FARRELL SIDNEY

From a Bare Hull Food & Agriculture Org.

The inaugural title in our exclusive new series of books about traditional boats and traditional seamanship. Wooden boats didn't disappear with the invention of GRP. Building them is a classic craft that attracts people with a keen interest in traditional boats and is a thriving activity amongst professional craftsmen and DIY boatbuilders alike. This thoroughly modern book aimed at the novice builder and accessible to the amateur takes a fresh new approach to a timeless activity. The focus is on classic boat construction and restoration, but at all stages modern methods, materials and techniques are employed, together with step-by-step diagrams and explanations. Well illustrated with colour photos and detailed close-up watercolour illustrations, this book will be invaluable for students of boat design and construction, do-it-yourself boatbuilders and even modelmakers. A landmark in wooden boat building books.

In the figure of Burke, Andrew Vachss has given contemporary crime fiction one of its most mesmerizing characters. An abused child raised in orphanages, foster homes, and prisons, Burke is a career criminal and outlaw who steals and scams for a living. In Blossom, an old cellmate has summoned Burke to a fading Indiana mill town, where a young boy is charged with a crime he didn't commit and a twisted serial sniper has turned a local lovers' lane into a killing field. And it's here that Burke meets Blossom, the brilliant, beautiful young woman who has her own reasons for finding the murderer—and her own idea of vengeance. Dense with atmosphere, savagely convincing, this is Vachss at his uncompromising best.

The Allure of Power Blue Moon Rising

An ancient darkness A powerful family And five friends bound by incredible magic The Breakfast Creek five survived the attack of the Red General and their jaunt through the many worlds. Now, forever joined by magic beyond their understanding, they begin their new lives in very different magical worlds. But now Julia is missing, taken by an old power that yearns, that seeks, that's growing. The Power of the Allure. Enthralled by a world of wealth, luxury and notoriety, Julia has no idea what she's gotten herself into. This lavishly illustrated catalogue, published to accompany the major exhibition at the National Maritime Museum, Greenwich, in 2012, explores the history of the Thames as a stage for Royal power, celebration and symbolism. It provides a thematic overview of major events and key individuals from the Tudor age onwards. Dr David Starkey, the leading authority on Britain's royal history, is the exhibition's guest curator. Dr Starkey and other experts examine the history of the Thames, London's greatest 'street'. The book includes colourful and sometimes unexpected stories of royal arrivals, coronations and marriages; the Lord Mayor's Procession and London's ancient livery companies; ship launches and bridge openings; frost fairs and boat races; and the solemn splendour of Lord Nelson's funeral procession. SELLING POINTS: *Published to accompany a major exhibition at the National Maritime Museum, Greenwich, in 2012 *Illustrated throughout with nearly 300 colour images of objects drawn from major collections, including those of Her Majesty The Queen. Many of the objects, some never seen in public before, have been specially photographed for this book 208 colour illustrations

The importance of small fishing craft to the world catch of fish cannot be underestimated but little attention has in the past been given to their design. The primary purpose of this book is to disseminate the specialized knowledge needed for designing improved small fishing vessels. It has been structured to cover every item which needs to be taken into account, working in easy stages from background material to the specification for a finished design. The logical and well-balanced format takes the reader through general principles to factors specific to fishing vessels and the content is so comprehensive that much will be of equal value to users and designers of larger vessels. It is an invaluable volume enhanced by detailed drawings of exceptional standard.
