FOREVER FIX your body David's self-care programme is the third part of the plan and will help you treat muscle soreness, neck pain or backache and keep you on track for life. Beauty is Wellness. Wellness is Beauty. Kerrilynn Pamer and Cindy DiPrima Morisse, founders of CAP Beauty, the all-natural beauty site and store, want to share their deep knowledge of the benefits of natural beauty, foods, and mindfulness techniques

with you. Natural beauty is about making choices that create true radiance from the foods we eat to the way we move to how we care for ourselves and our planet. You've already purified your meals, workouts, and bodies by returning to clean naturals. Now it's time to align your beauty routine with the other wellness practices you follow. What we put on our skin is easily as important as what we put in our mouths. But natural beauty is about much more than just products. Through routines, recipes, and rituals, High Vibrational Beauty addresses beauty from the inside out and vibrancy from the outside in. Divided into seasons and focused on self-care and rejuvenation, High Vibrational Beauty combines mantras, meditations, natural skin care regimens, and more than 100 plant-based recipes to help you achieve radical radiance. This is the only guidebook you need to create true and lasting beauty for the mind, body, and soul. **Ballet Beautiful** Simon and Schuster Futureproof your body and relieve chronic pain resulting from sitting, slouching, and other bad lifestyle habits with this easy-to-perform set of daily stretching and exercise routines—from an innovative physical therapist and social media star who coaches dozens of celebrity clients. What if we could easily acquire long-lasting protection for our bodies and escape the chronic pain caused by our sit-all-the-time, slouch-too-much lifestyles? Vinh Pham is a world-class physical therapist—a member of a new breed that dissects how people really move. He has worked with a broad range of clients, from Olympians to NBA stars to MMA fighters to Golden Globe and Grammy Award-winning artists. Early in his career, he discovered a disappointing truth: most of his patients came to him already in pain. They had poor, deeply ingrained lifestyle habits that misaligned their joints and tightened their muscles. And the recent epidemic of prolonged sitting—which represents an all-day assault on the body— has only made things worse. If you're sitting for more than thirty minutes at a time without getting up, you may be heading toward a world of hurt. Vinh's answer to the host of muscle maladies that ails us has been a revolutionary concept: why not futureproof? Instead of reacting to chronic pain after it flares up, what if we focused on a "movement discipline" that not only prevents injuries but leads to longer lives, healthier bodies, and a clearer mind? Sit Up Straight outlines a process that starts with a daily posture hygiene regimen. Performed correctly, Vinh's "Big Ten" exercises, which can be completed in twenty minutes, will lock in protection for the rest of the day. But Vinh goes further. He provides stretching and exercise routines for many of the specific ailments that affect us—from hamstring pulls to sciatica to rotator cuff problems—and, best of all, he offers a series of customized movements based on age, gender, and the kind of work we perform. A precise and simple toolkit for tweaking the way we

move (or refuse to move), *Sit Up Straight* shows that the solution to becoming pain-free is easier than we think.

Losing weight and successfully maintaining it over the long term is not as much about what you put in your stomach; it's more about what's happening in the brain. In *Brain-Powered Weight Loss*, psychotherapist and weight management expert Eliza Kingsford shows that more than 90 percent of people who go on diet programs (even healthy ones) fail or eventually regain because they have a dysfunctional relationship with food. Changing this relationship by changing the way you think about and behave around food is what it takes to permanently achieve weight-loss success. Kingsford's 11-step first-of-its-kind program enlists dozens of mind-altering and behavior-changing exercises and techniques that shows you how to: • Identify and reverse the conscious and unconscious thinking errors and food triggers that lead to the behaviors that drive our food decisions. • Let go of the mindset of going on or off a diet in favor of a conscious quest to pursue a lifestyle of healthy eating and everyday activity—one that can last forever. • Successfully use what Kingsford calls "dealing skills" to outsmart high-risk situations, tame stressful times, and prevent an eating "slip" from leading to a setback or all-out binge. • Find out if you have what emerging research shows is an addiction to certain high-fat and sugar-added, processed foods that can be as powerful as addiction to cigarettes and narcotics. • Design a personal healthy eating program built on Kingsford's 10 Principles of Healthy Eating.

We are not being given the truth about our health . . . We're told to avoid saturated fats, we're marketed health food that is laden with sugar and we're encouraged to pound out miles at the gym. However, our chances of getting obese are increasing - raising our risk of Type-2 diabetes, cancer, dementia and heart disease. Yet in the tiny Italian village of Pioppi, life is as simple as it is long and healthy. There is no gym, no supermarket, the food is delicious and they enjoy a glass of wine every evening. Now cardiologist Dr Aseem Malhotra - a world-leading obesity expert and Britain's number one anti-sugar campaigner - and acclaimed filmmaker Donal O'Neill combine the wisdom of this remarkably long lived population with decades of nutrition and medical research to cut through long-standing dietary myths and create this easy-to-follow lifestyle plan. Indulge in delicious food for a happier, healthier and longer life . . . A creamy crab and ricotta omelette with sliced avocado · Grilled halloumi and kale salad with tahini yoghurt dressing · Steak burger with mature cheddar, tomato and avocado · Cauliflower steaks and crumbled feta, za'atar and chilli · A one-dish roasted aubergine with feta, herbs and yoghurt dressing

This isn't a diet or lifestyle, which requires saying 'no' to the things you love, or exercising for hours upon end. In just three weeks, The Pioppi Diet will help you make simple, achievable and long-lasting changes to how you eat, sleep and move - changes that all of us, no matter how busy we are, can make. Finally, the solution to the #1 reason we don't exercise: time. Everyone has one minute. A decade ago, Martin Gibala was a young researcher in the field of exercise physiology—with little time to exercise. That critical point in his career launched a passion for high-intensity interval training (HIIT), allowing him to stay in shape with just a few minutes of hard effort. It also prompted Gibala to conduct experiments that helped launch the exploding science of ultralow-volume exercise. Now that he's the worldwide guru of the science of time-efficient workouts, Gibala's first book answers the ultimate question: How low can you go? Gibala's fascinating quest for the answer makes exercise experts of us all. His work demonstrates that very short, intense bursts of exercise may be the most potent form of workout available. Gibala busts myths ("it's only for really fit people"), explains astonishing science ("intensity trumps duration"), lays out time-

saving life hacks (“exercise snacking”), and describes the fascinating health-promoting value of HIIT (for preventing and reversing disease). Gibala’s latest study found that sedentary people derived the fitness benefits of 150 minutes of traditional endurance training with an interval protocol that involved 80 percent less time and just three minutes of hard exercise per week. Including the eight best basic interval workouts as well as four microworkouts customized for individual needs and preferences (you may not quite want to go all out every time), *The One-Minute Workout* solves the number-one reason we don’t exercise: lack of time. Because everyone has one minute. *The One-Minute Workout Harmony*
