The National Cyclopaedia  
of American Biography  
Penguin UK

On the longest night of  
the year, Jenny Majesky  
loses everything in a  
devastating house fire.  
But among the ashes she  
finds an unusual treasure

hidden amid her  
grandfather's belongings,  
one that starts her on a  
search for the truth, and  
on a path toward a life  
that she never imagined.  
The Winter Lodge, a  
remote cabin owned by  
her half sister on the  
shores of Willow Lake,  
becomes a safe refuge for  
Jenny, where she and  
local police chief Rourke  
McKnight try to sort out

the mysteries revealed by  
the fire. But when a  
blizzard traps them  
together, Jenny,  
accustomed to the safe  
predictability of running  
the family bakery,  
suddenly doesn't feel so  
secure. For even as  
Rourke shelters her from  
the storm outside, she  
knows her heart is at risk.  
Now, following her  
dreams might mean

walking away from her one chance at love.

Delirious Scribbles Ink

This is the memoir of 94 year old Morris Haimowitz, co-author of several books

with his wife of 57 years, Dr. Natalie Reader. In these pages Dr. Haimowitz tells the story of his life, from the orange groves of Florida to witnessing the bombing of Iwo Jima, from selling shoes for five dollars a week to calming race riots in Chicago, from recycling army uniforms and airplane boxes in Hawaii to evaluating schools, economic, informational and medical systems. Morris served in the US Airforce for four years where he received the bronze star medal. He

taught community organization at the University of Chicago, was director of human relations at Chicago board of education during the race riot years of the 1960s, and taught on Chicago public television for 10 years. He served as board member of the international transactional analysis association for 11 years, while teaching transactional analysis internationally for 30 years. Throughout his book, Dr. Haimowitz recounts the politics and dynamics he witnessed

while working closely with students, teachers, parents, principals, superintendents, police, as well as patients, and colleagues. Currently, Morris gardens, runs on his treadmill, studies nutrition, and writes poems for his three daughters and five grandchildren. *Longman's Economics* Trinity University Press "This is the first book to show the sweeping change among American women in this century, and to do so in an irresistible, intimate, and

popular way.” —Gloria Steinem The women in this landmark work of oral history are from diverse ethnic, geographic, and social backgrounds, and they tell stories about all aspects of their lives, from their professional and romantic experiences to sex discrimination and their own realized or unrealized aspirations. As in the best oral history, the stories these women candidly tell are vivid and often poignantly detailed. We hear accounts of rural, chore-filled childhoods at the beginning of the

century, of contemporary teens without curfews, of dates that began with a chat with father in the parlor, of the sexual liberation of the 1960s, of women who worked in factories during World War II, of those who were pioneers in their professions, and of women who today struggle heroically to balance the demands of marriage or single mothering, work, and children. Sweeping in scope, and yet rooted in the details, emotions, and dilemmas of everyday life,

the journey women have traveled over the century here becomes all the more dramatic, the transformation they have undergone all the more remarkable. *Generations* is a celebration of this transformation in all its complexity, an embracing and vibrant family scrapbook that belongs to all American women. “*Generations* tells us both how far we have come and how far we have yet to go.” —Ruth Sidel, author of *Unsung Heroines: Single Mothers and the American Dream*

**How the Gringos Stole Tequila** University of Notre Dame Press

Once little more than party fuel, tequila has graduated to the status of fine sipping spirit. How the Gringos Stole Tequila

traces the spirit's evolution in America from frat-house firewater to luxury good. But there's more to the story than tequila as upmarket drinking trend. Author Chantal Martineau spent several years immersing herself in the world of tequila -- traveling to visit distillers and agave farmers in Mexico, meeting and tasting with leading experts and mixologists around the United States, and interviewing academics on either side of the border who have studied

the spirit. The result is a book that offers readers a glimpse into the social history and ongoing impact of this one-of-a-kind drink. It addresses issues surrounding the sustainability of the limited resource that is agave, the preservation of traditional production methods, and the agave advocacy movement that has grown up alongside the spirit's swelling popularity. In addition to discussing the culture and politics of Mexico's most popular export, this book also takes readers on a

colorful tour of the country's Tequila Trail, as well as introducing them to the mother of tequila: mezcal.

Fey both beautiful and vicious hide in the Georgia backwoods, guarded by four-hundred-

year-old peanut farmer, bootlegger, and wizard Jedediah Shine. Protecting humanity and the fey from one another is normally child's play compared to teaching magic to his new foster daughter and a Cherry Coke addicted dragonling, parenting an out-of-control half-elven teen sorceress or keeping his jealous elven ex-lover away from his new girlfriend. Jedediah's delicate balancing act is thrown into turmoil when rebellious, young centaurs launch a genocidal war

against humanity from within his borders. At the same time, a vengeful mercenary company lays a trail of suspicious murders directly to Jedediah's door. Unwitting pawns to a deeper menace, both serve a centuries-long plot to steal magic's deepest secret. The bloody conflict thrusts Jedediah's family into Death's reach. As the body bag count rises and law enforcement closes in, Jedediah is forced to make desperate choices to protect his loved ones and magic itself by

stopping the murders in his wood.

Ossining commands a position high on the banks of the Hudson River, at the edge of Westchester County, New York.

Perhaps best known as the location of Sing Sing Prison, Ossining is rich in history and in personal memories. The history and memories come through clearly in this book of exceptional photographs. Ossining

Remembered focuses on the heart of the town, from Main Street out to the river. Included are images of places that made downtown Ossining the dynamic community it once was: the theater, the cigar store, and the bakery. Also featured are vintage photographs of the riverfront mansions and estates, the numerous educational institutions and churches, and, of course, the famous prison.

One of the most respected figures in Catholic higher education, the Reverend Edward A. Malloy has written a thoroughly engaging first installment of his three-volume memoir. This book covers the years from his birth in 1941 to 1975, when he received his doctorate in Christian ethics from Vanderbilt. Written in his trademark self-effacing and humorous style, Malloy's book portrays his childhood growing up in the northeast Washington, D.C., neighborhood of

Brookland (the neighborhood's alias was "Little Rome" because of all the Catholic church-related institutions it encompassed). Malloy describes his family and early education, his growing love of sports, and his years at Archbishop Carroll High School where he played on an extraordinarily successful basketball team. The next five chapters chronicle his undergraduate years at Notre Dame, where he was recruited to play basketball, his decision to

become a priest, his seminary experience, the taking of final vows, and his graduate school experience at Vanderbilt University. Monk's Tale is a captivating account of growing up Catholic in the 1940s and '50s, as well as a revealing reflection of the dramatic changes that occurred in the Catholic Church and in American society during the 1960s. This book is also a loving tribute to Malloy's parents, sisters, friends, teachers, religious mentors, and colleagues who helped pave his way

to the University of Notre Dame and to his profound commitment to service, leadership, and God.
