Identification of Bottlenecks in Judicial Procedures SBPD Publications

This work ushers in a change in the approach of books on hospital administration. To make the text interesting authors have used the case based learning approach. Apart from this many new topics have been introduced in this book which had not been addressed so far in the available books. For example:- due importance has been given to the role of engineering department in ensuring provision of good quality of medical care by the hospitals. New concepts in hospital administration like information therapy, use of information and communication technology, health promoting hospital approach, impact of globalization on hospital care etc. have also introduced through this book. USP of the book is giving due importance to the feedback from experienced hospital administrators across public and private hospitals of country. This book will surely be of use

to medical superintendents and hospital administrators in government and private hospitals in India and other countries. Students as well as teachers of various courses namely, regular and distant learning courses of MBA in Health Care/Hospital Administration, Diploma of masters in Hospital Administrator, MD in hospital administrator , MD in community medicine, Diploma/masters in laws, master's in public health will also find this book of immense value. This book will also be helpful for civil surgeons and senior medical officers of state health services. The book comprehensively consolidates a lot of practical aspects by incorporating plenty of illustrations, photographs, case studies, real life situations etc. which will help the readers to get a realistic practical experience. Salient Features - New concepts in hospital administration like use of information and communication technology, health promoting hospital approach, impact of globalization on hospital care, role of engineering department and information therapy, etc.

have been introduced - Case Studies presented in the chapters are useful for case based learning approach - Comprehensively consolidates a lot of practical aspects by incorporating plenty of Flowcharts, Figures and Tables help the readers to get a realistic practical experience
CSR and Competitiveness—Essential of the Corporate India and its Sustainability
 Excel Books India
 Given that the economic development, accelerated by the expanding base of higher education may lead to the reduction of other kinds of disparities—social, regional, political—its contribution in stabilizing our civil society at this juncture of volatility cannot be underestimated which in turn may help the process of speedy national development further. The book raises all such issues. The insight of 'university administration and systems in India' is considered the most common issue for all the stakeholders engaged in higher education especially at post-graduate level and the readers have to wonder for authentic source of

literature to understand the same. This predicament of interested readers particularly requires instantaneous efforts on the part of academe. The present book is an endeavour to put a match to the expectations of those readers particularly teachers, students and policymakers who are peripatetic for evocative lone text on the subject matters. The book includes thirty-three chapters. The basic concepts have been elucidated with suitable illustrations for covering the underlying spirit on the subject. All the chapters have been deliberated by the scholars into an uninterrupted sequence and all conceptual details provided in this text are in self-instructional mode. It is expected that the readers would find this book quite valuable and receptive.

Springer Nature
Sustainable development approaches cannot be met unless waste management is addressed as a priority. Waste Recovery and Management: An Approach Toward

Sustainable Development Goals presents a comprehensive examination of environmental pollution and health hazards caused by differing types of waste, its recycling and other e-waste management strategies, and potential political and legal interventions. It also presents the available carbon-recycling methods and investigates how these might be applied to reinforce waste management in industrialized countries as well as developing and emerging economies. Each chapter includes valuable data and case studies that serve as practical guidance for academicians, researchers, and stakeholders for quantifying the impacts of waste, and for planning integrated solid waste collection and treatment systems, thereby working toward sustainability at a global level. Features: Covers both traditional and new technologies for identifying and categorizing the sources and nature of various types of waste Provides methods for the safe disposal of municipal solid wastes, plastic waste, bio-medical wastes, hazardous wastes, and e-

wastes Explains practical measures to cover the broad spectrum of everyday applications of waste management for environmental sustainability Contains a focused discussion of the current scenario and future research directions for different types of waste in each chapter
Organizational Skills Development (Part - I)
Edward Elgar Publishing
Drawing on research from global multinational corporations comes a two-part guide on how to develop resilient HR initiatives to build inclusive and accessible workplaces. Including a user-friendly training manual, this book equips you with a practical resource grounded in theory.

Marketing Research is designed to serve as a textbook on marketing research and design for people studying or pursuing the discipline of management. The book contains Indian examples on Product Research, Consumer Research, Motivation Research, etc. It also includes more than 50 cases which would enable the reader in understanding even the

most complex multivariate technique in a very simple manner. The book contains 20 chapters with computer based approach, the SPSS/PCT system, the use of which has also been described in this book. The content of the book makes it equally useful for both basic and advance course in Marketing Research. It is indispensable for students of MBA, M.Com, MBE, BBA, BBS, BCA, PGDBM, MCA, M Tech and practising marketing managers. It is a valuable reference source for research agencies.

Perspectives on Business management - Volume II Sultan Chand & Sons International Conference of Political Economy (ICOPEC), takes as a goal to identify and analyze the status of its age, held its first conference with the theme "International Political Economy: Adam Smith Today " in 2009. Following the ICOPEC conference, JOPEC Publication started to be published in 2010 . JOPEC Publication aims at searching required alternatives, in addition to existing alternatives, with a critical approach, has been the main supporter of ICOPEC conference by including the studies in this context. In 2016, ICOPEC conferences were turned into a conference series with its 7th conference and the main theme of the 7th conference was determined as "State, Economic Policy, Taxation and Development". JOPEC Publication has undertaken to publish the papers, presented at this conference in English and Turkish, as an e-book. It is reasonable to accept that there is no simple answer to achieving development. Today,

almost all approaches to development recognize that fighting poverty and unemployment, increasing social and human capital, establishing institutional state capacity and social-political stability and even creating a developmental culture are important factors to enhance economic performance of the nations. This book presents some case studies on macroeconomic issues such as unemployment, tax structure and R&D activities/supports, on socio-economic dimensions such as gender problems in economic activities, and industrial relations and on consuming behaviors. *Handbook of Marketing Strategy* Archers & Elevators Publishing House
This book covers the emerging and important topics related to production and operations management in a systematic way. It covers not only the essentials of planning, designing, managing and controlling of manufacturing operations, but also a number of relevant topics such as total preventive maintenance, environmental issues in production system,

advanced production system, total productivity management and work system design, which are not covered in many books. The book is a useful resource for undergraduate and postgraduate students of MBA programmes, as well as B.Tech and M.Tech programmes of production and industrial engineering. Key Features

- Theories and concepts based on day-to-day practical applications in the industry
- Large number of solved examples to explain the theoretical concepts
- Case study at the end of each chapter to illustrate the theory
- Brings out the link between linear programming and its applications

Auditing and Corporate Governance Edward Elgar Publishing

Social media has emerged as a powerful tool that reaches a wide audience with minimum time and effort. It has a diverse role in society and human life and can boost the visibility of information that allows citizens the ability to play a vital role in creating and fostering social change. This practice can have both positive and negative consequences on society. Examining the Roles of IT and Social Media in Democratic Development and Social Change is a collection of innovative research on the methods and applications of social media within community development and democracy. While highlighting topics including information capitalism, ethical issues, and e-governance, this book is ideally designed for social workers, politicians, public administrators, sociologists, journalists, policymakers, government administrators, academicians, researchers, and students seeking current research on social advancement

and change through social media and technology.

Software Project Management CRC Press

Coronavirus disease 2019 (COVID-19) has emerged as a global health threat. Unfortunately, there are very limited approved therapeutics available with established efficacy and safety profiles against SARS-CoV-2. COVID-19 vaccines aim to actively induce systemic immunization; however, the possibility or fear of side effects decreases or discourages their use. Alternative therapy via natural products, especially essential oils, could be considered safe and effective to improve health, cure ailments, and soothe your body and mind. Essential oils, which have been known for their anti-inflammatory, immunomodulatory, bronchodilatory, and antiviral properties, could possibly be useful for the symptomatic management of COVID-19. This book is vital in respect of designing approaches to protect humanity from further losses and harm due to SARS-CoV-2 infection. Role of Essential Oils in the Management of COVID-19 offers a complete outline of the recent novel coronavirus

(SARS-CoV-2) infection, its biology, and associated challenges for the prevention and treatment of novel COVID-19, with a prime focus on the possible role of essential oils in the prevention and treatment of COVID-19. This book is written for everyone who needs to be thoroughly familiar with the appropriate and safe use of essential oils in COVID-19 therapy. As per the objectives of the book: The first seven chapters cover various aspects of COVID-19 infection, including epidemiology, origin, morphology, genome organization, pathogenesis, clinical manifestations, diagnostic approaches, preventive measures, and treatment strategies. The remaining chapters elaborate on the various aspects related to essential oils, such as chemistry, extraction methods, dispensing methods, stability, quality control, mechanism of action, therapeutic effects, pharmacokinetics, aromatherapy, and safety profiles. Prof. Ahmed Al-Harrasi is Vice Chancellor for Graduate Studies, Research and External Relations, Natural and Medical Sciences Research Center, and Professor of Organic

Chemistry, University of Nizwa, Oman. Prof. Ahmed received his M.Sc. degree in Chemistry followed by his Ph.D. in Organic Chemistry from the University of Berlin. He then pursued his postdoctoral research at Cornell University. Afterward, he continued his research rigor at the University of Nizwa, where he founded the Natural and Medical Sciences Research Center, which has now become a center of excellence in natural and medical sciences. While enduring his research aptitude, he has authored and co-authored more than 400 scientific papers, 2 books, and 12 book chapters of high repute. Dr. Saurabh Bhatia graduated from Kurukshetra University, followed by postgraduation from Bharati Vidyapeeth University. He received his Ph.D in Pharmaceutical Technology at Jadavpur University. He now works as an Associate Professor at Natural and Medical Sciences Research Center, University of Nizwa, Oman. He has 12 years of academic experience; has authored 75 articles and 9 books of repute; and filed 11 patents.

Assisted reproduction refers to a number of advanced techniques that aid fertilization in a couple diagnosed to have reduced fertility such as in women who have irreversible damage to their fallopian tubes or cervical mucous problems. These techniques can also benefit couples with unexplained infertility. Before 1978, infertility diagnosis and treatment revolved around surgical interventions such as fallopian tube(s) repair or inserting sperms into the uterus. Thus, the management was

applicable and aimed at removing the mechanical blockage that prevented the fertilization of egg. Then came Louise Brown and Dr. Patrick Steptoe, a couple who were destined to be associated forever in the infertility history books forever. This is because in 1978, Dr. Steptoe made it possible for Louise to conceive in a laboratory in England with IVF. From this turning point in the science of infertility, came techniques that addressed the biochemical and hormonal aspects of infertility thus marking the beginning of a whole new subspecialty called Reproductive Endocrinology. With Dr. Steptoe's technique, called IVF (In Vitro Fertilization), couples who otherwise had no problems that could be surgically treated now had another option. With the inclusion of Information technology in all aspects of our life, the explosion of Assisted Reproduction Technologies (ART) has resulted in further sophistication of additional techniques, now responsible for the existence of over 20,000 human beings a year that would never have existed. ART deals with all aspects of the science of

conception, be it investigating the couple, or determining their ovarian reserve to application of the most appropriate technique to aid conception in that couple.

The business landscape is changing fast with the rapid globalization. Society expectations from corporate are increasing and CSR is being perceived as a tool to help secure a sustainable competitive advantage by integrating social and business goals. This book provides an overview and represents current developments in Corporate Social Responsibility and Sustainability, CSR concepts, initiatives, infrastructures and needs, methods, especially focusing on the needs of SMEs. In this book through contributions and chapters we explore the concept of competitiveness in relation to CSR. Research articles and chapters from the practitioners, consultants and

academicians would enlighten the readers as to how competitive advantage can be generated through creating stakeholder engagement through the CSR initiatives. Some real world Case Studies are included elaborating the contribution of CSR to short term profits as well as to long term competitiveness. These Case Studies from Indian Corporate and abroad, well represent the challenges and opportunities for the businesses to implement the CSR initiatives, resulting in community development. Thus, the contributions in this book represent a triangle between the Corporate, Academics and Research; used to implement the CSR Activities in the Indian and Global context. This book is being published as a reference material for all the stakeholders of today's business who have some interest in the area of CSR & Sustainability. It would provide a real world scenario for further exploration of Social Upliftment opportunities and the competitive advantages to the corporate.
