The New Zealand Journal of Agriculture Dorling Kindersley Ltd
The developmental history of the tractors built by the dominant agricultural manufacturer of the early 20th Century, International Harvester, is dramatically told in *The Farmall Dynasty*. The book traces the evolution of the Farmall tractor from the early Titans and Moguls through to modern times. The book includes well-researched accounts of the development of the original Farmall, the Letter Series, 4100, Cub, and other legendary IHC tractors, with first-hand accounts from factory engineers describing the challenges they faced. --Lee Klancher

A History of Farm Mechanisation in Ireland, 1890-1990 Sisters Ignited Media and Publishing Inc.

Following the rating system generally established among car collectors, this comprehensive value guide provides the values, in five degrees of condition, of antique American farm tractors and crawlers built from the turn of the century through the 1950s. Each chapter is devoted to one of the period's major manufacturers -- John Deere, Farmall, Caterpillar, Oliver,

Minneapolis-Moline, Ford, and more -- and the values listed are based on prices actually realized at auction. In addition, two expert collectors compare their notes on each model, while the expert photography of Randy Leffingwell depicts the tractors and crawlers discussed.

The Harvester World Kent State University Press

"Farmers, students, and advisory officers have always needed a sound knowledge of the two most important subjects in agriculture - crop husbandry and animal husbandry. They still do so; but a third subject, the mechanical equipment of farms, has become equally important. The aim of this book is to give farmers, students, and advisory officers much the same information about farm machinery as they can get crops and livestock from books on crop and animal husbandry. ..."--Taken from the preface

In *Why Cows Learn Dutch and Other Secrets of the Amish Farm*, Randy James offers an engaging view of Amish farm life, society, and values. An agricultural extension agent for twenty years, James works closely with the Amish farmers of Geauga County, Ohio, the fourth largest Amish settlement in the world, and his narrative provides new, accurate information on the Amish and

their farming practices. This richly layered book is a collection of gentle, often humorous stories about the art, science, and tradition of farming as well as a probing analysis of the Amish farm business. James includes helpful, empirical descriptions of Amish farming practices and delves into the amazing economic efficiency of a work horse and the streamlined management and marketing system of a fifty-chicken flock. Accompanied with drawings by Amish artist Crist C. Miller, James recounts his experiences driving a massive team of Belgian draft horses, gathering thin cold sap to boil into delicate maple syrup, hand milking a Holstein cow, and praying with the family before a hearty midday meal. traditional farms are able to effectively compete in an industry dominated by huge corporate farms. It will appeal to those interested in the Amish lifestyle and farming practices.
