The Big Book of Holidays and Cultural Celebrations Carson-Dellosa Publishing
Google your way to greatness! This book for K-12 educators explores the wide array of Google tools and shows how to use them in the classroom. Appropriate for experienced Googlers as well as novices, the text is organized into parts according to the 21st-century skills each tool

promotes. Included are specific classroom activities that teachers can use with students immediately. An interactive website offers video tutorials that support the instructions and an online community for sharing successes.

Conservation: Ocean Water Resources: How the Amount of Salt Water Could Change Gr. 5-8 Classroom Complete Press
This is the chapter slice "What Is Salt Water? Gr. 5-8" from the full lesson plan "Conservation: Ocean Water Resources"
The oceans contain 97% of the Earth's water, cover 71% of its surface, and hold

50-80% of all life on the planet. Our resource explores the importance of conserving this vast area. Design a board game that illustrates the effects of climate change on Earth's oceans. See how the water cycle explains why most of Earth's salt water is found in the oceans. Find out how climate change will affect ocean currents, resulting in a dramatic change to the farming and fishing industries. Explain how an increase in human population can cause some salt lakes to shrink. Conduct a case study on a container ship that lost several containers in a storm in the north

Pacific Ocean. Make your own salt water to represent Earth's oceans and experience what it would be like to visit them. Get tips on what we can do to help protect ocean water. Written to Bloom's Taxonomy and STEAM initiatives, additional hands-on activities, graphic organizers, crossword, word search, comprehension quiz and answer key are also included.

Summer Learning : Preparation for Grade 5 Classroom Complete Press

One of the most striking representations of Jesus in the scriptures is that of a shepherd. Based on John 10's statement that He is the Good Shepherd, this series of eight lessons teaches youngsters of Jesus' unflinching love and care (even to the point of death on the cross). Like all of her previous collections, each children's message is accompanied by a two-sided activity page -- one side that's a coloring page for younger children, and the other with numerous puzzles and activities to reinforce the lesson's theme for older children. Bland has a well-earned reputation for biblical faithfulness, creativity, and practicality. Busy pastors and teachers have found her ready-to-use materials just what they need for their

children's time -- we know you'll love her latest release! *The Shepherd And His Sheep* is insightful, simple, and creative. But most important is the depth of spirituality that is presented which will engage the mind and heart of a child. Although specifically designed with children in mind, Bland's messages recover the significance of Jesus' statement that unless we come to him as a child, we will miss the kingdom of God. This collection of sermons and activities will call the child in each one of us to be in the presence of the Good Shepherd. Steven M. Marsh Dean of Chapel and Spiritual Formation Assistant Professor of Religion and Philosophy Sterling College During nearly 50 years as a pastor's wife, Julia Bland has taught church groups of all ages from children through senior adults. She has been active in United Methodist Women and served as district chairperson of Global Concerns as well as Publicity and Public Relations. Bland's award-winning oil, watercolor, and pen and ink artwork has appeared in private and public collections.

It's a Fact! Developing Non-Fiction Reading Comprehension Skills Gr. 1-3

Corwin Press

Key Words or Phrases That Unlock Subjects of the Bible is a thought-provoking guide to the Bible and the secrets that have remained hidden within it, until now. An ideal tool for anyone who has a deep longing to uncover deeper truths within the Bible, biblical scholars, preachers, and laypersons seeking to expand their knowledge and comprehension of the Bible will all find much to discover in this fascinating God inspired guide. What are the real story of Christmas and the birth of Jesus? Where did all the different races of humans come from? Who is Satan? What foods are acceptable to eat? If you have ever wondered about these or other mysteries of the Bible, this book is for you! Using the original manuscripts of the Holy Bible, also known as the Masoretic Text, the author has analyzed scriptures to uncover their mysteries using key phrases and words, just as one would put together a jigsaw puzzle. His insightful analysis and commentary a wealth of insight for readers.

Bible Word Search for Adults (Large Print)
Jossey-Bass

Introduces students to geography concepts, such as map reading, latitude and longitude, days, seasons, wind belts, and ocean currents, through fun puzzles and word games. Each continent is explored through the five themes of geography: location, place, human-environment interaction, movement, and regions.

The Holy Bible is one of the most widely used books in the world. This book was created as an educational and activity book to provide you with a basic overview of what each book in the Holy Bible is about. Unscramble the answers and challenge the puzzles. Enjoy!

Geography and the Human

Experience FriesenPress

This is the chapter slice "Earth's Atmosphere" from the full lesson plan "Climate Change: Causes". Provide students with insight into the science of our atmosphere and the effects of humanity's actions on the Earth System. Our resource gives a scientific perspective on climate change that will help students separate fact from fiction. Investigate the

different layers of the atmosphere. Conduct an experiment to see just how an object's color affects how much radiation it absorbs. Find out what effect rising temperatures have on Earth's oceans. Create your own model of the carbon cycle. Explain how the residence time of methane in the atmosphere could help people fight climate change. Learn what effects ozone has on human health. See firsthand how nitrogen-fixing bacteria can replace nitrogen fertilizers. Figure out why synthetic gases were banned, and how long their effects will stay in the atmosphere. Written to Bloom's Taxonomy and STEAM initiatives, additional hands-on activities, crossword, word search, comprehension quiz and answer key are also included.

Gr. 5-8 Lorenz Educational Press

Just Puzzling! Crosswords & Word Searches is a fun and educational way to entertain your child anywhere he or she may go! This colorful activity book will provide your child with hours of entertainment and skill-building practice. The engaging, full-color activity pages reinforce the basics of reading and math, for children ages 7 and up, through crosswords and word searches. These challenging puzzles are designed to help your child master critical thinking skills and improve concentration. With fun and learning on every page, *Just Puzzling!* is a win-win for you and your child! --Answer key included. 96 pages.

April Fools' Day Puzzles and Activities**(K-2)** Teacher Created Resources

This is the chapter slice "Earth's Climate" from the full lesson plan "Climate Change: Effects". Students gain an understanding of the effects of climate change on the environment and human life. Our resource explores how the evolution of human society is affected by the climate. Start by going back in time and exploring the ice ages from Earth's past. Learn about the lives of early humans, and how climate has affected where they move and live. Observe a homemade melting ice sheet to understand its effect on sea level. Then, create a model to show rising sea level in action. Find out if climate change has any effect on the rise of extreme weather experienced in recent years. Learn about the dangers to human health, such as mosquitoes, heat stroke and pollution. See how changes in climate affect an area's economy by virtually destroying the farming industry. Finally, choose one ecosystem and find out how climate change is affecting it. Written to Bloom's Taxonomy and STEAM initiatives, additional hands-on activities, crossword,

word search, comprehension quiz and answer key are also included.

Going Google Teacher Created Materials

This is the chapter slice "Simple Machines Gr. 1-5" from the full lesson plan "Hands-On - Physical Science". Get your students excited about energy and all things that move with our Hands-On Physical Science resource for grades 1-5. Combining Science, Technology, Engineering, Art, and Math, this resource aligns to the STEAM initiatives and Next Generation Science Standards. Study balanced and unbalanced forces by dropping different objects to measure the effect of gravity and air resistance on them. Measure the distance of lightning by watching and listening for thunder. Get into groups and make models of water, sound and light waves. Experience static electricity first hand by getting a balloon to magically stick to a wall. Describe a solid, liquid and gas around your home by its properties. Make a compound machine with your classmates by combining at least two simple machines. Each concept is paired with hands-on experiments and comprehension activities to ensure your students are engaged and fully

understand the concepts. Reading passages, graphic organizers, before you read and assessment activities are included.

Science Vocabulary: Space Classroom Complete Press

This activity makes learning about April Fools' Day fun and engaging. This lesson is filled with ready-to-use reproducibles, fun facts, puzzles, crafts, and more. Turn holidays and cultural celebrations into learning experiences for your students.
