"The Third Shift. Andragogical Reflections on the @ktywny Senior Project" is a monograph devoted to the numerous aspects of senior education, all the more valuable, since it is based on experience. Not only does it constitute an example of good practice, but it is also characterised by a scientific approach to the presented information. Representatives of diverse circles and social groups, employees of Lower Silesian non-governmental organisations, and, last but not least, the seniors who took part in the project - have contributed to the writing of the present book. The seniors themselves are the authors of the title "The Third Shift" which is to symbolise people of advanced age, the third generation, as well as the start of seniors' active participation in social life.

Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library ([www.thecochranelibrary.com](http://www.thecochranelibrary.com)). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those

preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

This dictionary of USA English is directly taken from the Voice of America (VOA) "Intermediate Dictionary of English." There are about 1,500 words in the dictionary. The VOA uses these words primarily for broadcasting in a simplified English mode. The words and definitions in this book are exactly as in the VOA version. However, because there is no pronunciation guide in the VOA version, a truespel pronunciation guide is provided modeled after the voicings of English on m-w.com, the Merriam-Webster talking dictionary. Unique to this dictionary is a reverse guide that lists phonetic words alphabetically so they can be looked up phonetically. This solves the problem of silent first letters. A large volume reverse dictionary will be available as truespel book 2. More info is available at [truespel.com](http://truespel.com).

This volume brings together seven empirical studies about aptitude-treatment interactions (ATI), i.e., about how (second language) learners with different aptitudes match or don't match with different educational treatments; and aptitude-testing interactions, i.e., about how learners with different aptitudes perform better or worse depending on the way their knowledge and skills are tested. The authors are all established researchers or rising stars in the field of second language acquisition (SLA), who believe that little can be said about the effectiveness of teaching and testing methods or

techniques without taking individual differences into account. Many of the studies corroborate in SLA what has become a central finding in the psychological and educational research about ATI: the more a method puts the burden of information processing on the student, the bigger the role of the corresponding aptitudes. The kinds of findings documented in this volume contribute to a scientific basis for the art of language teaching that will become increasingly useful as emerging technologies make adaptation to individuals and groups more feasible. Originally published as special issue of *Journal of Second Language Studies* 2:2 (2019).

"Extremely comprehensive and well written in terms of style - accessible to the reader, but intelligent and expressing some fairly subtle concepts. Would that more ELT practitioners could do the same!... Certainly a good read for those thinking about and also those engaged in initial training - or even post initial training stage" - Jenny Pugsley, Head of TESOL, Trinity College London "It's essential reading whether you are simply curious about what is involved in training in ELT, need advice on choosing the right course, have already enrolled and want to make the most of your course, or are a new teacher just starting out. It's a book I wish I'd had when I was starting out in my ELT career, and that I wish had been available to many of the course participants I have tutored" - Lyn Strutt, ELT author and Chair of the British Council Families Association Each year, thousands of people all over the world take one of the hundreds of available short pre-service courses that lead to the award of a certificate in English Language Teaching (ELT) or Teaching English to Speakers of Other Languages (TESOL).
