**How to Live Safely in
a Science Fictional
Universe (Enhanced
Edition)** FSG Originals
Science fiction-roman.
A Gathering of Ghosts
FSG Originals

From the author of
Annihilation, now a
major motion picture
on Netflix. Janice
Shriek, ex-society
figure, narrates this
tale with flamboyant
intensity and under
increasingly urgent
conditions. We follow
the adventures of her
brother Duncan, an

historian obsessed with a doomed love affair, and learn of a secret that may kill or transform him. We witness a war between rival publishing houses that will change Ambergris forever. And we're introduced to the gray caps, a marginalized people armed with advanced fungal technologies, who've been waiting underground for their chance to mould the future of the city. Shriek: An Afterword by the Nebula Award winning author Jeff VanderMeer is an epic yet personal look at life, love and death in the vividly imagined city of Ambergris. And, through this tumultuous story of the family Shriek, the author shows his genius at capturing and displaying the

bizarre. Praised by China Miéville, The Times, Guardian and many others, this tale relates the scandalous, heart-breaking and horrifying secret history of two squabbling siblings and their confidantes, protectors, and enemies.

Authority Fourth Estate

This book provides clear information and guidance on how to do scenario planning to support strategy and public policy. The book describes the Oxford Scenario Planning Approach (OSPA), an intellectually rigorous and practical methodology.

The Other Side of the Mountain Oxford University Press
A woman commits suicide for no apparent reason. A week later,

her son—beautiful, troubled fifteen-year-old Mark Underhill—vanishes from the face of the earth. To his uncle, horror novelist Timothy Underhill, Mark’s inexplicable absence feels like a second death. After his sister-in-law’s funeral, Tim searches his hometown of Millhaven for clues that might help him unravel this mystery of death and disappearance. He soon learns that a pedophilic murderer is on the loose in the vicinity, and that shortly before his mother’s suicide Mark had become obsessed with an abandoned house where he imagined the killer might have taken refuge. No mere empty building, the house on Michigan Street

whispers from attic to basement with the echoes of a long-hidden true-life horror story, and Tim Underhill comes to fear that in investigating its unspeakable history, Mark stumbled across its last and greatest secret: a ghostly lost girl who may have coaxed the needy, suggestible boy into her mysterious domain. With lost boy lost girl, Peter Straub affirms once again that he is the master of literary horror.

A Peculiar Peril Harper Collins

The New York Times bestselling final installment of Jeff VanderMeer’s wildly popular Southern Reach Trilogy It is winter in Area X, the mysterious wilderness that has defied explanation for thirty

years, rebuffing expedition after expedition, refusing to reveal its secrets. As Area X expands, the agency tasked with investigating and overseeing it--the Southern Reach--has collapsed on itself in confusion. Now one last, desperate team crosses the border, determined to reach a remote island that may hold the answers they've been seeking. If they fail, the outer world is in peril. Meanwhile, Acceptance tunnels ever deeper into the circumstances surrounding the creation of Area X-- what initiated this unnatural upheaval? Among the many who have tried, who has gotten close to understanding Area X-- and who may have been corrupted by it?

In this last installment of Jeff VanderMeer's Southern Reach trilogy, the mysteries of Area X may be solved, but their consequences and implications are no less profound--or terrifying.

The Breach Wizards of the Coast

The Strange Bird—from New York Times bestselling novelist Jeff VanderMeer—is a novella-length digital original that expands and weaves deeply into the world of his “thorough marvel”* of a novel, *Borne*. The Strange Bird is a new kind of creature, built in a laboratory—she is part bird, part human, part many other things. But now the lab in which she was created is under siege and the scientists have turned on their animal creations. Flying

through tunnels, dodging bullets, and changing her colors and patterning to avoid capture, the Strange Bird manages to escape. But she cannot just soar in peace above the earth. The sky itself is full of wildlife that rejects her as one of their own, and also full of technology—satellites and drones and other detritus of the human civilization below that has all but destroyed itself. And the farther she flies, the deeper she finds herself in the orbit of the Company, a collapsed biotech firm that has populated the world with experiments both failed and successful that have outlived the corporation itself: a pack of networked foxes, a giant predatory bear. But of

the many creatures she encounters with whom she bears some kind of kinship, it is the humans—all of them now simply scrambling to survive—who are the most insidious, who still see her as simply something to possess, to capture, to trade, to exploit. Never to understand, never to welcome home. With *The Strange Bird*, Jeff VanderMeer has done more than add another layer, a new chapter, to his celebrated novel *Borne*. He has created a whole new perspective on the world inhabited by Rachel and Wick, the Magician, Mord, and *Borne*—a view from above, of course, but also a view from deep inside the mind of a new kind of creature who will fight and suffer and live for the

tenuous future of this world. Praise for Borne
 *"Jeff VanderMeer's Southern Reach Trilogy was an ever-creeping map of the apocalypse; with Borne he continues his investigation into the malevolent grace of the world, and it's a thorough marvel."
 —Colson Whitehead
 "VanderMeer is that rare novelist who turns to nonhumans not to make them approximate us as much as possible but to make such approximation impossible. All of this is magnified a hundredfold in Borne . . . Here is the story about biotech that VanderMeer wants to tell, a vision of the nonhuman not as one fixed thing, one fixed destiny, but as either peaceful or

catastrophic, by our side or out on a rampage as our behavior dictates—for these are our children, born of us and now to be borne in whatever shape or mess we have created. This coming-of-age story signals that eco-fiction has come of age as well: wilder, more reckless and more breathtaking than previously thought, a wager and a promise that what emerges from the twenty-first century will be as good as any from the twentieth, or the nineteenth." —Wai Chee Dimock, *The New York Times Book Review*
Annihilation Random House
 An alien invasion comes to one man's doorstep in the form of a story-creature, followed by death and

rebirth in a transformed Earth, in this Tor.com Original science fiction tale from Jeff VanderMeer, the New York Times bestselling author of the Southern Reach trilogy. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Finch Hachette UK
 Named one of NPR's Best Books of 2021
 From the author of *Annihilation*, a brilliant speculative thriller of dark conspiracy, endangered species, and the possible end of all things. Security consultant "Jane Smith" receives an envelope with a key to a storage unit that holds a taxidermied hummingbird and clues leading her to a taxidermied

salamander. Silvina, the dead woman who left the note, is a reputed ecoterrorist and the daughter of an Argentine industrialist. By taking the hummingbird from the storage unit, Jane sets in motion a series of events that quickly spin beyond her control. Soon, Jane and her family are in danger, with few allies to help her make sense of the true scope of the peril. Is the only way to safety to follow in Silvina's footsteps? Is it too late to stop? As she desperately seeks answers about why Silvina contacted her, time is running out—for her and possibly for the world.

Hummingbird Salamander is Jeff VanderMeer at his brilliant, cinematic best, wrapping

profound questions about climate change, identity, and the world we live in into a tightly plotted thriller full of unexpected twists and elaborate conspiracy.

This enhanced eBook includes video, audio, photographic, and linked content, as well as a bonus short story. Hear TAMMY talk.

Learn the origins of Minor Universe 31. See the TM-31. Take a trip in it. Photos and illustrations appear as hyperlinked endnotes. Video and audio are embedded directly in text. *Video and audio may not play on all readers. Check your user manual for details. National Book Foundation 5 Under 35 Award winner Charles

Yu delivers his debut novel, a razor-sharp, ridiculously funny, and utterly touching story of a son searching for his father . . . through quantum space-time. Minor Universe 31 is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That's where Charles Yu, time travel technician—part counselor, part gadget repair man—steps in. He helps save people from themselves. Literally. When he's not taking client calls or consoling his boss, Phil, who could really use an

upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and then vanished.

Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It's called *How to Live Safely in a Science Fictional Universe*, and he's the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and

adventurous, Yu's debut is certain to send shock waves of wonder through literary space-time.

Annihilation (10th Anniversary Edition)
Random House

After thirty years, the only human engagement with Area X—a seemingly malevolent landscape surrounded by an invisible border and mysteriously wiped clean of all signs of civilization—has been a series of expeditions overseen by a government agency so secret it has almost been forgotten: the Southern Reach. Following the tumultuous twelfth expedition chronicled in Annihilation, the agency is in complete

disarray. John Rodrigues (aka "Control") is the Southern Reach's newly appointed head. Working with a distrustful but desperate team, a series of frustrating interrogations, a cache of hidden notes, and hours of profoundly troubling video footage, Control begins to penetrate the secrets of Area X. But with each discovery he must confront disturbing truths about himself and the agency he's pledged to serve. In Authority, the second volume of Jeff VanderMeer's Southern Reach trilogy, Area X's most disturbing questions are answered . . . but the answers are far from reassuring.

Authority (The Southern Reach

Trilogy, Book 2) Harper Collins
 In *City of Saints and Madmen*, Jeff VanderMeer has reinvented the literature of the fantastic. You hold in your hands an invitation to a place unlike any you've ever visited—an invitation delivered by one of our most audacious and astonishing literary magicians. *City of elegance and squalor. Of religious fervor and wanton lusts. And everywhere, on the walls of courtyards and churches, an incandescent fungus of mysterious and ominous origin.* In *Ambergris*, a would-be suitor discovers that a sunlit street can become a killing ground in the blink of an eye. An artist receives an invitation

to a beheading—and finds himself enchanted. And a patient in a mental institution is convinced he's made up a city called *Ambergris*, imagined its every last detail, and that he's really from a place called Chicago.... By turns sensuous and terrifying, filled with exotica and eroticism, this interwoven collection of stories, histories, and "eyewitness" reports invokes a universe within a puzzlebox where you can lose—and find—yourself again. From the Trade Paperback edition. *Rupetta* FSG Originals *Annihilation* is the first volume in Jeff VanderMeer's *Southern Reach* trilogy, *Authority* is the second, and *Acceptance* is the third. *Area X*—a remote

and lush terrain—has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. This is the twelfth expedition. Their group is made up of four women: an anthropologist; a surveyor; a psychologist, the de

facto leader; and our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all their observations, scientific and otherwise, of their surroundings and of one another; and, above all, to avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them, and the secrets the expedition members are keeping from one another, that change everything. After the disastrous twelfth expedition chronicled in *Annihilation*, the

Southern Reach—the secret agency that monitors these expeditions—is in disarray. In *Authority*, John Rodriguez, aka “Control,” is the team’s newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he’s promised to serve. And the consequences will spread much further than that. It is winter in Area X in *Acceptance*. A new team embarks across the border on a mission to find a member of a previous expedition who may have been left behind.

As they press deeper into the unknown—navigating new terrain and new challenges—the threat to the outside world becomes more daunting. The mysteries of Area X may have been solved, but their consequences and implications are no less profound—or terrifying.

Fuccboi Abrams
Pagans tackle the Knights of St John with terrible consequences in the new medieval thriller by Queen of the Dark Ages, Karen Maitland. Set on the wilds of Dartmoor, this is a ghostly tale for fans of *The Essex Serpent*, C. J. Sansom's *Shardlake* series and *The Burning Chambers* by Kate Mosse. 'A dark read... fear and hysteria are portrayed with claustrophobic

skill' The Times on THE PLAGUE CHARMER 1316. On the wilds of Dartmoor stands the isolated Priory of St Mary, home to the Sisters of the Knights of St John. People journey from afar in search of healing at the holy well that lies beneath its chapel. But the locals believe Dartmoor was theirs long before Christianity came to the land. And not all who visit seek miracles. When three strangers reach the moor, fear begins to stir as the well's waters run with blood. What witchcraft have the young woman, the Knight of St John and the blind child brought with them? The Sisters will need to fight for everything they hold dear as the ghosts of the Old World gather in their midst.

Sleeping Late on Judgement Day

Atlantic Books Ltd
 'A contemporary masterpiece' Guardian
 THE SECOND VOLUME OF THE EXTRAORDINARY SOUTHERN REACH TRILOGY - NOW A MAJOR MOTION PICTURE WRITTEN AND DIRECTED BY ALEX GARLAND (EX MACHINA) AND STARRING NATALIE PORTMAN, OSCAR ISAAC, GINA RODRIGUEZ AND TESSA THOMPSON

This World Is Full of Monsters Spectra

The much anticipated second instalment in VanderMeer's Southern Reach trilogy In Annihilation, Jeff VanderMeer introduced the mysteries of Area X-a remote and lush terrain mysteriously sequestered from

civilization. It was the first volume of a projected trilogy; well in advance of publication, translation rights had sold all around the world, and a major movie deal had been struck. Just months later, the second volume is here. For thirty years, the only human engagement with Area X has taken the form of a series of expeditions monitored by a secret agency called the Southern Reach. After the disastrous twelfth expedition chronicled in *Annihilation*, the Southern Reach is in disarray, and John Rodriguez (a.k.a. "Control") is the team's newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video

footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. And the consequences will reach much farther than that. The Southern Reach trilogy will conclude in fall 2014 with *Acceptance*. SOUTHERN REACH TRILOGY. Hachette UK "Terse and intense and new...I loved it." —Tommy Orange, author of *There There* "Fuccboi is its generation's coming of age novel...Utterly of its moment, of this moment." —Jay McInerney, *Wall Street Journal* A fearless and savagely funny examination of masculinity under late capitalism from an

electrifying new voice. Set in Philly one year into Trump's presidency, Sean Thor Conroe's audacious, freewheeling debut follows our eponymous fuccboi, Sean, as he attempts to live meaningfully in a world that doesn't seem to need him. Reconciling past, failed selves—cross-country walker, SoundCloud rapper, weed farmer—he now finds himself back in his college city, trying to write, doing stimulant-fueled bike deliveries to eat. Unable to accept that his ex has dropped him, yet still engaged in all the same fuckery—being coy and spineless, dodging decisions, maintaining a rotation of baes—that led to her leaving in the first place. But now Sean

has begun to wonder, how sustainable is this mode? How much fuckery is too much fuckery? Written in a riotous, utterly original idiom, and slyly undercutting both the hypocrisy of our era and that of Sean himself, Fuccboi is an unvarnished, playful, and searching examination of what it means to be a man. "Got under my skin in the way the best writing can." —Sheila Heti "Sean Conroe isn't one of the writers there's a hundred of. He writes what's his own, his own way." —Nico Walker, author of *Cherry* [The Steampunk User's Manual](#) Pan Macmillan *A Peculiar Peril* is a head-spinning epic about three friends on a quest to protect the world from a threat as

unknowable as it is terrifying, from the Nebula Award-winning and New York Times bestselling author of *Annihilation*, Jeff VanderMeer. Jonathan Lambshead stands to inherit his deceased grandfather's overstuffed mansion—a veritable cabinet of curiosities—once he and two schoolmates catalog its contents. But the three soon discover that the house is filled with far more than just oddities: It holds clues linking to an alt-Earth called Aurora, where the notorious English occultist Aleister Crowley has stormed back to life on a magic-fueled rampage across a surreal, through-the-looking-glass version of Europe replete with talking animals (and

vegetables). Swept into encounters with allies more unpredictable than enemies, Jonathan pieces together his destiny as a member of a secret society devoted to keeping our world separate from Aurora. But as the ground shifts and allegiances change with every step, he and his friends sink ever deeper into a deadly pursuit of the profound evil that is also chasing after them.

Absolution Picador
 Bobby Dollar thinks he's seen it all - after all, he's been to Hell and back again. Literally. But he has another think coming. *Sleeping Late on Judgement Day* will find Bobby back in his adopted hometown of San Judas, California, trying to stay out of

trouble... and failing. His love life is still a mess, there are one too many people who have it out for him, and drowning his sorrows in a nice glass of whisky won't keep the demons at bay forever. Bobby's going to have to pull himself together and make a few tough

decisions before time runs out. The problem is, time could run out at any moment. In the final Bobby Dollar novel in Tad Williams' groundbreaking epic fantasy trilogy, fallen angel Bobby Dollar will finally be forced to confront the one problem he can't talk his way out of: his own.
