Handbook of Systemic Psychotherapy** Vandenhoeck & Ruprecht

From the bestselling author of *The Art of Thinking Clearly*, an insightful book that shares tips for making the very best of life—and maybe finding happiness along the way. A simple path to happiness doesn't exist. Rolf Dobelli, businessman and founder of the TED-style conference World Minds, has synthesized the leading thinkers and the latest science in happiness to find the best shortcuts to satisfaction in *The Art of the Good Life*. *The Art of the Good Life* is a toolkit designed for practical living. Here you'll find "happiness hacks"—from guilt-free shunning of technology to gleefully paying your parking tickets—that are certain to optimize your happiness. A good life isn't guaranteed, but that doesn't mean we can't strive for it—and this book will give you a better chance at happiness.

**Society of Singularities** John Wiley & Sons

Have you ever gone just a little too far? Lexie Banks has. Yep. She just had mind-blowing sex with her stepbrother. In her defense, she was on the rebound, and it's more of a my-dad-happened-to-marry-a-woman-with-a-super-hot-son situation. But still, he's been her best friend and confidant for the better part of the last few years . . . and is so off limits. It's a good thing she's leaving in two days for a year abroad in Rome. But even thousands of miles away, Lexie can't seem to escape trouble. Raised Catholic, she goes to confession in hopes of alleviating some of her guilt . . . and maybe not burning in hell. Instead, she stumbles out of the confessional and right into Alessandro Moretti, a young and very easy-on-the-eyes deacon . . . only eight months away from becoming a priest. Lexie and Alessandro grow closer, and when Alessandro's signals start changing despite his vow of celibacy, she doesn't know what to think. She's torn between falling in love with the man she shouldn't want and the man she can't have. And she isn't sure how she can live with herself either way.

**We Have Been Harmonized** Heyne Verlag

Romania, the last months of the dictator's regime. Adina is a young schoolteacher. Paul is a musician. Clara, Adina's friend, works in a wire factory. Pavel is Clara's lover. But one of them works for the secret police and is reporting on the group. One day Adina returns home to discover that her fox fur rug has had its tail cut off. On another day, a hindleg. Then a foreleg. The mutilation is a sign that she is being tracked - the fox was ever the hunter. Images of photographic precision combine to form a kaleidoscope of reflections, deflections and deceit. Adina and her friends struggle to keep living in a world permeated with fear, where even the eyes of a cat seem complicit with the watchful eye of the state, and where it's hard to tell the victim apart from the perpetrator.

**Das Kirchenjahr von Prosper Guéranger** New Directions Publishing

Learn how automotive Ethernet is revolutionizing in-car networking from the experts at the core of its development. Providing an in-depth account of automotive Ethernet, from its background and development, to its future prospects, this book is ideal for industry professionals and academics alike.

**Python for Finance** HarperCollins

Charley unexpectedly runs into Jake, the bad boy who broke her heart, four years after their breakup. Now she must decide if she's ready to trust him again and take a chance on the greatest love she's ever known.

**The Nuns of Sant'Ambrogio** Profile Books

A great deal of attention has been devoted to risk research. Sociologists in general have limited themselves to varying recognitions of a society at risk and have traced out the paths to disaster. The detailed research has yet to be undertaken. In *Risk*, now available in paperback, Niklas Luhmann develops a theoretical program for such research. His premise is that the concept of risk projects essential aspects of our description of the future onto the present. Risk is conceived as the possibility of triggering unexpected, unlikely, and detrimental consequences by means of a decision attributable to a decision maker.

**Risk** Metropolitan Books

"Natascha Wodin sets out on a quest to find out what happened to her mother, a forced laborer, from Mariupol, Ukraine, before and during the Second World War"--

**Automotive Ethernet** Harper Collins

'A book of excruciating sobriety and warmth and a magical concreteness of observation... I know of no book which conveys more about that complex fate, being a European at the end of European civilization' Susan Sontag At first *The Emigrants* appears simply to document the lives of four Jewish émigrés in the twentieth century. But gradually, as Sebald's precise, almost dreamlike prose begins to draw their stories, the four narrations merge into one overwhelming evocation of exile and loss. 'An unconsoling masterpiece... Exquisitely written and exquisitely translated... a true work of art' Spectator
