Harvest

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Oxford Dictionary of English Penguin UK

An item-by-item discussion of the innumerable, often obscure details of Malcolm Lowry's novel, this book comprises 1,600 notes covering some 7,000 specific points. The notes are keyed to page numbers in the Penguin paperback and the two standard hardback editions. The appendices include a glossary, bibliography, maps of the region, and an index of motifs. In their comprehensive but unpedantic commentary on the novel's complexities, the authors' emphasis is on the narrative level. All points of obscurity are followed by an interpretation of fact. Thus references are noted to films, books, places, foreign languages, and national and tribal histories. Special attention is given to the literary, mystical, and Mexican background.

Fodor's Travel

In this fascinating memoir, the author says goodbye to a mundane existence in America and, given a free air ticket and apartment, ventures to teach English on a remote island off the coast of South Korea. Dubbed The Island of Fantasy by its inhabitants, Koje-do is a mixture of charm and peaceful beauty. But in its city center sits Wonder School, a place of frantic chaos and disorganization. Treated like an English-speaking slave by the school's owners, Matthews struggles to teach students unlike anything his recruiter, the unscrupulous Mr. Wong, had depicted. Outside the job he meets a cast of memorable characters including the mysterious Choi and two-timing Natasha. Eye-popping and downright hilarious, the chronicle spins into a whirlwind that leaves the reader either stunned or laughing on the floor. 'Bracingly apocalyptic stuff: atmospheric, chock-full of information and with a constantly escalating sense of pace and tension' Sunday Telegraph
 Simon Winchester's brilliant chronicle of the destruction of the Indonesian island of Krakatoa in 1883 charts the birth of our modern world. He tells the story of the unrecognized genius who beat Darwin to the discovery of evolution; of Samuel Morse, his code and how rubber allowed the world to talk; of Alfred Wegener, the crack-pot German explorer and father of geology. In breathtaking detail he describes how one island and its inhabitants were blasted out of existence and how colonial society was turned upside-down in a cataclysm whose echoes are still felt to this day.
