Oswaal Books

Now in its second edition, How to Read Texts introduces students to key critical approaches to literary texts and offers a practical introduction for students

developing their own critical and close-reading skills. Written in a lively, jargon-free style, it explains critical concepts, approaches and ideas including: - Debates around critical theory - The role of history and context - The links between creativity and criticism - The relationship between author, reader and text. The new edition now includes guidance on analysing a range of multi-media texts, including film and online media as well as the purely literary. In addition to new practical examples, readings, exercises and 'checkpoints' that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully-formed critical essays and tips for independent research. Comprehensively updated and revised throughout, How to Read Texts is an indispensable guide for students making the transition to university study.

Exam Board: Edexcel Level: A-level

Subject: Chemistry First Teaching:

September 2015 First Exam: June 2017

Reinforce students' understanding

throughout their course with clear topic

summaries and sample questions and

answers to help your students target

higher grades. Written by experienced

examiner George Facer, our Student

Guides are divided into two key sections,

content guidance and sample questions

and answers. Content guidance will: -

Develop students' understanding of key

concepts and terminology; this guide

covers topics 11 - 15: equilibrium II; acid-

base equilibria; energetics II; redox II;

transition metals. - Consolidate students'

knowledge with 'knowledge check

questions' at the end of each topic and

answers in the back of the book. Sample

questions and answers will: - Build

students' understanding of the different

question types, so they can approach questions from topics 11 - 15 with confidence. - Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.
