The Militant Kurds Routledge

After a life-altering setback destroys Rebecca Mackenzie's career, she jumps at the chance to start over as a real estate appraisal trainee in her uncle's office. Although a job change had been in order, being the new kid did have some downsides, including being forced to do a rush appraisal in the small town of Alpine Grove over Thanksgiving weekend. Although map reading has never been her strong suit, Becca's navigational skills are pushed to the limit in a town that doesn't believe in road signs. When the supposed-to-be flurries turn out to be a record-setting blizzard, the trip literally goes

downhill after Becca's car slides nose-down off the road into a ditch.

Accompanied by his huge mountain dog, a scruffy stranger wearing a massive coat with dozens of pockets drags Becca to safety. In the darkness of a small log cabin in the woods, Becca confesses far too many secrets to Jack Sheridan. Sure, if she'd known she'd end up trapped in the middle of nowhere with a guy named Jack, she never would have watched that scary movie. But maybe Jack isn't such a dull boy after all.

 As Lawrence relates in his fascinating and timely study of the Iraqi Kurds, while their ambition and determination grow, their future will be largely dependent on whether America values a budding democracy in the region, or decides to yet again sacrifice the Kurds in the name of political expediency.

Études kurdes Word Alive Press

The Kurds constitute the largest stateless nation in the world. Their position in Turkey attracts attention both within the country and internationally, particularly focusing on the demand for Kurdish independence. Yet since the 1990s, new Kurdish parties have formed within Turkey who have a variety of ideologies and

demands that go beyond, and differ in opinion on, the question of independence. Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands, which over-simplifies their position within the political backdrop of Turkey. This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey. Presently, the Kurds' political demands can be classified into four categories; democratic autonomy, their cultural rights to be granted, federalism (territorial autonomies) and independence (creation of a Kurdish nation-state). In a broad sense, these models can also be ordered into two categories; territorial political models (federalism and independence) and non-territorial political models (democratic autonomy and cultural rights). Considering the diversity within the Kurdish community - intertwinement of tribal, ethnic and national identity - and differences in their language, religion and ideology, there are several contributing factors for the emergence of the current varied political demands of Kurds. By explaining variation among the Kurds' political demands through close analysis of existing at emerging parties, this study challenges a deterministic approach to the Kurds which currently dominates the discourse.

Turkey and the Politics of National Identity Bloomsbury Publishing

Investigating the transformation of the Kurdish liberation movement in Iraq this book explores its development from an armed guerrilla movement, engaged in a war for liberation with the government in Baghdad, into the government of a de facto Kurdish state known as the Kurdistan Regional Government. The book seeks to better explain the nature and evolution of the Kurdish liberation struggle in Iraq, which has had important implications over regional geopolitics. Despite attracting growing international attention, the struggle remains understudied. By applying the theoretical framework of de facto statehood to the post-1991 Kurdish liberation movement, the book offers a new approach to understanding the struggle, with a thorough empirical investigation informed by International Relations theory. Identifying international legitimacy, interaction and identity as significant themes in the politics of de facto states and important variables shaping the evolution and policies of these actors, at both the domestic and international levels, this book will be of interest to students and researchers of International Relations, Middle East Politics and Political Science.

This extensive examination of the Kurdish conflict in Turkey, Iraq, Germany, and the EU focuses on the history and development of the Kurdish Workers Party (PKK) and its impact on transnational security, human rights, and democratization. The Militant Kurds: A Dual Strategy for Freedom explores the complexity of the 30-year guerrilla war of the Kurdish Workers Party (PKK) against the Turkish Republic, identifying longstanding obstacles to peace and probing the new dynamics that may lead to an end to the conflict. In doing so, the book provides fascinating insights into Turkey's national ethos, its dominant military culture, and civil society's struggle for increased democratization. The Militant Kurds offers an extensive analysis of the precarious position of the Kurdish minority, beginning with the establishment of the modern Turkish republic in 1923. Divided into five sections examining current political realities in Turkey, the book investigates the role of Islam and ethnicity, analyzes the rise of the PKK, discusses Turkish military culture, and explains the international dimensions of the Kurdish conflict. Comparative historical, political, and socioeconomic examples contextualize the long struggle for Kurdish self-determination. Each chapter offers an analysis of the underlying dynamics of the conflict and provides up-to-date explanations.

In the first decade of the twenty-first century Turkey experienced an extraordinary set of transformations. In 2001, in the midst of financial difficulties, the country was under IMF stewardship, yet it has recently emerged as one of the fastest growing economies in the world. And on the international stage, Turkey has managed to enhance its position from being a backseat NATO member and outside candidate for EU membership to being an influential regional power, determining and developing its own individual foreign policy. Shane Brennan and Marc Herzog explore how these and other changes have shaped the way people in Turkey perceive themselves and how the country's self-image shapes its actions. In the modern age, the sovereign nation-state still continues to be one of the basic building blocks of social or political identity. The Turkish Republic, founded in 1923, is a good example. In weaving together and selecting certain elements of memory, myth, tradition and symbols, the narratives of national identity in Turkey have been, to a large extent, socially constructed. This volume offers analysis of the ways in which these narratives have been created, maintained and negotiated, and how current economic and political interests have been incorporated into the construction of a modern identity. External forces such as those of cultural and economic globalisation have also been influential agents in this process. As a result, the space and opportunity for social and cultural expression has increasingly widened while alternative identities and life-style choices at both the collective and individual levels have also become more visible. Bearing this in mind, this book examines issues such as those of alternative gender identity and sexual orientation, formerly taboo issues.

Through different approaches engaging with politics, economy, society, culture and history, Turkey and the Politics of National Identity offers new perspectives on the transformation of national identity in this increasingly influential country in the Middle East.

Sigurd Our Golden Collie and Other Comrades of the Road Kregel Academic Javanmardi is one of those Persian terms that is frequently mentioned in discussions of Persian identity, and yet its precise meaning is difficult to comprehend. A number of equivalents have been offered, including chivalry and manliness, and while these terms are not incorrect, javanmardi transcends them. The concept encompasses character traits of generosity, selflessness, hospitality, bravery, courage, honesty, truthfulness and justice--and yet there are occasions when the exact opposite of these is required for one to be a javanmard. At times it would seem that being a javanmard is about knowing and doing the right thing, although this definition, too, falls short of the term's full meaning. The present collection is the product of a three-year project financed by the British Institute of Persian Studies on the theme of "Javanmardi in the Persianate world." The articles in this volume represent the sheer range, influence, and importance that the concept has had in creating and contributing to Persianate identities over the past one hundred and fifty years. The contributions are intentionally broad in scope. Rather than focus, for example, on medieval Sufi manifestations of

javanmardi, both medieval and modern studies were encouraged, as were literary, artistic, archaeological, and sociological studies among others. The opening essays examine the concept's origin in medieval history and legends throughout a geographical background that spans from modern Iran to Turkey, Armenia, and Bosnia, among both Muslim and Christian communities. Subsequent articles explore modern implications of javanmardi within such contexts as sportsmanship, political heroism, gender fluidity, cinematic representations, and the advent of digitalization.

In Forged By War, Australian veterans and their families reveal the experience of combat and how it has changed their lives. These stark first-hand accounts describe the reality of military action and its personal consequences in every major conflict and peacemaking mission since World War II, including the invasion of Iraq. Sometimes the reader is in lockstep with a soldier on patrol, watching as a land mine explodes, or a local militiaman points an AKandndash;47 at Australian peacemakers. Other times, the reader is inside a returned veteran's head, feeling their superfluous adrenalin, their need to control their environment, even at home. With accounts from Peter and Lynne Cosgrove, Graham Edwards, Frank Hunt (I Was Only Nineteen), other veterans of Vietnam, Glenda Humes (daughter of Capt Reginald Saunders), peacemakers and an SAS trooper, this compelling investigation by Gina Lennox is underpinned by the question: where does family fit in a soldier's life?
