The first collection and translation into English of the earliest biographical accounts of Galileo's life. This unique critical edition presents key early biographical accounts of the life and work of Galileo Galilei (1564-1642), written by his close contemporaries. Collected and translated into English for the first time and supplemented by an introduction and incisive annotations by Stefano Gattei, these documents paint an incomparable firsthand picture of Galileo and offer rare insights into the construction of his public image and the complex intertwining of science, religion, and politics in seventeenth-century Italy. Here in its entirety is Vincenzo Viviani's Historical Account, an extensive and influential biography of Galileo written in 1654 by his last and most devoted pupil. Viviani's text is accompanied by his "Letter to Prince Leopoldo de' Medici on the Application of Pendulum to Clocks" (1659), his 1674 description of Galileo's later works, and the long inscriptions on the façade of Viviani's Florentine palace (1702). The collection also includes the "Adulatio pernicioosa," a Latin poem written in 1620 by Cardinal Maffeo Barberini—who, as Pope Urban VIII, would become Galileo's prosecutor—as well as descriptive accounts that emerged from the Roman court and contemporary European biographers. Featuring the original texts in Italian, Latin, and French with their English translations on facing pages, this invaluable book shows how Galileo's pupils, friends, and critics shaped the Galileo myth for centuries to come, and brings together in one volume the primary sources needed to understand the legendary scientist in his time.

History of the Revolution in England in 1688 Quodlibet

In the globalized, postmodern world, the production of encounters and clashes between dissimilar cultures, ways of life, and systems of values has drastically increased in number. More and more frequently, they originate harsh conflicts, exhibiting the existence of alternative and apparently incompatible ways of living and thinking – culturally, religiously, economically and politically speaking. In this context, words as tolerance and intolerance have been put at the heart of the political debate. However, what is the real meaning of these political concepts? Why did they originate and how did they develop over time? Do they still represent a valid resource for comprehending our current societies and dealing with them? Through the different voices of several scholars in the humanities, this book traces the history of tolerance since the wars of religion to the contemporary age, combining the historical reconstruction with a theoretical and critical analysis of the idea and practice of tolerance in different epochs and places. The obstacle course depicted here reveals the constitutive fragility of this concept that, however, cannot be totally dismissed from our political vocabulary.

Un documento sconvolgente riemerge dalle nebbie del passato. Quella che è sempre stata considerata solo leggenda, si rivela essere invece un inesorabile fatto storico. Il ricordo di quell'orrore è troppo vivo, diffonderlo significherebbe violentare la coscienza dei popoli e minare la stabilità dei governi di tutto il mondo. Mentre organizzazioni potenti e ritenute scomparse riemergono dall'oblio con obiettivi di dominio, il Club del Cerchio lavora nell'ombra per tutelare il mondo come oggi lo conosciamo. In attesa che la verità torni a galla... una volta per tutte. [Host Bibliographic Record for Boundwith Item Barcode 30112087575558](#) Google Play Public Domain Volume I of Franco Montanari's "Kleine Schriften" comprises some 66 papers on ancient scholarship, a topic which he decisively helped establishing as an extremely important field of study; they include general surveys of Alexandrian and Pergamene philology, major contributions to ancient Homeric scholarship (with a particular emphasis on Aristarchus), ancient scholarship on Hesiod and Aeschylus, as well as an important number of editions and notes on papyrological scholarly texts. Volume II consists of 42 contributions to Homer's Iliad and Odyssey, Pindar, Aeschylus, Herodotus, Euripides, the Athenaion Politeia, Lucian, Nonnus, philosophical papyri, the reception of antiquity and portraits of contemporary scholars.

The history of England from the accession of James the second Quodlibet

L'intero libro è stato scritto attraverso contatti con entità di ordine superiore, anime un tempo appartenenti a questa nostra esistenza, ansiose di aiutare l'uomo a comprendere la vita e a decidere

di restare presenti sempre, anche nel dolore delle cose insopportabili. Il suo scopo sarà quello di adempiere a due compiti molto importanti, il primo di aiutare l'umanità a crescere spiritualmente abbandonando l'odio, l'invidia, la rabbia e il secondo di illustrare quali saranno gli avvenimenti a livello mondiale su politica, religione, mafia, medicina... fino al 2020.
