 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest

number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Presenting a rare glimpse into the dining rooms of Belgian nobility from the Middle Ages to modern times, specialists in the field discuss gastronomy and festive culture in a historical and sociological context. This stunning work provides insights into both the culinary proclivities and table manors of these epic gourmands, answering such questions as What was the daily menu of the dukes of Burgundy? What was behind the sudden enthusiasm for saltwater fish in the 17th century? and Why were exotic desserts so popular in the 19th century? A valuable addition to the historical

study of Belgian Noblemen and the ruling elite, this bilingual collection--presented in both English and French--creates a wonderfully rich portrait of the past, from the dukes of Burgundy to Belgian royalty.

This third volume in a much praised series on The French Revolution and the Creation of Modern Political Culture examines the way in which the Revolution has been portrayed in European thought and its impact upon the development of political philosophy in the nineteenth century. Opening with the influence of Burke and other contemporaries of the Revolution and the ensuing debate over the question "Why the Terror?," this volume explores such diverse themes as the legacy of the Revolution on the political and social evolution of Germany, England, Italy and Russia; the crisis it brought about in the Catholic Church; and the difficulties encountered in determining the end of the Revolution. By showing that the upheaval in European politics and

philosophy caused by the French Revolution continued to shape nations, peoples and thought, the texts brought together in this volume permit a better understanding of the event's extraordinary complexity.

Walter Benjamin's magnum opus was a book he did not live to write. In *The Dialectics of Seeing*, Susan Buck-Morss offers an inventive reconstruction of the *Passagen Werk*, or *Arcades Project*, as it might have taken form. Working with Benjamin's vast files of citations and commentary which contain a myriad of historical details from the dawn of consumer culture, Buck-Morss makes visible the conceptual structure that gives these fragments philosophical coherence. She uses images throughout the book to demonstrate that Benjamin took the debris of mass culture seriously as the source of philosophical truth. The Paris Arcades that so fascinated Benjamin (as they did the Surrealists whose "materialist metaphysics" he admired) were the prototype, the 19th century "ur-form" of the modern shopping mall. Benjamin's dialectics of seeing demonstrate how to read these

consumer dream houses and so many other material objects of the time—from air balloons to women's fashions, from Baudelaire's poetry to Grandville's cartoons—as anticipations of social utopia and, simultaneously, as clues for a radical political critique. Buck-Morss plots Benjamin's intellectual orientation on axes running east and west, north and south—Moscow Paris, Berlin-Naples—and shows how such thinking in coordinates can explain his understanding of "dialectics at a standstill." She argues for the continuing relevance of Benjamin's insights but then allows a set of "afterimages" to have the last word.
