Pan Macmillan

Das einzigartige Jahrbuch zur Science  
Fiction in ihren multimedialen  
Erscheinungsformen Was geschieht in  
Millionen von Jahren? Wo werden wir

sein, wenn die Zeit aufhört zu existieren  
– vorausgesetzt, es gibt uns dann  
überhaupt noch? Solchen Fragen rund  
um die »Future Histories«, die  
Geschichte der fernen Zukunft, geht das  
Science-Fiction-Jahr 2010 nach.  
Außerdem: eine große Rückschau auf  
das Phänomen Star Trek sowie Essays,  
Rezensionen und Artikel über Bücher,  
Filme, Comics und Computerspiele.

In the last thirty-five years B.Z. Kedar has become a leading historian of the field of the crusades, and of medieval and Middle Eastern history more broadly. This volume presents 31 essays written by eminent medievalists in appreciation of Kedar's talent, method and diversity. The collection relates to the Latin East and to the reciprocity between West and East in the time of the crusades. The individual essays deal with the history, archaeology and art of the Holy Land, the crusades and the military orders, Mediterranean commerce, medieval mentality, and the Jews.

'Taylor has done us a great service in

making the personal stories of what it was actually like to live through the most crucial year of the twentieth century vivid, compelling and salutary.' - Roland Philipps, author of *A Spy Named Orphan: The Enigma of Donald Maclean* In the autumn of 1938, Europe believed in the promise of peace. Still reeling from the ravages of the Great War, its people were desperate to rebuild their lives in a newly safe and stable era. But only a year later, the fateful decisions of just a few men had again led Europe to war, a war that would have a profound and lasting impact on millions. Bestselling historian Frederick Taylor focuses on the day-to-day experiences of British and German people trapped in this disastrous chain of events and not, as is so often the case, the elite. Drawn from

original sources, their voices, concerns and experiences reveal a marked disconnect between government and people; few ordinary citizens in either country wanted war. 1939: A People's History is not only a vivid account of that turbulent year but also an interrogation of our capacity to go to war again. In many ways it serves as a warning; an opportunity for us to learn from our history and a reminder that we must never take peace for granted.

**Supplement to the Catalogue of the Library of the Athenæum, Printed in 1845** BRILL

Crusades covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements

from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. Crusades appears in both print and online editions. Issue 4 of Crusades kicks off with Graham Loud's reflections on the failure of the Second Crusade and also features Susan Edgington's administrative regulations for the Hospital of St John in Jerusalem dating from the 1180s.

## **Der Untergang des Templer-Ordens**

Indiana University Press

Even 700 years after the suppression of the Order of the Temple and the execution of the last grandmaster, Jacques de Molay, there is no shortage of publications on this influential military order. Yet unlike other medieval institutions the Templars are subject to speculative fiction and popular myth which threaten to swamp the fruits of scholarly endeavour. Fortunately, recent years have produced a thriving academic scholarship which is challenging these myths. More and more sources are currently being edited, particularly those for the trial of the Templars (1307–1312). Others are still awaiting indepth study, among them, surprisingly, the greater part of the

charters that cover more than 150 years of the Order's history. The papers in this volume step into this gap and critically evaluate new directions in Templar studies on the basis of as-yet unedited source material. Open issues and desiderata regarding the sources are discussed and from a range of inspiring results a new status quaestionis is proposed that will not only provide a better understanding of the Order's archaeological, economical, religious, administrative and military history, but also set new points of departure for the editing of charters and administrative documents. The papers here are grouped into six sections, focusing on the headquarters of the Order, its charters, manpower and finance, religious life and finally the suppression

and the Order's afterlife.

Österreichische Wochenschrift für  
Wissenschaft, Kunst, und öffentliches  
Leben Taylor & Francis

Michel Foucault's seminal *The History of Sexuality* (1976–1984) has since its publication provided a context for the emergence of critical historical studies of sexuality. This collection reassesses the state of the historiography on sexuality—a field in which the German case has been traditionally central. In many diverse ways, the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered. It can be argued, however, that some of these revolutionary insights have ossified into dogmas or truisms within the field. Yet,

as these contributions meticulously reveal, those very truisms, when revisited with a fresh eye, can lead to new, unexpected insights into the history of sexuality, necessitating a return to and reinterpretation of Foucault's richly complex work. This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality. *Synchronistische Geschichte der Kirche und der Welt im Mittelalter* Wernersche This historical study "persuasively links the reception of Yugoslav migrants to West Germany's shifting relationship to the Nazi past . . . essential reading" (Tara Zahra, author of *The Great Departure*). During Europe's 2015

refugee crisis, more than a hundred thousand asylum seekers from the western Balkans sought refuge in Germany. This was nothing new, however. Immigrants from the Balkans have streamed into West Germany in massive numbers since the end of the Second World War. In fact, Yugoslavs became the country's second largest immigrant group. Yet their impact has received little critical attention until now. *Memory, Politics, and Yugoslav Migrations to Postwar Germany* tells the story of how Germans received the many thousands of Yugoslavs who migrated to Germany as political emigres, labor migrants, asylum seekers, and war refugees from 1945 to the mid-1990s. With a particular focus on German policies and attitudes toward

immigrants, Christopher Molnar argues that considerations of race played only a marginal role in German attitudes and policies towards Yugoslavs. Rather, the history of Yugoslavs in postwar Germany was most profoundly shaped by the memory of World War II and the shifting Cold War context. Molnar shows how immigration was a central aspect of how Germany negotiated the meaning and legacy of the war.

*In Laudem Hierosolymitani* BRILL  
 Der heilige Gral, die Bundeslade, das Grabtuch Christi? Mit hervorragender Sachkenntnis lässt Tobias Daniel Wabbel in seinem Werk die mysteriöse Welt der Tempelritter lebendig werden und legt erstmals plausible Antworten auf eine der großen Fragen der Geschichtsschreibung vor. Entstanden

ist ein faszinierendes Buch über die Suche nach dem wahrhaftigen Schatz der Templer.

1939 Berghahn Books

By examining theoretical debates about the nature of nineteenth-century German opera and analyzing the genre's development and its international dissemination, this book shows German opera's entanglement with national identity formation. The thorough study of German opera debates in the first half of the nineteenth century highlights the esthetic and ideological significance of this relatively neglected repertoire, and helps to contextualize Richard Wagner's attempts to define German opera and to gain a reputation as the German opera composer par excellence. By interpreting Wagner's esthetic endeavors as a

continuation of previous campaigns for the emancipation of German opera, this book adds an original and significant perspective to discussions about Wagner's relation to German nationalism.
