The last two decades have seen major advances in the legal protection of the human rights of women around the world. A series of international and national court cases has developed an important body of

jurisprudence that has been relied on by courts and advocates in many countries to support women's claims for equality and the full enjoyment of human rights and fundamental freedoms. Growing out of a series of judicial colloquia organized by the Commonwealth Secretariat, this compilation brings together a selection of over fifty significant cases from international and national courts. The cases are grouped by theme and

presented in full text or edited format. Together they highlight the way in which courts have used international human rights norms and national constitutional standards to contribute to women's equality. A detailed introduction provides a summary of the significance of the cases and references further material available on women's human rights. Cases decided under United Nations human rights treaties, the European and American

Conventions on Human Rights and other international instruments, as well as cases decided by national courts in Asia, Africa, Europe, Australasia, and North America are all included. The compilation will be of interest to all those with an interest in the advancement of the human rights of women especially equality advocates, lawyers and judges, scholars and students.

Getting a Job in Canada North Vancouver, B.C. : Self-Counsel Press
In this definitive biography, veteran sportswriter Tom Callahan shines a spotlight on one of the greatest golfers ever to play the game, Arnold Palmer. The winner of more than ninety championships, including four Masters Tournaments, Arnold Palmer was a legend in twentieth century sports: a supremely gifted competitor beloved for his powerful hitting, his nerve on the greens, and his great rapport with fans. Perhaps above all others, Palmer was the reason golf's popularity exploded, as the King of the links helped define golf's golden age along with Jack Nicklaus and Gary Player. In addition to his talent on the golf course, Palmer was a brilliant entrepreneur off it, and one of the first sportsmen to create

his own successful marketing brand. Forging an alliance with sports agent Mark McCormick, Palmer parlayed his popularity into lucrative deals, and helped pave the way for the multi-million-dollar contracts that have become standard for stars across all sports. But beyond his business acumen, Palmer was always a larger-than-life character, and Arnie recounts a host of unforgettable anecdotes from a long life in the spotlight. Tom Callahan knew Palmer well for many years, and now pays tribute to this golfing icon. Filled with great stories from the key people in Palmer's life, Arnie is an entertaining and illuminating portrait of a remarkable man and his extraordinary legacy.

They were called aliens and enemies. But the World War II internees John Christgau writes about were in fact ordinary people victimized by the politics of a global war. The Alien Enemy Control Program in America was born with the United States's declaration of war on Japan, Germany, and Italy and lasted until 1948. In all, 31,275 enemy aliens were imprisoned in camps like the one described in this book. Fort

Lincoln, just south of Bismarck, North Dakota. In animated and suspenseful prose, Christgau tells the stories of several individuals whose experiences are representative of those at Fort Lincoln. The subjects' lives before and after capture are presented in five case studies, full of encroaching bitterness and sorrow. Christgau based his accounts on voluminous and previously untouched National Archives and FBI documents in addition to letters, diaries, and interviews with his subjects. Christgau's afterword for this Bison Books edition relates additional stories of World War II alien restriction, detention, and internment that surfaced after this book was originally published, and he draws parallels between the alien internment of World War II and events in this country since September 11, 2001.

The Ironies of Citizenship Trine Day
"Climbing A Florida Mountain" is the memoir of an English family who moved to Florida in 1981 in search of the American dream. John Freshwater, his wife Mo and their three young children gave up a privileged lifestyle in southern England to try their luck in Naples, Florida. But the

quest has been something of a nightmare, with amazing tales of financial disaster, cultural clashes and immigration hell. Despite the Freshwater's troubles, it is a moving and highly amusing account, which is written, in a fast, first person style by the father of the family. The story has an uplifting and poignant ending that goes some way to proving the pursuit of material pleasures is not necessarily the answer. This is more than a simple 'relocation' yarn and reflects the realities of a decent family trying to get on in this world.

Winner of The Restless Books Prize for New Immigrant Writing "Grace Talusan writes eloquently about the most unsayable things: the deep gravitational pull of family, the complexity of navigating identity as an immigrant, and the ways we move forward even as we carry our traumas with us. Equal parts compassion and confession, *The Body Papers* is a stunning work by a powerful new writer who—like the best memoirists—transcends the personal to

speak on a universal level.” —Celeste Ng, author of *Everything I Never Told You* and *Little Fires Everywhere* Born in the Philippines, young Grace Talusan moves with her family to a New England suburb in the 1970s. At school, she confronts racism as one of the few kids with a brown face. At home, the confusion is worse: her grandfather’s nightly visits to her room leave her hurt and terrified, and she learns to build a protective wall of silence that maps onto the larger silence practiced by her Catholic Filipino family. Talusan learns as a teenager that her family’s legal status in the country has always hung by a thread—for a time, they were “illegal.” Family, she’s told, must be put first. The abuse and trauma Talusan suffers as a child affects all her relationships, her mental health, and her relationship with her own body. Later, she learns that her family history is threaded with violence and abuse. And she discovers another devastating family thread: cancer. In her thirties, Talusan must decide whether to undergo preventive surgeries to remove her breasts and ovaries. Despite all this, she finds love, and success as a teacher. On a fellowship, Talusan and her husband

return to the Philippines, where she revisits her family’s ancestral home and tries to reclaim a lost piece of herself. Not every family legacy is destructive. From her parents, Talusan has learned to tell stories in order to continue. The generosity of spirit and literary acuity of this debut memoir are a testament to her determination and resilience. In excavating such abuse and trauma, and supplementing her story with government documents, medical records, and family photos, Talusan gives voice to unspeakable experience, and shines a light of hope into the darkness.

**Count d'Esterhazy and the Esterhaz-
Kaposvar Hungarian Colony in
Western Canada** Cambridge University
Press

Throughout the late 1800s, waves of
immigrants came over from Europe to
North America, their arrival serving a dual
purpose. On the one hand, the immigrants
were seeking a better life for themselves
and their families. On the other hand, the

Canadian federal, provincial, and territorial governments were seeking to populate their territory in a bid to maintain sovereignty over the land and to develop it for agriculture. Among these immigrants were the Hungarian and Western Slavic settlers who founded the Esterhaz Colony, which later became known as the Kaposvar and Kolin districts, in southeastern Saskatchewan. A key figure in the founding of this colony was the enigmatic Count Paul O. d'Esterhazy, a.k.a. Janos Baptiste Packh. As an immigration agent for the Canadian and American governments, he worked tirelessly not only to promote immigration to the Kaposvar and Kolin districts but also to improve the lives of the immigrants who settled there. Although d'Esterhazy was not without his detractors, this book takes pains to emphasize the sincerity of his vision of a "Little Hungary on the Canadian Prairies" and the many challenges that he and other proponents of the colony faced as they sought to see that vision fulfilled. Meticulously researched and documented, this book offers a treasure trove of insight into not only the Esterhaz colony and surrounding area but also the myriad and

often conflicting forces involved in the founding of Canada as a nation.

'A compelling tale... a narrative that makes such a brave effort to see history as it evolves and not as it becomes.' SPECTATOR Suffused with the tense atmosphere of the times, and with brilliant portraits of Hitler, Goebbels, Goering and Himmler amongst others, Erik Larson's new book sheds unique light on events as they unfold, resulting in an unforgettable, addictively readable work of narrative history. Berlin, 1933. William E. Dodd, a mild-mannered academic from Chicago, has to his own and everyone else's surprise, become America's first

ambassador to Hitler's Germany, in a year that proves to be a turning point in history. Dodd and his family, notably his vivacious daughter, Martha, observe at first-hand the many changes - some subtle, some disturbing, and some horrifically violent - that signal Hitler's consolidation of power. Dodd has little choice but to associate with key figures in the Nazi party, his increasingly concerned cables make little impact on an indifferent U.S. State Department, while Martha is drawn to the Nazis and their vision of a 'New Germany' and has a succession of affairs with senior party players, including first chief of the Gestapo, Rudolf Diels. But as the year darkens, Dodd and his daughter find their lives transformed and any last illusion they might have about Hitler are shattered by the violence of the 'Night of the Long Knives' in the summer of 1934 that established him as supreme dictator . . . Explanations of naturalization and jus soli citizenship have relied on cultural, convergence, racialization, or capture theories, and they tend to be strongly affected by the literature on immigration. This study of naturalization breaks with the usual immigration theories and proposes an approach over centuries and decades toward explaining naturalization rates. First, it provides consistent evidence to support the long-term existence of colonizer, settler, non-colonizer, and Nordic nationality regime types that frame naturalization over centuries. Second it shows how left and green parties, along with an index of nationality laws, explain the lion's share of variation in naturalization rates. The text makes these theoretical claims believable by using the most extensive data set to date on naturalization rates that include jus soli births. It analyzes this data with a combination of carefully designed case studies comparing two to four countries within and between regime types.

Fully revised and expanded, this stirring account reveals how the U.S. government permitted the illegal entry of Nazis into North America in the years following World War II. This extraordinary investigation exposes the secret section of the State Department that began, starting in 1948 and unbeknownst to Congress and the public until recently, to hire members of the puppet wartime government of Byelorussia—a region of the Soviet Union occupied by Nazi Germany. A former Justice Department investigator uncovered this stunning story in the files of several government agencies, and it is now available with a chapter previously banned from release by authorities and a foreword and afterword with recently declassified materials.

The Spycraft Merchant Volume Three documents his work as a government security contractor and private investigator. The first chapter documents 9/11 and where he was during that tragic

event. He also performed a in depth research on the hijackers and the many errors and gross government incompetence that allowed the tragic event to occur and is Appendix One at the end of the book. He markets bomb jammer and cellular intercept technology to the Colombian Government and the United Arab Emirates and supports new clients in Nigeria and Saudi Arabia. He encountered one of the last Nazis who had escaped to

Ecuador and founded the modern Ecuadorian National Police and established new connections in Poland, Russia and China. He is continually avoiding arrest and government stings and loses his private security credentials due to an error in judgment. You will be amazed as you learn how he maneuvers around these obstacles while maintaining his standing within the "security community."
