The Time Lords are an immensely civilised, and immensely powerful, race. Yet we know very little about them, save that they can live forever (barring accidents) and possess the secrets of space and time travel. Their history has been shrouded in myth and mystery. Until now. A Brief History of Time Lords unlocks

the secrets of this ancient, legendary alien race - a civilisation that inflicted some of its most notorious renegades and criminals on the universe, but was also the benevolent power that rid the cosmos of its most fearsome enemies. Drawn from the ancient records of Gallifrey, and handed down from generation to generation, this remarkable book reveals the Time Lords in all of their guises: pioneers and power-mad conspirators, time-travellers and tyrants, creators and destroyers. Be careful who you share it with.

For thousands of years, epic stories have been passed down from Time Lord to student, generation to generation. The truth of these tales was lost millennia ago, but the myths and legends themselves are timeless. These are the most enduring of those tales. From the princess Manussa and her giant snake Mara, to the Vardon Horse of Xeriphin, these stories shed light on the universe around us and the beings from other worlds that we meet. Myths hold up a mirror to our past, present and future, explaining our culture, our history,

our hopes and fears. A collection of epic adventures from the Time Lords' mist-covered past, Myths and Legends is an unforgettable gallery of heroes and villains, gods and monsters.
