HUDSON NICHOLSON

Forgotten Armies Knox Press

With a profusion of anecdotes conveying the character of India under British rule. Farwell offers a panoramic survey of the Indian army during the 90 years between the Sepoy Revolt and the births of independent India and Pakistan ...

Charlie One Routledge

After the death of Gustavus Adolphus, his chancellor Axel Oxenstierna assumed overall command and led the Swedish army to victory in the Thirty Years War.

Peter the Great's Army (1) Oxford University Press

The Great Northern War was a long series of campaigns in which Russia, linked with

several other countries in temporary alliances, confronted and eventually replaced Sweden as the predominant power in Northern Europe. While contemporary with the Duke of Marlborough's pivotal campaigns against France, the Great Northern War was in fact more decisive, since it reshaped the Northern European power balance up to the eve of the Napoleonic Wars. It began with a series of astonishing Swedish victories led by King Charles XII, from Denmark to Poland and deep into Germany. But Peter the Great of Russia showed steadfast determination, and Charles overreached himself when he invaded Russia in 1708; the Russians adopted classic 'scorched earth' tactics until they could destroy the Swedish army at Poltava in 1709, one of the most overwhelming victories in history.

Nevertheless, Sweden continued to fight, and frequently win, in Germany, Denmark and Norway, until Charles's death in battle in 1718, though the war itself did not conclude until 1721. This study explores, in detail, the numerous armies and complex alliances engaged in the war for Northern European dominance. Containing accurate full-colour artwork and unrivalled detail, *Armies of the Great Northern War* offers a vivid insight into the troops which battled for control of the North.

Armies of the War of the Grand Alliance 1688-97 University of Hawaii Press

This is the first such study of Operation Banner, the British Army's campaign in Northern Ireland. Drawing upon extensive interviews with former soldiers, primary archival sources including unpublished diaries and unit log-books, this book

closely examines soldiers' behaviour at the small infantry-unit level (Battalion downwards), including the leadership, cohesion and training that sustained, restrained and occasionally misdirected soldiers during the most violent period of the Troubles in Northern Ireland. It contends that there are aspects of wider scholarly literatures - including from sociology, anthropology, criminology, and psychology - that can throw new light on our understanding of the British Army in Northern Ireland. It also offers fresh insights and analysis of incidents involving the British Army during the early years of Operation Banner, including the 1972 'Pitchfork murders' of Michael Naan and Andrew Murray in County Fermanagh, and that of Warrenpoint hotel owner Edmund Woolsey in South Armagh. The central argument of this book is that British Army small infantry units enjoyed considerable autonomy during the early years of Operation Banner and could behave in a vengeful, highly aggressive or benign and conciliatory way as their local commanders saw fit. The strain of civil-military relations at a senior level was replicated operationally as soldiers came to resent the limitations of waging war in the UK. The unwillingness of the Army's senior leadership to thoroughly investigate and punish serious transgressions of standard operating procedures in Northern Ireland created uncertainty among soldiers over expected behaviour and desired outcomes. Overly aggressive groups of soldiers could also be mistaken for high-functioning units - with negative consequences for the Army's overall strategy in Northern Ireland.

A Long Long War Bloomsbury Publishing
By Defeating My Enemies looks at the life and reign of Charles XII of Sweden and provides context and reassessment of his military career in the Great Northern War.
Big Wars and Small Wars Century of the Soldier

In this sophisticated quantitative study, Joseph T. Glatthaar provides a comprehensive narrative and statistical analysis of many key aspects of General Robert E. Lee's Army of Northern Virginia. Serving as a companion to Glatthaar's *General Lee's Army*

The Great Northern War Bloomsbury Publishing

A detailed look at the Russian army during the Great Northern War utilising material previously unseen in the West.

Soldiering in the Army of Northern Virginia Harvard Ukrainian Research Institute

This book provides an accessible study of the neglected but highly important series of wars fought for control of the Baltic and

Northeastern Europe during the period 1558-1721. It is the first comprehensive history which considers the revolution in military strategy which took place in the battlefields of Eastern Europe. Robert Frost examines the impact of war on the very different social and political systems of Sweden, Denmark, Poland-Lithuania and Russia and he explains why it was Russia that emerged victorious from these wars. Based on extensive primary and secondary research (including much material that is unfamiliar in English) this book makes an important contribution to the debate on military change and political development in early modern Europe.
By Defeating My Enemies Sand Hill Publishing

The never-before-told story of one of the worst rail disasters in U.S. history in which two trains full of people, trapped high in the Cascade Mountains, are hit by a devastating avalanche. In February 1910, a monstrous blizzard centered on Washington State hit the Northwest, breaking records. The world stopped—but nowhere was the danger more terrifying than near a tiny town called Wellington, perched high in the Cascade Mountains, where a desperate situation evolved minute by minute: two trainloads of cold, hungry passengers and their crews found themselves marooned without escape, their railcars gradually being buried in the rising drifts. For days, an army of the Great Northern Railroad's most dedicated men—led by the line's legendarily courageous superintendent, James O'Neill—worked round-the-clock to rescue the trains. But the storm was unrelenting, and to the passenger's great anxiety, the railcars—their only shelter—were parked precariously on the edge of a steep ravine. As the days passed, food and coal supplies dwindled. Panic and rage set in as snow accumulated deeper and deeper on the cliffs overhanging the trains. Finally, just when escape seemed possible, the unthinkable occurred: the earth shifted and a colossal avalanche tumbled from the high pinnacles, sweeping the trains and their sleeping passengers over the steep slope and down the mountainside. Centered on the astonishing spectacle of our nation's deadliest avalanche, Gary Krist's *The White Cascade* is the masterfully told story of a supremely dramatic and never-before-documented American tragedy. An adventure saga filled with colorful and engaging history, this is epic narrative storytelling at its finest.

Army Group South Arms & Armour Press
"Throughout the story, the author describes the tactics, methods and

equipment evolved by the Army to meet the ever-changing challenge of the IRA, their sympathizers and their opponents -- from howling mobs and decoy children to car bombs and mobile mortars. Accounts of specific incidents as experienced by some of the regiments that have served 'tours' in the province, including the Paras, the Green Jackets, the Royal Artillery and the Royal Marines, convey vividly the feel of being out on patrol in Belfast and Londonderry"--Jacket.

The Northern Expedition Grub Street Publishers

Richard McMurry compares the two largest Confederate armies, assessing why Lee's Army of Northern Virginia was more successful than the Army of Tennessee. His bold conclusion is that Lee's army was a better army--not just one with a better high command.

The White Cascade Century of the Soldier

A special collection of articles by international authors on the Great Northern War.

Armies of the Great Northern War 1700-1720 Century of the Soldier

Seán Hartnett grew up in Cork in the 1970s where he observed the worst of the northern Troubles with fascination. Despite his family's strong republican ties and his own attempt to join the IRA, Hartnett shocked family and friends when he changed allegiance and joined the British Armed Forces. In 2001 Hartnett returns to his native Ireland, but this time as a member of the British Army's most secretive covert counter-terrorist unit in Northern Ireland, Joint Communications Unit Northern Ireland aka JCU-NI, the FRU, 14 Intelligence Company, or simply The Det. For the next three years Hartnett is directly involved in some of the highest profile events of that period, from the arrest of John Hannan for the bombing of the BBC in London, to the tragic murder of David Caldwell; the prevention of the murder of Johnny 'Mad Dog' Adair and some of the biggest blunders by British Intelligence in the history of the Troubles, including the true story behind the murders of Corporals Howes and Wood at an IRA funeral in 1988. Charlie One, the call sign for the most wanted targets of British Intelligence operations in NI, documents the journey of an Irish Republican serving in Britain's most secretive counter-terrorism unit. Filled with roller coaster emotions and explosive revelations of British Intelligence covert capabilities and operations, Charlie One provides a truly unique, detailed and unbiased account of the secret war fought on the streets of Northern Ireland.

The Great Northern War Merrion Press

The book details the rise and fall of the Army of Hindustan. Containing detailed organizational tables and pay scales. Campaign and battles narratives. Details of the European soldiers of fortune who raised and led these 'Trained Brigades' in the service of the House of Scindia and the Maratha Confederacy.

Poltava 1709 Rowman & Littlefield

The author of *Bloody Belfast* delivers "a vivid and unforgettable record" of the Northern Irish conflict that captures the "true horrors of war" (Best of British). There are stories from some of the most seminal moments during the troubles in Northern Ireland—the Crossmaglen firefights, the 1988 corporals killings, the Ballygawley bus bombing, and more—told from the perspective of the British soldiers who served there between 1969 and 1998. This was a war against terrorists who knew no mercy or compassion; a war involving sectarian hatred and violent death. Over 1,000 British lives were lost in a place just thirty minutes flying time away from the mainland. The British Army was sent into Northern Ireland on August 14, 1969, by the Wilson government as law and order had broken down and the population (mainly Catholics) and property were at grave risk. Between then and 1998, some 300,000 British troops served in Northern Ireland. This is their story—in their own words—from first to last. Receiving a remarkable amount of cooperation from Northern Ireland veterans eager to tell their story, the author has compiled a vivid and unforgettable record. Their experiences—sad and poignant, fearful and violent, courageous in the face of adversity, even downright hilarious—make for compelling reading. Their voices need

to be heard. "One of the first and only books to offer the perspective of regular British soldiers serving in the Northern Irish conflict . . . a valuable addition to the extensive literature about the Irish Troubles." —Choice

The British Army in Northern Ireland

Century of the Soldier

War is Hell, especially when you're surrounded by enemies. With the king of Garenland dead and the people eager for revenge, Otto and Wolfric turn their sights north, to Garenland's ancient enemy, Straken. The Northern Army marches into enemy territory while back in the capital Otto rushes to train as many war wizards as he can. Outside forces refuse to leave them alone and Otto is forced to deal with an ever-growing array of foes, unreliable allies, and an enemy that will do anything to see Garenland fall. Can Otto overcome threats both internal and external to bring the war to a victorious close?

Two Great Rebel Armies UNC Press Books

Armies of Arabia is the first book to comprehensively analyze the armed forces of the Gulf monarchies. Zoltan Barany explains the conspicuous ineffectiveness of Gulf militaries with a combination of political-structural and sociocultural factors. Following a brief exposition on their historical evolution, he explores the region's six armies of the region comparatively, through the lenses of military politics, sociology, economics, and diplomacy. The book's themes come together in the last chapter that critically evaluates the Saudi and Emirati armed forces' record in the on-going war in Yemen.

Charles XI's War Century of the Soldier
In *Armies of Deliverance*, Elizabeth Varon

offers both a sweeping narrative of the Civil War and a bold new interpretation of Union and Confederate war aims.

Britannia AD 43 Harvard University Press

This is a fascinating new insight into the British army and its evolution through both large and small scale conflicts. To prepare for future wars, armies derive lessons from past wars. However, some armies are defeated because they learnt the wrong lessons, fighting new conflicts in ways appropriate to the last. For the British Army in the twentieth century, the challenge has been particularly great. It has never had the luxury of emerging from one major European war with the time to prepare itself for the next. The leading military historians show how ongoing commitments to a range of 'small wars' have always been part of the Army's experience. After 1902 and after 1918 they included colonial campaigns, but they also developed into what we would now call counter-insurgency operations, and these became the norm between 1945 and 1969. During the height of the Cold War, in 1982, the Army was deployed to the Falklands. Since 1990 the dominant tasks of the Army have been peace support operations. This is an excellent resource for all students and scholars of military history, politics and international relations and British history.

Peter the Great's Revenge Routledge

Volume 1 of the Sun King's wars and armies goes from his early and turbulent years, from the resounding victory over Spain at Rocroi in 1643, the unstable years of the Fronde civil wars, his seizure of absolute power in 1661, his immediate control of national finances and armed forces, his measures to create the most effective army in Europe, the i
