planned efforts, her party threatens to be a total bust—especially when one of the sisters goes missing. “Bonnie's Future Sisters is both hilarious and touching. Many people admire and even revere the Bible, but they simply do not understand what they read, much less how to study Scripture. Yet they wish they could. In this

insightful and alternately amusing guide, Professor Mark Yarbrough shows how easy and gratifying it is to unlock the hidden truths of God's Word and to discover a world where reading the Bible doesn't just satisfy our curiosity, but changes our life. To do this, the reader will step into the seminary classroom and observe the practical principles-the tricks of the trade-for becoming a more effective student of the Bible. But Yarbrough has made sure that his writing style and general approach will be appealing to both academic students and those involved in lay-level Bible study. Real life is whacky and in-your-face. Studying Scripture should be too.

When life is funny, make some jokes about it. Billy Plimpton has a big dream: to become a famous comedian when he grows up. He already knows a lot of jokes, but thinks he has one big problem standing in his way: his stutter. At first, Billy thinks the best way to deal with this is to . . . never say a word. That way, the kids in his new school won't hear him stammer. But soon he finds out this is NOT the best way to deal with things. (For one

thing, it's very hard to tell a joke without getting a word out.) As Billy makes his way toward the spotlight, a lot of funny things (and some less funny things) happen to him. In the end, the whole school will know -- If you think you can hold Billy Plimpton back, be warned: The joke will soon be on you!

Chalk's Woman Routledge

'The scent of God...the air was impregnated with him and his mint-sweet and moth-ball evangelists. Just as it was with herring, as you might expect in a fossilised fishing-village on Scotland's repressed east coast where fishing was an act of faith and not yet a computer-science industry designed to suck the last drops of life out of the sea.' A vivid and moving account of the author's upbringing in the 1940s and 1950s in the little fishing village of St Monans. Rush returns decades later to rediscover his childhood, and offers a frank account of how it was for him. This evocation of a way of life now vanished demonstrates the power of the word to bring the past timelessly to life. Rush writes of family, village characters, church and school; of folklore and fishing, the eternal power of the sea and the

cycles of the seasons. With a poet's eye he navigates the worlds of the imagination and the unknown, the archetypal problems of fathers and sons and mother love, and the inescapability of childhood influences far on into adult life.

For more than a century, the small town of Haddan, Massachusetts, has been divided, as if by a line drawn down the centre of Main Street, separating those born and bred in the 'village' from those who attend the prestigious Haddan School. But one October night the two worlds are thrust together by an inexplicable death and the town's divided history is revealed in all its complexity. The lives of everyone involved are unravelled: from Carlin Leander, the

fifteen-year-old scholarship girl who is as loyal as she is proud, to Betsy Chase, a woman running from her own destiny; from August Pierce, a loner and a misfit at school who unexpectedly finds courage in his darkest hour, to Abel Grey, the police officer who refuses to let unspeakable actions - both past and present - slide by without notice.

This text offers a critical study of postmodernism in Russian literature. It takes some of the central issues of the critical debate to develop a conception of postmodern poetics as a dialogue with chaos and places Russian literature in the context of an enriched postmodernism.
