**The Discovery of Freedom** Princeton University Press  
 DIVTranslated into English for the first time, this work portrays a different side of Hegel -- not just as a philosopher preoccupied with abstract ideas but a man deeply enmeshed and active in the pressing, concrete political issues of his time./div  
**The Burden of Brown** Encounter Books  
 Religion has always been a focal element in the long and tortured history of American ideas about race. In *The Burden of Black Religion*, Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century. This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives. In the process, Evans offers an intellectual and cultural history of race in a crucial period of American history.  
**Too Great a Burden to Bear** Baker Books  
 Examines the results of the Supreme Court's 1954 decision on

desegregation on the five school districts that participated in the *Brown v. Board of Education* case, and argues that the Court erred in moving beyond a policy of desegregation to one of integration.

**Wicked Messenger** Indiana University Press  
 From the Author of *WOMEN, RACE AND CLASS*, this is a timely provocation that examines the concept of attaining freedom in light of our current world conflicts. In these newly collected essays, interviews and speeches, world-renowned activist and scholar Angela Y. Davis illuminates the connections between struggles against state violence and oppression throughout history and around the world. Reflecting on the importance of black feminism, intersectionality and prison abolitionism for today's struggles, Davis discusses the legacies of previous liberation struggles, from the Black Freedom Movement to the South African anti-Apartheid movement. She highlights connections and analyses today's struggles against state terror, from Ferguson to Palestine. Facing a world of outrageous injustice, Davis challenges us to imagine and build the movement for human liberation. And in doing so, she reminds us that 'Freedom is a constant struggle.'

**Burden Of Freedom** Copper Canyon Press

From Estonia to Macedonia, this book is a history of 15 countries as they negotiate their transition from communism. For some, the story ends happily, with triumphant entry into the European Union in 2004. Others are caught in limbo, destroyed by nationalist politics, war and genocide, or crippled by corrupt political practices. *The Burdens of Freedom* considers the effects of revolutionary change, the resurgence of nationalism and the painful examination of the past. It looks at the process of building stable democratic states, and their integration with international structures. Most of the countries have established admission to the EU as a national objective; but many of them have also been active participants in the American-led occupation of Iraq. Domestically, each has seen a divide emerge between winners and losers. All are moving forward simultaneously to democracy, unity and prosperity, but also to national division and economic disparity.

**Cradle of Freedom** Greenleaf Book Group

"Delves into the life and work of Juan Francisco Manzano, the enslaved Cuban poet and author of Spanish America's only known slave narrative . . . Valuable." —Choice By exploring the complexities of enslavement in the autobiography of Cuban slave-poet Juan Francisco Manzano (1797–1854), Gerard Aching complicates the universally recognized assumption that a slave's foremost desire is to be freed from bondage. As the only slave narrative in Spanish that has surfaced to date, Manzano's autobiography details the daily grind of the vast majority of slaves who sought relief from the burden of living under slavery. Aching combines historical narrative and literary criticism to take the reader beyond Manzano's text to examine the motivations behind anticolonial and antislavery activism in pre-revolution Cuba, when Cuba's Creole bourgeoisie sought their own form of freedom from the colonial arm of Spain.

**One Kind of Freedom** Charisma Media

From one of the world's best-known development economists—an excoriating attack on the tragic hubris of the West's efforts to improve the lot of the so-called developing world. "Brilliant at diagnosing the failings of Western intervention in the Third World." —BusinessWeek In his previous book, *The Elusive Quest for Growth*, William Easterly criticized the utter ineffectiveness of Western organizations to mitigate global poverty, and he was promptly fired by his then-employer, the World Bank. *The White Man's Burden* is his widely anticipated counterpunch—a brilliant and blistering indictment of the West's economic policies for the world's poor. Sometimes angry, sometimes irreverent, but always clear-eyed and rigorous, Easterly argues that we in the West need to face our own history of ineptitude and draw the proper conclusions, especially at a time when the question of our ability to transplant Western institutions has become one of the most pressing issues we face.

**Last Call for Liberty** Zed Books Ltd.

Congratulations, reader! You've successfully navigated through the trials of childhood and adolescence. Now, as you voyage through high school to college and beyond, you're set to begin your next big adventure: adulthood. A few big decisions await you, from majors and minors to jobs and careers (and maybe even marriage!). However, in between the big ones, you'll make a million other smaller, subtler choices that will underpin everything from your friendships to your bank account. These are the daily choices that will truly define you . . . so how will you choose? *Choose Your Own Adulthood* helps you approach these choices from a more thoughtful, curious, and ultimately self-aware perspective. You'll learn why responding is so much better than reacting, how loyalty is really overrated, which risks are worth taking and which are best avoided, and so much more.

Exciting things await you on your journey toward adulthood: which path you take is for you to decide. Choose wisely!

**Freedom from Liberation** Routledge

A compelling account of the threat immigration control poses to the citizens of free societies Immigration is often seen as a danger to western liberal democracies because it threatens to undermine their fundamental values, most notably freedom and national self-determination. In this book, however, Chandran Kukathas argues that the greater threat comes not from immigration but from immigration control. Kukathas shows that immigration control is not merely about preventing outsiders from moving across borders. It is about controlling what outsiders do once in a society: whether they work, reside, study, set up businesses, or share their lives with others. But controlling outsiders—immigrants or would-be immigrants—requires regulating, monitoring, and sanctioning insiders, those citizens and residents who might otherwise hire, trade with, house, teach, or generally associate with outsiders. The more vigorously immigration control is pursued, the more seriously freedom is diminished. The search for control threatens freedom directly and weakens the values upon which it relies, notably equality and the rule of law. Kukathas demonstrates that the imagined gains from efforts to control immigration are illusory, for they do not promote economic prosperity or social solidarity. Nor does immigration control bring self-determination, since the apparatus of control is an international institutional regime that increases the power of states and their agencies at the expense of citizens. That power includes the authority to determine who is and is not an insider: to define identity itself. Looking at past and current practices across the world, *Immigration and Freedom* presents a critique of immigration control as an institutional reality, as well as an account of what freedom means—and why it matters.

**The Work of Sartre** Princeton University Press

The U.S. Constitution found in school textbooks and under glass in Washington is not the one enforced today by the Supreme Court. In *Restoring the Lost Constitution*, Randy Barnett argues that since the nation's founding, but especially since the 1930s, the courts have been cutting holes in the original Constitution and its amendments to eliminate the parts that protect liberty from the power of government. From the Commerce Clause, to the Necessary and Proper Clause, to the Ninth and Tenth Amendments, to the Privileges or Immunities Clause of the Fourteenth Amendment, the Supreme Court has rendered each of these provisions toothless. In the process, the written Constitution has been lost. Barnett establishes the original meaning of these lost clauses and offers a practical way to restore them to their central role in constraining government: adopting a "presumption of liberty" to give the benefit of the doubt to citizens when laws restrict their rightful exercises of liberty. He also provides a new, realistic and philosophically rigorous theory of constitutional legitimacy that justifies both interpreting the Constitution according to its original meaning and, where that meaning is vague or open-ended, construing it so as to better protect the rights retained by the people. As clearly argued as it is insightful and provocative, *Restoring the Lost Constitution* forcefully disputes the conventional wisdom, posing a powerful challenge to which others must now respond. This updated edition features an afterword with further reflections on individual popular sovereignty, originalist interpretation, judicial engagement, and the gravitational force that original meaning has exerted on the Supreme Court in several recent cases.

**Free of Me** Random House

We live in a culture that's all about self, becoming the best "me" I can be instead of becoming like Jesus. This me-centered message affects every area of our lives--our friendships, our marriages,

even our faith--and it breaks each one in different ways. The self-focused life robs our joy, shrinks our souls, and is the reason we never quite break free of insecurity. In this book, Sharon Hodde Miller invites us into a bigger, Jesus-centered vision--one that restores our freedom and inspires us to live for more. She helps readers - identify the secret source of insecurity - understand how self-focus sabotages seven areas of our lives - learn four practical steps for focusing on God and others - experience freedom from the burden of self-focus Anyone yearning for a purpose bigger than "project me" will cherish this paradigm-shifting message of true fulfillment.

[The Burden Is Light](#) Hay House, Inc

In *The White Woman's Other Burden*, Kumari Jayawardena re-evaluates the Western women who lived and worked in South Asia during the period of British rule. She tells the stories of many well-known women, including Katherine Mayo, Helena Blavatsky, Annie Besant, Madeleine Slade, and Mirra Richard and highlights the stories of dozens of women whose names have been forgotten today. In the course of this telling, Jayawardena raises the issues of race, class, and gender which are part of current debates among feminists throughout the world.

**Wellbeing, Freedom and Social Justice** Destiny Image Publishers

It is a must-read for every American.

**In Pursuit of Purpose** Laissez Faire Books

*The Insecurity of Freedom* is a collection of essays on Human Existence by one of the foremost Jewish thinkers of our time, Abraham Joshua Heschel.

**Insecurity of Freedom** OUP USA

This edition of the economic history classic *One Kind of Freedom* reprints the entire text of the first edition together with an introduction by the authors and an extensive bibliography of works in Southern history published since the appearance of the first edition. The book examines the economic institutions that replaced slavery and the conditions under which ex-slaves were allowed to enter the economic life of the United States following the Civil War. The authors contend that although the kind of freedom permitted to black Americans allowed substantial increases in their economic welfare, it effectively curtailed further black advancement and retarded Southern economic development. Quantitative data are used to describe the historical setting but also shape the authors' economic analysis and test the appropriateness of their interpretations. Ransom and Sutch's revised findings enrich the picture of the era and offer directions for future research.

**A State of Freedom** Fordham Univ Press

"On the Other Side of Freedom reveals the mind and motivations of a young man who has risen to the fore of millennial activism through study, discipline, and conviction. His belief in a world that can be made better, one act at a time, powers his narratives and opens up a view on the costs, consequences, and rewards of leading a movement."--Henry Louis Gates, Jr. Named one of the best books of the year by NPR and Esquire Finalist for the Lambda Literary Award From the internationally recognized civil rights activist/organizer and host of the podcast *Pod Save the People*, a meditation on resistance, justice, and freedom, and an intimate portrait of a movement from the front lines. In August 2014, twenty-nine-year-old activist DeRay Mckesson stood with hundreds of others on the streets of Ferguson, Missouri, to push a message of justice and accountability. These protests, and others like them in cities across the country, resulted in the birth of the Black Lives Matter movement. Now, in his first book, Mckesson lays down the intellectual, pragmatic, and political framework for a new liberation movement. Continuing a conversation about

activism, resistance, and justice that embraces our nation's complex history, he dissects how deliberate oppression persists, how racial injustice strips our lives of promise, and how technology has added a new dimension to mass action and social change. He argues that our best efforts to combat injustice have been stunted by the belief that racism's wounds are history, and suggests that intellectual purity has curtailed optimistic realism. The book offers a new framework and language for understanding the nature of oppression. With it, we can begin charting a course to dismantle the obvious and subtle structures that limit freedom. Honest, courageous, and imaginative, *On the Other Side of Freedom* is a work brimming with hope. Drawing from his own experiences as an activist, organizer, educator, and public official, Mckesson exhorts all Americans to work to dismantle the legacy of racism and to imagine the best of what is possible. Honoring the voices of a new generation of activists, *On the Other Side of Freedom* is a visionary's call to take responsibility for imagining, and then building, the world we want to live in.

[The White Man's Burden](#) InterVarsity Press

Examines the development of racist practices, policies, and attitudes during the years of colonization and revolution.

*Milton and the Burden of Freedom* Cambridge University Press

A NYC pastor and global influencer inspires readers to find their most meaningful and purposeful life. Surprising to many, this life is not measured by success, comparison, or accolades. Rather, free and joyful living stems from a God-centered celebration of our union with Christ and the lives of those around us. Jon Tyson's exploration of the reverse economy of the kingdom frees his readers from merit-based living...not just in terms of salvation, but daily, earthly value. Life is not meant to be a series of competitions or a survival of the fittest rat race. Yet so many of the messages around us, so many of the voices bombarding our hearts and minds tie up our value and package it with our accolades. This book gives another way forward. It shows readers how to value their individual lives based on what God says about them, rather than how they measure themselves against the world. This is a must read for each and every person trying to find their voice and purpose in a loud and frenetic world.

*The White Woman's Other Burden* Hoover Press

One choice will change Libby's life forever. Libby Norstad's life has changed to anything but ordinary. In 1857, when she comes to live on the *Christina*, her father's steamboat, Libby's curiosity ensnares her in a mystery. What is the closely held secret of Caleb, the cabin boy who seems determined to make her life miserable? And how can Jordan, a fugitive slave, possibly reach safety and freedom? The night is dark. As three men race to the riverfront, bloodhounds follow their tracks. Through her journey to compassion, will Libby become a freedom seeker? From the golden age of steamboats, the rush of immigrants to new lands, and the dangers of the Underground Railroad come true-to-life stories of courage, integrity, and suspense in the *Freedom Seekers* series.

*Freedom Is A Constant Struggle* Cambridge University Press

Longlisted for the DSC Prize for South Asian Literature What happens when we attempt to exchange the life we are given for something better? Five people, in very different circumstances, from a domestic cook in Mumbai, to a vagrant and his dancing bear, and a girl who escapes terror in her home village for a new life in the city, find out the meanings of dislocation, and the desire for more. Set in contemporary India and moving between the reality of this world and the shadow of another, this novel delivers a devastating and haunting exploration of the unquenchable human urge to strive for a different life.
