"Race" is a Four-letter Word Roaring Brook Press
 With her parents splitting up, 16-year-old Sammie Davis may not want to feel a thing, but feelings happen. For starters, she's plenty angry. Her dad's leaving their upstate New York home and moving clear across the country. Her mother—well, she's packing up and relocating to New York City with Sammie, who has no say about any of it. Overnight Sammie is forced to deal with change. And one change spawns another: Roles get reversed, old and new friendships tested, and sexual feelings awakened. It's a scary time. But as Sammie realizes that things can't stay the same forever, that even the people she loves and trusts the most can disappoint her, she begins to accept that change isn't always bad. It's how you cope, jumbled feelings and all, that counts. And as she copes, Sammie's sense of self emerges proud and strong.

 New York Times bestselling author and six-time WWE champion Chris Jericho shares 20 of his most valuable lessons for achieving your goals and living the life you want. Chris Jericho has known what he wanted out of life since he was a teenager: to be a pro wrestler and to be in a rock 'n' roll band. Most of his high school friends felt that he lacked the tools necessary to get into either, but Chris believed in himself. With the wise words of Master Yoda echoing through his head ("Do or do not. There is no try."), he made it happen. As a result, Chris has spent a lifetime doing instead of merely trying, managing to achieve his dreams while learning dozens of invaluable lessons along the way. *No Is a Four-Letter Word* distills more than two decades of showbiz wisdom and advice into twenty easy-to-carry chapters, including: Developing a strong work ethic thanks to WWE chairman Vince McMahon, Remembering to always look like a star from Gene Simmons of KISS, Learning to let it go when the America's Funniest Home Videos hosting gig goes to his rival, Adopting a sense of perpetual reinvention from the late David Bowie, Making sure to sell himself like his NHL-legend father Ted Irvine taught him, and Going the extra mile to meet Keith Richards (with an assist from Jimmy Fallon). Now, in the hopes that those same principles might help and inspire his legions of fans, Chris has decided to share them while recounting the fantastic and hilarious stories that led to the birth of these rules. The result is a fun, entertaining, practical, and inspiring book from the man with many scarves but only one drive: to be the best. After reading *No Is a Four-Letter Word*, you'll discover that you might have what it takes to succeed as well...you just need to get out there and do it. That's what Jericho would do.

 Sex. Yes. She remembered that. Wasn't that the thing that happened somewhere between the talking-and-going-out-to-dinner bit and the sobbing-and-eating-too-many-biscuits bit? Still, Bella was sure she could handle some -preferably before her as yet unopened packet of condoms reached their expiry date. She must be practically a virgin again by now, all sealed over like pierced ears if you don't wear earrings for too long. But the 'L' word? Uh-huh. No way. She never wanted to hear it again. There were things in her past which needed to be put well away, like the 27 boxes of clutter she'd brought from her old flat. And having changed her job, her town, her entire life - the one thing

she wasn't about to change was her mind.

Inspired by the website that the New York Times hailed as "redefining mourning," this book is a fresh and irreverent examination into navigating grief and resilience in the age of social media, offering comfort and community for coping with the mess of loss through candid original essays from a variety of voices, accompanied by gorgeous two-color illustrations and wry infographics. At a time when we mourn public figures and national tragedies with hashtags, where intimate posts about loss go viral and we receive automated birthday reminders for dead friends, it's clear we are navigating new terrain without a road map. Let's face it: most of us have always had a difficult time talking about death and sharing our grief. We're awkward and uncertain; we avoid, ignore, or even deny feelings of sadness; we offer platitudes; we send sympathy bouquets whittled out of fruit. Enter Rebecca Soffer and Gabrielle Birkner, who can help us do better. Each having lost parents as young adults, they co-founded Modern Loss, responding to a need to change the dialogue around the messy experience of grief. Now, in this wise and often funny book, they offer the insights of the Modern Loss community to help us cry, laugh, grieve, identify, and—above all—empathize. Soffer and Birkner, along with forty guest contributors including Lucy Kalanithi, singer Amanda Palmer, and CNN's Brian Stelter, reveal their own stories on a wide range of topics including triggers, sex, secrets, and inheritance. Accompanied by beautiful hand-drawn illustrations and witty "how to" cartoons, each contribution provides a unique perspective on loss as well as a remarkable life-affirming message. Brutally honest and inspiring, Modern Loss invites us to talk intimately and humorously about grief, helping us confront the humanity (and mortality) we all share. Beginners welcome.

The long-awaited guide to writing long-form nonfiction by the legendary author and teacher Draft No. 4 is a master class on the writer's craft. In a series of playful, expertly wrought essays, John McPhee shares insights he has gathered over his career and has refined while teaching at Princeton University, where he has nurtured some of the most esteemed writers of recent decades. McPhee offers definitive guidance in the decisions regarding arrangement, diction, and tone that shape nonfiction pieces, and he presents extracts from his work, subjecting them to wry scrutiny. In one essay, he considers the delicate art of getting sources to tell you what they might not otherwise reveal. In another, he discusses how to use flashback to place a bear encounter in a travel narrative while observing that "readers are not supposed to notice the structure. It is meant to be about as visible as someone's bones." The result is a vivid depiction of the writing process, from reporting to drafting to revising—and revising, and revising. Draft No. 4 is enriched by multiple diagrams and by personal anecdotes and charming reflections on the life of a writer. McPhee describes his enduring relationships with The New Yorker and Farrar, Straus and Giroux, and recalls his early years at Time magazine. Throughout, Draft No. 4 is enlivened by his keen sense of writing as a way of being in the world.

Nine Nasty Words Grand Central Publishing

A tour de force work by a leading scholar, "Race" Is a Four-Letter Word explores the history of the concept of race in America, the reasons why the concept has no biological validity, and the ways in which it grew to become accepted as an idea that virtually everyone regards as self-evident. An ardent and eloquent opponent of typology, essentialism, and stereotyping, C. Loring Brace has based this engaging study on the "Problems of Race" course that he has taught at the University of Michigan for the past thirty-five years. Opening with an explanation of why the concept of race is biologically indefensible, "Race" Is a Four-Letter Word shows how the major elements of human biological variation have unrelated distributions and cannot be understood if the existence of "races" is assumed as a starting point. The book then examines the course of events that created the concept of race, journeying through time from Herodotus through Marco Polo; to the Renaissance and the role of the New World; on up to the American Civil War, the curious results of the alliance switch in World War I, Arthur Jensen, The Bell Curve, J. Philippe Rushton, and the Pioneer Fund in the twenty-first century. Ideal as a supplementary text in anthropology courses, "Race" Is a Four-Letter Word can also be used in history of science courses and sociology courses. It is captivating reading for professionals and anyone else who seeks enlightenment on the socially debatable issue of "race."

She's a passionate girl, but her brother is the real prodigy, a musician. And yet this family, too, is struck by tragedy: a seizure leaves the boy mute and unable to play. Years later, Isabel will continue to somehow blame herself, casting off her own chances for happiness. And then, the day after Isabel's wedding to man she doesn't love, Nicholas arrives on her western isle, seeking his father's last surviving painting. Suddenly the winds of fortune begin to shift, sweeping both these souls up with them. Nicholas and Isabel, it seems, were always meant to meet. But it will take a series of chance events—and perhaps, a proper miracle—to convince both to follow their hearts to where they're meant to be.

Powerful evidence for the existence of a personal God! Information is the cornerstone of life, yet it is something people don't often think about. In his fascinating new book, In the Beginning Was Information, Dr. Werner Gitt helps the reader see how the very presence of information reveals a Designer: Do we take for granted the presence of information that organizes every part of the human body, from hair color to the way internal organs work? What is the origin of all our complicated data? How is it that information in our ordered universe is organized and processed? Gitt explains the necessity of information - and more importantly, the need for an Organizer and Originator of that information. The huge amount of information present in just a small amount of DNA alone refutes the possibility of a non-intelligent beginning for life. It all points to a Being who not only organizes biological data, but also cares for the creation.
