 " " Language is one of the highest forms of expression. It acts as the medium to make our ideas, thoughts and feelings understood and appreciated. Like art, language can touch the heart and inspire the soul. And, at the heart and soul of a language, lies its grammar. Grammar helps the learners build a firm foundation for using the language. It is, therefore, very important for learners to develop the grammar skills that they need in order to express themselves meaningfully and creatively. Step-up English Grammar and Composition 1-8 is an NEP-aligned, carefully-graded grammar series developed to address the need of a systematic and step-wise strategy for understanding grammar. The series is based on the eclectic approach to language acquisition and presents a smooth blend of the inductive as well as the deductive method of teaching and learning the language. Each concept has been covered in detail, and great care has been taken to offer the relevant core concepts for the learners at each level. Last but not least, the utmost care has been taken to encapsulate in the series the key parameters laid down in National Education Policy (NEP) 2020. The NEP places the learner at the heart of the teaching-learning process. In recent years, there has been a paradigm shift towards designing a learner-centric curriculum that is based on an activity-based approach. There is also an equal emphasis on equipping young learners with essential twenty-first-century skills. The text as well as the activities in the book promote the holistic development of the learners. Besides, there is a lot of emphasis on enhancing the creativity, critical thinking, and communication

and collaboration skills of learners. Salient Features of the Book • A conscious effort has been made to incorporate the major NEP specifications. • Simple, clear and detailed explanations of essential grammatical concepts have been given. • Explanations are followed by ample examples and a variety of well-graded exercises to reinforce the concepts. • Simple and clear instructions have been given in the exercises for easy understanding. • Fun-based, art-integrated exercises, together with a wide range of activities like grids and puzzles, have been used to bring the joy of learning to the classroom. • There is also a great emphasis on building cross-curricular, grade-appropriate vocabulary through exercises and comprehension. • Speaking activities have been made a part of the grammar exercises to instil more confidence in the learners. • All the explanations and exercises have been coupled with learner-friendly layout and illustrations for additional support. • Test papers have been introduced periodically to check if the learners have grasped the concepts. • Teacher's Resource Books comprise lessons plans, additional activities and teaching guidelines along with the answer key for each book. They are meant to serve as a handy aid for teachers and facilitate a wholesome teaching-learning experience. We hope this series caters to the requirements of the teachers as well as the students and meets our expectations in serving as a guide to the next generation of global citizens. While every possible effort has been made to avoid errors and omissions, any constructive suggestions for the improvement of the series will be welcomed and incorporated in future editions. A Junior English Grammar and Composition S. Chand Publishing English Grammar book

Educational Times Routledge

It is a refresher, a reference book and a workbook for teachers of English. It is also for teachers handling subjects other than English in schools and colleges. The book centres round the idea that grammar paves the way for smooth and accurate communication, and aims to strike a balance between conventional concepts and latter-day developments, and between descriptive grammar and grammar in use. Each chapter of the book begins by describing the forms of the grammatical class or category it deals with. It then presents a variety of illustrative examples. Finally, it explains the communicative uses of the forms and the situations in which they are typically used. A distinct feature of the book is that it deals with both spoken and written grammar, with greater emphasis on the written mode.

The mind is invented with its location, working, and regulation. The invention of 'zero' simplified and developed the human life like that the invention of mind simplifies the complicated human life. Up to this moment, the human mind was highly mysterious but from now it is open for all, and everyone will be free from most of the psychological and physical diseases and disorders. The human body needs oxygen, nutrient, minerals, and water to grow and remain healthy. The need for oxygen cannot be understood by most of the people of the world, but it is most important to keep healthy. Now it is possible to understand the need for oxygen and regulate the oxygen by regulating the

respiration rate. Also, it is possible for everyone by reading this book to make the mind strong, stable, and achieve peace of mind. The next generations will be free from heart problems, blood pressure problems, diabetes, stress, pressure, tension, anxiety, frustration, insomnia, headache, fear, obesity, and white hairs.
