In this debut novella, Daniel Mengara captures the incredible story of a Gabonese mother who resists the unjust pressures of her village. At its core, Mema is an unforgettable tale about resilience and a culture in transition. Told through the eyes of her son, Mema's story is an unforgettable one. A powerful woman in her village, her sharp tongue and stubborn principles frequently provoke outrage. So when the unthinkable happens and her husband turns violent, her neighbours choose to blame her. Matters take a turn for the worse when her husband is unexpectedly found dead - and Mema is the main suspect. It quickly becomes clear that she must fight to be believed or she risks losing custody over her children for good. In this profound and touching tale, Daniel Mengara brings to life the changing customs and beliefs of a rural Gabonese village, interweaving prose with traditional oral storytelling.

École coranique, collège, séminaire, pensionnat, cité universitaire avant la lettre ... : en arabe, le terme de "madrasa" recouvre quantité d'acceptions. Du Proche-Orient au Maghreb, l'ouvrage étudie l'évolution de l'architecture des principales madrasas (historique, éléments architectoniques, études des plans et masses, analyses des formes décoratives, rapports avec la maison particulière), et

renouvelle les hypothèses sur la signification des madrasas cruciformes à quatre iwans = Koranic school, college, seminary, boarding school, campus before the letter ... : in Arabic, the term "madrassa" covers many of these meanings. From Middle East to North Africa, the book examines the evolution of the architecture of main madrasas (historical, architectural elements, study plans and bodies, analysis of decorative forms, reports with the special house); it also renews the assumptions on the significance of cross-shaped madrasas at four iwans.

This is Mises's classic statement in defense of a free society, one of the last statements of the old liberal school and a text from which we can continue to learn. It has been the conscience of a global movement for liberty for 80 years. This edition, from the Mises Institute, features a new foreword by Thomas Woods. It first appeared in 1927, as a followup to both his devastating 1922 book showing that socialism would fail, and his 1926 book on interventionism. It was written to address the burning question: if not socialism, and if not fascism or interventionism, what form of social arrangements are most conducive to human flourishing? Mises's answer is summed up in the title, by which he meant classical liberalism. Mises did more than restate classical doctrine. He gave a thoroughly modern defense of freedom, one that corrected the errors of the old liberal school by rooting the idea of liberty in the institution of private property (a subject on which the classical school was sometimes unclear). Here is the grand contribution of this volume. "The program of liberalism, therefore, if condensed into a single word, would have to read: property, that is, private ownership of the means of production... All the other demands of liberalism result from this fundamental demand." But there are other insights too. He shows that political decentralization and secession are the best means to peace and political liberty. As for religion, he recommends the complete separation of church and state. On immigration, he favors the freedom of movement. On culture, he praised the political virtue of tolerance. On education: state involvement must end, and completely. He deals frankly with the nationalities problem, and provides a stirring defense of rationalism as the essential foundation of liberal political order. He discusses political strategy, and the relationship of liberalism to special-interest politics. In some ways, this is the most political of Mises's treatises, and also one of the most inspiring books ever written on the idea of liberty. It remains the book that can set the world on fire for freedom, which is probably why it has been translated into more than a dozen languages.

Laski [1893-1950] intended this work to be a sequel to *Studies in the Problem of Sovereignty* (1917). He argues that sovereignty is best understood as a type of authority, and he supports his case with examples drawn principally from modern French history. After tracing the origins of his subject, Laski considers the significance of Bonald, Lamennais, Royer-Collard and the Syndicalist movement.

In the early 1970s, Susan Restino and her husband moved to a remote farm in Nova Scotia with their two small children. Already familiar with European cooking techniques from her time spent as a au pair in France, she spent the next few decades learning to cook for her family with what the farm provided. Mrs. Restino's Country Kitchen combines those two chapters in her life, with recipes from around the world and right next door. Both traditional and experimental, the meals here include chicken with chanterelles, rice dry-roasted instead of fried, salads and stir-fries with seasonal ingredients, and desserts that are good endings to meals, not meals in themselves. There are also sections on making wine and brewing beer, bread- and cheese-making, drying herbs, and operating a wood burning stove.
