From bestselling author Stuart Woods, a thriller featuring John Howell, a former investigative journalist trying to escape from his past who finds a perfect sanctuary in a lakeside home in the North Georgia Mountains. But little does he realize the small town harbors a dark and evil secret, hidden deep within the lake's waters. In the beautiful mountains of North Georgia lies a lake built by an obsessed man at a terrible price. This placid body of water has brought prosperity to an isolated community, and with it, two strangers who intermingle with the insular local folk, strangers probing into crimes against nature from generations past that cannot remain submerged beneath the waters' surface. Under the Lake marks the eagerly awaited return to the South of his Edgar Award-winning novel *Chiefs*. John Howell, once a top investigative journalist, comes to this backcountry town on the run from a once promising personal and professional life that has somehow gone sour. What he finds is a mystery so deep, so complex, so bizarre, that he cannot concentrate on the book he has come here to write. The story begins with his entanglement in a subtle, but relentless battle waged by the autocratic town father and the local sheriff against an outcast family,

ravaged by its origins. Howell is further drawn in by his involvement with two women—an ambitious young reporter on the prowl for corruption, and a shy backwoods beauty, forsaken by the world because of her family's ill kept secret. Then, without warning, visits from an otherworldly young girl haunt Howell as his rustic cabin becomes a spectral theater offering strange and frightening images of a hideous event of long ago.

Sometimes life is like a movie. There are moments and events in life - not often - that are as exciting and as dramatic as a movie. What happened in Lake Placid, New York in February 1980 at the Thirteenth Winter Olympics was such a time. For those who experienced it in person or watched the games on television, they remember where they were when the US hockey team beat the Soviet Union and then beat the team from Finland two days later to win the gold medal. The sports victory of an underdog group of college kids was thrilling enough but it was a win against the Soviet Union. This Cold War adversary was also the nation hosting the summer games later that year which the United States was threatening to boycott. The excitement and drama in Lake Placid gave the games

a huge lift of enthusiasm and popularity when some had even come to believe that staging the Olympics was no longer affordable for many communities and that perhaps the 1980 Winter Games should be cancelled entirely. Indeed, as the games began, a US News and World Report magazine questioned whether the Lake Placid games were the "last Olympics." What happened on the hockey ice was improbable enough, but the Lake Placid Winter Games were a long shot, if not a miracle too. Winning the games had been an unlikely decades-long quest for this small town to overcome the barriers of exploding finances, environmental concerns and world politics. Few remember that the 1980 games were never supposed to take place in Lake Placid. They came to the small village because of unexpected events which unfolded and made the two weeks in the remote Adirondacks before a worldwide audience of nearly a billion viewers one of the most dramatic times in the modern era of sports, media and politics. It would not be too much of a stretch to say that the Lake Placid Games, which brought the "Miracle on Ice," saved the Winter Olympics in 1980 and greatly enhanced them for the future.

A STEP BY STEP GUIDE TO FIXING YOUR RELATIONSHIP Relationships can place more stress on us than money, careers, or even health issues. We're told that love can conquer all, and yet we get overwhelmed by arguing over the most trivial issues. Other people seem to get their relationships right, yet many of the rest of us never seem to get them to work. And we're left wondering, "What's wrong with me?" or "What are they doing that I'm not?" The bad news is that no relationships are trouble free. The good news is that every one of us can take clear action steps to make our relationships stronger and more fulfilling. *People Are Bigger Than the Problems They Face* follows ten separate case studies of relationship difficulties. Ira L. Lake, a minister and counselor who works with both couples and individuals, recounts the facts and principles we can learn from each one. Even for those of us who haven't been able to form a relationship yet, these steps give us the tools to open ourselves to a better way of treating both ourselves and those who matter most to us.
