The Positive Mental Moxie of Myth for Personal Growth Joseph Campbell defined a myth as "a life-shaping image, a metaphor that creates a hero out of those who heed it." Author Dr. Gene Landrum takes Campbell's definition one step further by offering a variety of motivational techniques that will propel you to heroic success. Dr. Landrum describes the "superman syndrome" as a series of common behaviors that permit

an otherwise average person to rise above the norm. He points out that some of the world's most renowned visionaries--Catherine the Great, Walt Disney, and Ian Fleming--did not conform to tradition because they modeled their behavior on heroic ideals and mythical mentors. Learn how to transform your life from ordinary to extraordinary by focusing on several key ideas: Chasing money is entropic and the path to the poorhouse Happiness is a side effect of being--never trying Romance only comes to those not trying to find romance Anxiety is a by-product of unrealistic expectations Breakdown

leads to breakthrough Being stupid is the pathway to being smart Do you have the Superman Syndrome? Test yourself to find out!

The Garland of Letters Oxford University Press

Explores the secrets and benefits of alternate nostril breathing practices • Includes breathing techniques to help overcome infertility, bad luck, and illnesses • Explains the interactions of the vital energy of breath with the chakras and energy channels (nadis) There is an intimate relationship between breathing and our emotional states. When we are nervous or excited, our breath rate increases. Conversely, if we alter our rate of breathing, we can alter our emotional state. The ancient civilization of India developed methods

for changing the emotions and states of consciousness through yogic meditation and pranayama (breath control). Secret Power of Tantrik Breathing teaches the advanced pranayama system of svaraodaya, which is based on the fact that we normally breathe freely through only one nostril at a time. In a healthy person, breathing changes roughly every one and a half hours from one nostril to the other, with each nostril imparting different qualities to one's mental and physical state. The left nostril is cool, soothing, passive, and feminine in nature; the right is warm, energizing, active, and masculine. When the breath remains in one nostril for longer than normal, mental and physical illness can result. The goal of svaraodaya is to harmonize the breath from each nostril

with the life task needing to be accomplished. This book explains how to practice this breath control and how the vital energy of breath interacts with the chakras and energy channels (nadis) to create overall balance and harmony. It also includes svaraodaya breathing techniques to help overcome illnesses, infertility, and bad luck; make predictions; and attain liberation from the cycle of rebirth.

The Superman Syndrome--The Magic of Myth in The Pursuit of Power Oxford University Press

Cave paintings at Lascaux, France and Altamira, Spain, fraught with expression thousands of years later; point to an early human desire to form a cultural identity. In the Oxford Companion to World Mythology, David Leeming

explores the role of mythology, or mythologic, in history and determines that the dreams of specific cultures add up to a larger collective story of humanity. Stopping short of attempting to be all-inclusive, this fascinating volume will nonetheless be comprehensive, opening with an introduction exploring the nature and dimensions of myth and proposing a definition as a universal language. Briefly dipping into the ways our understanding of myth has changed from Aristotle and Plato to modern scholars such as Joseph Campbell, the introduction loosely places the concept in its present context and precedes articles on influential mythologists and mythological approaches that appear later in the Companion. The main body of Leeming's work consists of A-Z entries

covering all aspects of mythology, including substantial essays on the world's major mythological traditions (Greek, Native American, Indian, Japanese, Sumerian, Egyptian), mythological types and motifs (Descent to the Underworld, the Hero, the Trickster, Creation, the Quest), mythological figures (Odysseus, Zeus, Osiris, Spider Woman, and Inanna) as well as numerous interrelated subjects such as fairy tales and legends. The Companion also locates myth in our lives today, relating it to language patterns, psychology, religion, politics, art, and gender attitudes. Many of the better-known and more significant myths are vividly retold in this volume that will be illustrated with maps, more than 70 black and white images, and eight pages

of color highlighting the central role art has often played in the transmission and perpetuation of myth. Following the entries, a rich section of appendices will include family trees of the major pantheons, equivalency charts for the gods of Greece and Rome, Babylon and Sumer, as well as other traditions, an extensive bibliography, and an index.

Dance of Shiva & Other Divine Tales

Jaico Publishing House

Yogic Secrets of the Dark Goddess unfolds the mystic beauty of Kali, the most powerful but misunderstood of the great goddesses of India. Probably the most comprehensive and innovative examination of Ma Kali in recent decades, the book reveals all dimensions of life and consciousness in Kali's transformative dance.

Beltane Rudi Zimmerer

Twin sisters Allie and Zen have always shared everything: including an unconventional upbringing at Pagan Spirits Farms. They even fall in love at the same time. Pagan priestess Allie thinks she's met the man of her dreams in her buttoned-down lawyer fiancé, Paul Phillip. But is he everything he seems? Zen, a witch gifted with the sixth sense, falls for Orlando. But there's a catch: Orlando is married to someone else. As the celebration of Beltane nears, the sisters seem destined to be unlucky in love. But the Goddess moves in mysterious ways, and May Day may turn out to be magic for them after all.

vampire facts and chilling illustrations - no vampire-lover should be without one.

Genre - text - interpretation Springer Nature

Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality? This two-volume work presents objective scientific information and personal stories aiming to answer the question. The first of its kind, this intriguing two-volume set objectively reports on and assesses this modern psycho-social movement in world culture: the constructive medical use of entheogens and related mind-altering substances. Covering the use of substances such as ayahuasca, cannabis, LSD, peyote, and psilocybin, the work seeks to illuminate the topic in a scholarly and scientific

fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether. The volumes address the history and use of mind-altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine, providing unbiased coverage of the relevant arguments and controversies regarding the subject matter. Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism, Christianity, Islam, and Buddhism as well as in the rituals of shamanism and other less widely known faiths. This highly readable work will appeal to everyone from high

school students to seasoned professors, in both the secular world and in devoted church groups and religious colleges. *The Essential Edmund Leach: Culture and human nature* Yale University Press Originally published in 1973. The volume is divided into four sections: The introduction places the position of the Buddhist Tantras within Mahayana Buddhism and recalls their early literary history, especially the Guhyasamahatantra; the section also covers Buddhist Genesis and the Tantric tradition. The foundations of the Buddhist Tantras are discussed and the Tantric presentation of divinity; the preparation of disciples and the meaning of initiation; symbolism of the mandala-palace Tantric ritual and the twilight language. This section explores the

Tantric teachings of the inner Zodiac and the fivefold ritual symbolism of passion. The bibliographical research contains an analysis of the Tantric section of the Kanjur exegesis and a selected Western Bibliography of the Buddhist Tantras with comments.

Offering Flowers, Feeding Skulls Simon and Schuster

The Goddesses of old have become the watchers of mankind and the Gods. Gaia, Isis, Psyche, Bellona, Diana, Lilith, Rahda, and Kali ma are the sisterhood of darkness. Pain followed them for centuries and now Lilith the leader of the sisterhood has to face her past. When Azazel, his generals, and the Legion of the Damned Souls from Hell are released from their prison; the sisters come face to face with an aged old prophecy that

could destroy them all. The sisterhood is now in the battle to save mankind and the realm of the Gods. The prophecy will reunite soul mates long lost by time itself. Lilith is taken on a journey when she goes on a mission to locate the Goddess Kali, but she gets more than she bargains for; her soul mate Adam. Now that time is of the essence Lilith must warm her cold heart and forgive Adam for shattering it; but can Adam survive Lilith's intense sexual dominating desires and the coming Apocalypse

Mental Architecture Chapter XXVIII. Making Over Oneself Chapter XXIX. Mind-Building

The Great Book of Magical Art, Hindu Magic and East Indian Occultism Dorling Kindersley Ltd

This book is an in-depth account of people's cultural and religious life in the Jammu region of Jammu and Kashmir, India. It brings out the significance of

Sufi and deity shrines as alternative places of worship that give meaning and purpose to people's lives. It includes sites and practices commonly associated with Islam/Sufism and Hinduism as spaces of shared culture. Most of the existing literature of Jammu and Kashmir is on Kashmir focusing mostly on topics such as politics, state, identity, conflict or violence. This book proposes to go beyond these works by delimiting the focus and area of the study to culture, society and religion. It explores the sites of religious pluralism and tolerance in the violence-ridden territory of Jammu and Kashmir. The chapters are mainly based on ethnographic data collected through qualitative methods like observation - participant and non-participant, case studies, in-depth

interviews and oral history. The book is of interest to researchers, both faculty and graduate students, in the areas of sociology of religion, social anthropology, religious studies, cultural studies, Sufism, shrines and deity worship in South Asia.

Kali Suomalaisen Kirjallisuuden Seura

One of the three great gods of Hinduism, Siva is a living god. The most sacred and most ancient book of India, The Rg Veda, evokes his presence in its hymns; Vedic myths, rituals, and even astronomy testify to his existence from the dawn of time. In a lively meditation on Siva--based on original Sanskrit texts, many translated here for the first time--Stella Kramrisch ponders the metaphysics, ontology, and myths of Siva from the Vedas and the Puranas. Who is Siva?

Who is this god whose being comprises and transcends everything? From the dawn of creation, the Wild God, the Great Yogi, the sum of all opposites, has been guardian of the absolute. By retelling and interweaving the many myths that keep Siva alive in India today, Kramrisch reveals the paradoxes in Siva's nature and thus in the nature of consciousness itself.

Mystery of Black Magic Heinemann

"Never before in print have I seen Her brought to life with such passion and truth. Harding brings Mother Kali to everyone who sees her path".

[Encyclopedia of Ancient Deities](#) Springer

Although little known, cannabis and other psychoactive plants held a prominent and important role in the Occult arts of Alchemy and Magic, as

well as being used in ritual initiations of certain secret societies. Find out about the important role cannabis played in helping to develop modern medicines through alchemical works. Cannabis played a pivotal role in spagyric alchemy, and appears in the works of alchemists such as Zosimos, Avicenna, Lull, Paracelsus, Cardano and Rabelais. Cannabis also played a pivotal role in medieval and renaissance magic and recipes with instructions for its use appear in a number of influential and important grimoires such as the Picatrix, Sepher Raxiel: Liber Salomonis, and The Book of Oberon. Could cannabis be the Holy Grail? With detailed historical references, the author explores the allegations the Templars were influenced by the hashish ingesting Assassins of

medieval Islam, and that myths of the Grail are derived from the Persian traditions around the sacred beverage known as haoma, which was a preparation of cannabis, opium and other drugs. Many of the works discussed, have never been translated into English, or published in centuries. The unparalleled research in this volume makes it a potential perennial classic on the subjects of both medieval and renaissance history of cannabis, as well as the role of plants in the magical and occult traditions.

Seeking the Sacred with Psychoactive Substances Cambridge Scholars Publishing

Produced specifically to answer QCA concerns over attainment and assessment in RE at Key Stage 3, this

series balances learning about religions with learning from religions. It comprises differentiated Student Books, Teacher's Resource Packs and CD-ROMs, on the six major world faiths.
