An extraordinary story of
life on a South African
game reserve from the
'Indiana Jones of
conservation' and the

authors of The Elephant
Whisperer. Lawrence
Anthony's South African
game reserve is home to
many animals he has
saved, from a remarkable
herd of elephants to a
badly behaved bushbaby
called George. When one
of his rhinos was brutally
slaughtered for her horn,
he didn't hesitate to lead
an armed response
against the poachers.

Then he learned that
there were only a handful
of northern white rhinos
left in the wild, living in an
area of the Congo
controlled by the
infamous Lord's
Resistance Army and soon
to be hunted into
extinction. Lawrence
knew he had to take
action. What followed was
an extraordinary
adventure, as he headed

into the jungle to negotiate with the rebels, while battling to save his own animals from terrible drought and to save the eyesight of his beloved elephant matriarch Nana. *The Last Rhinos* is peopled with unforgettable characters, both human and animal, and is a sometimes funny, sometimes moving, always exciting read. 'Anthony was a charismatic figure whose life combined Gerald Durrell-esque animal antics with Wilbur Smith bush heroics . . . a rattling

read with an urgent message' - BBC Wildlife Magazine

 From the award-winning author of the bestselling Library Mouse series comes a biographical picture book about the true story of rhino champion Anna Merz and the black rhinoceros Samia. With a portion of the proceeds being donated to the Lewa Downs Conservancy, this engaging story is perfect for animal lovers, animal rights enthusiasts, and

fans of Me . . . Jane. When Anna Merz traveled to East Africa, she became appalled at the rampant poaching that took place there, specifically toward the black rhinoceros. Anna devoted her life to protecting the wildlife of the region, founding a reserve in Kenya called Lewa Downs to care for them. Anna kept a watchful eye on the animals, especially the rhinos. One day, Anna found a small black rhino calf, likely abandoned by its mother. So she nurtured the calf, named

it Samia, fed it special formula, and even let it sleep in her bed. Everywhere Anna went Samia was never far behind. The two became so close, in fact, that Anna soon learned how rhinos communicate with one another. Anna was able to distinguish the rhino's many different grunts and what she meant by them: "Snort! Snuff," cried Samia ("This is fun!"); "Hoo-hoo-hoo!" she called ("I'm coming!"). But with time, Samia got bigger . . . and bigger . . . and bigger—to the point

where she couldn't fit inside Anna's house any longer. It was time for Anna to make the tough decision she always knew she would have to make at some point or another: She would need to reintroduce Samia to the wild so she could lead her life with the rest of her kind. Richly illustrated with pen, ink, and watercolors, Daniel Kirk's first nonfiction picture book brings awareness to wildlife protection and fosters further understanding of animal rescue and welfare,

positioned in a sensitive way that's appropriate for young readers. Kirk traveled to Kenya to see the reserve firsthand and his photographs grace the back matter, which includes an author's note and bibliography.

"Don't you wish," said the small rhinoceros, "that you could see the world?" And so begins this delightful picture book by award-winning creators Meg McKinlay and Leila Rudge. Once, there was a small rhinoceros who wanted to see the big world. So she built a boat. And sailed away ... From the duo behind award-winning picture book No Bears comes a simple yet inspirational tale about challenging the norm, pushing boundaries and being true to oneself.

"Rrrrh!" means "Let's be friends" in tiger talk, but the other animals don't understand him and run away! Maybe the gentle "rum-pum-pum" of the drum can help him. Fun animal sounds in a story about friendship, communication, and

music. A perfect story time read-aloud! The lonely tiger finds a drum. He strikes it with his tail-- and friends start to follow: a monkey who says "chee-chee-chee" which means "I will come too" in monkey talk, a rhino who says "ougg" which means "I will come too" in rhino talk, a parrot that says "scree-awk," a chameleon, an elephant, and eventually a child-- who is now reunited with the drum he lost. Because of the drum, the tiger is no longer lonely and friendless. Information

about tiger conservation is included in the back. The authors are the two most beloved contemporary children's books author-poets. *Peanut Butter Rhino* Random House A moray eel diagnosed with anorexia...A herd of bison whose only hope is a crusading female doctor from Paris...A vet desperately trying to save an orphaned whale by unraveling the mystery of her mother's death...This fascinating book offers a rare glimpse into the world of exotic animals

and the doctors who care for them. Here pioneering zoological veterinarians—men and women on the cutting edge of a new medical frontier—tell real-life tales of daring procedures for patients weighing tons or ounces, treating symptoms ranging from broken bones to a broken heart, and life-and-death dramas that will forever change the way you think about wild animals and the bonds we share with them. From a root canal on a three-thousand pound hippo to one

doctor's heartbreaking effort to save a critically ill lemur, here are acts of rescue, kindness, and cross-disciplinary cooperation between zoo vets and other top scientists. We meet highly trained specialists racing against time and circumstance to save the lives of some of the most exotic animals in the world. Shoes designed for racehorses help a rhinoceros with a debilitating foot disease. A kangaroo survives spinal surgery performed by a leading human

doctor. These unforgettable stories capture the bonds that develop between vets and their animal patients, the ingenious measures many vets have tried, and the remarkable new insights modern medical technology is giving us into the physiology and behaviors of wild animals. At once heart-quickenning and clinically fascinating, the stories in this remarkable collection represent some of the most moving and unusual cases ever taken on by zoological vets. A

chronicle of discovery, compassion, and cutting-edge medicine, *The Rhino with Glue-on Shoes* is must reading for animal lovers, science buffs, and anyone who loves a well-told tale.

This fascinating, informative, and touching picture book by a Caldecott Medalist is based on the true story of an eighteenth-century rhino who toured Europe and started a sensation! *Clara* is a book sure to fascinate young animal

lovers, history buffs in the making, and kids interested in geography, as they follow a rhinoceros on her journey across Europe. In detailed illustrations, McCully shows Clara being introduced to Louis XV of France, Frederick the Great of Germany, and others willing to pay for a chance to stroke her soft lip. Her owner, a Dutch sea captain, keeps Clara fed (she eats 100 pounds of hay and 30 loaves of bread a day!) and watered (she drinks 14 buckets of water and

beer) and takes loving care of her until her death 17 years later. Winner of the National Parenting Product Award *The White Rhino Saga* Little, Brown Books for Young Readers A brand new Mr Gumpy story from picture-book legend, John Burningham Mr Gumpy is off on an adventure! Edward M. Warner, a self-proclaimed radical

conservationist, presents his outrageous adventures from more than a decade of collaboration with the veterinarians and biologists who care for endangered rhinos in Africa. Few if any laymen like Warner have been invited to do what amounts to some of the most dangerous volunteer fieldwork around. Fewer than five thousand black rhinos remain in the wilds of sub-Saharan Africa. About five hundred live on private conservancies in Zimbabwe. For Warner,

working on the frontlines of rhino conservation not only allowed him to help rhinos, it gave him the opportunity to pursue and refine his emerging philosophy of radical conservationism, to cultivate partnerships between local communities and private landowners in Africa, and to export the lessons about land and wildlife management back home to the United States. In *Running with Rhinos: Stories from a Radical Conservationist*, Warner takes readers along as he

weasels his way into becoming volunteer ground support for the International Rhino Foundation's Rhino Conservancy Project, or "Rhino Ops," in Zimbabwe. It is gritty, sweaty, sometimes scary, and exhilarating work. Warner succeeds in telling a remarkable story of the extraordinary bonds between humans—and their dedication to protecting endangered animals—all while weaving eye-opening stories about the flora, fauna, geology,

geography, and politics of sub-Saharan Africa.

The White Rhino Saga - back in print after more than 30 years - is more relevant than ever as our rhino population faces a deadly poaching onslaught. With a new introduction by Julian Rademeyer and a 'missing chapter' never before published, a new

generation of readers can enjoy and learn from the extraordinary story of how the white rhino was saved from extinction four decades ago. From Ian Player's first visit to the Umfolozi Game Reserve in South Africa's Zululand in 1952, the salvation of the white rhino from extinction became a personal obsession. The white rhino, the second largest animal in the world, had roamed over the southern half of the African continent in large numbers during the nineteenth century and

before. By the 1960s fewer than five hundred remained, confined to 72 000 acres, not nearly enough territory for them to remain healthy and alive. The problem confronting Ian Player and his co-workers was twofold: how to repopulate the game reserves of Africa where white rhinos had once lived, and how to supply white rhinos to the zoos of the world. The techniques for capturing and transporting the huge animals are fascinating. The White Rhino Saga,

Alan Paton writes in his foreword, 'is a book for every lover of the wild. The danger of captures, the disappointments, the ultimate successes, makes a splendid tale.' It is a tale of adventure, of Africa, of animals - and of the man who set out to save them.

I See a Rhinoceros

When a little girl feels like the pain of the world is too much, she builds a tough-skinned rhino suit to protect herself. When one little girl sees litter in the streets, an animal

without shelter, and the pain of a parent, the weight of the world feels like too much to bear. She feels everything so deeply, it makes her want to hide. One day, when the tenderness and pain of the world feel like they are more than she can handle, she has a grand idea. She decides to build a rhino suit to keep herself safe. Inside the rhino's armor, the pain of the world is easy for the girl to ignore—but the beauty and joy that the world has to offer are hidden from her, too. And

soon, she finds that the rhino suit blocks off her ability to help. Maybe living without thick skin is worth the risk ... With soft and emotive illustrations and a story that will open hearts, *The Rhino Suit* is about moving from fear to courageousness, from brokenness to wholeness, and from feeling shut down to letting all of life in.

Ugly yet enchanting, terrifying yet delicate, the Indian Rhinoceros is a magnificent animal. It is also in danger of being killed off for good. The Soul of the Rhino is a spirited account of one man's journey to protect the animal in the foothills of the Himalayas.
Hemanta Mishra was fresh

out of university when he embarked on his conservation work in the 1970s. Over the years, he got help from an ornery but steadfast elephant driver, the Nepalese royal family and like-minded scientists. He also did outstanding work--creating nature reserves, arm-wrestling politicians and raising awareness. But Mishra hasn't won his battle to save the rhino. As he shows vividly, armed insurgency, political violence and poaching are driving this endangered species to

complete extinction. Filled with candour and bittersweet humour, The Soul of the Rhino is the first book of its kind to delve into the labyrinths of South Asian wildlife conservation and one man's endurance in the face of it all.

A provocative and playful exploration of the Zen koan tradition that reveals how everyday paradoxes are an integral part of our spiritual journey. Bring Me the Rhinoceros is an unusual guide to happiness and a can opener for your thinking. For fifteen hundred years, Zen koans have been passed down through generations of masters, usually in private encounters between teacher and student. This

book deftly retells more than a dozen traditional koans, which are partly paradoxical questions dangerous to your beliefs and partly treasure boxes of ancient wisdom. Koans show that you don't have to impress people or change into an improved, more polished version of yourself. Instead you can find happiness by unbuilding, unmaking, throwing overboard, and generally subverting unhappiness. Author and Zen teacher John Tarrant brings the heart of the koan tradition out into the

open, reminding us that
the old wisdom remains

as vital as ever, a deep
resource available to

anyone in any place or
time.
