Gray Day Hachette UK

Only 200 people have ever been in Christopher Whitcomb's elite branch of the F.B.I. The Hostage Rescue Team is its most highly trained and specialized squadron -- equivalent to the Navy's Seals and the Army's Delta Force -- charged with terrorist capture, hostage situations, and other large-scale emergencies in the U.S. and around the world. Whitcomb is the first HRT member ever to write about his experience. With breathtaking immediacy, Whitcomb describes the brutal training, the weapons and tactics, and the unbreakable camaraderie of the HRT. In short order, after joining HRT in 1991, Whitcomb was sent on missions to Ruby Ridge and Waco, and his frank assessment of those missions is must reading for anyone interested in modern law enforcement. Only rarely does a writer this accomplished have a life this dramatic. *Cold Zero* is a book of rare action and emotion, and one that introduces a remarkable new writer to the world.

The FBI-KGB War Picador

A thrilling read set in the American West from New York Times bestseller C.J. Box, award-winning author of the Joe Pickett and Cassie Dewell series, now adapted into the hit TV shows *Joe Pickett* and *Big Sky*. Joe Pickett, fired from his job as a Wyoming game warden, is working on his father-in-law's ranch when he receives a visit from Governor Rulon. The governor - a devious but down-home politico - has a special request, one Joe knows he can't refuse. Lawyer Clay McCann slaughtered four campers in a

far-off corner of Yellowstone, then immediately turned himself in at the nearest ranger station. Seemed like a slam-dunk case for law enforcement... except that the crimes were committed on a sliver of land with zero residents and overlapping jurisdictions, the so-called free-fire zone. McCann has taken advantage of an obscure loophole in the law: neither the state nor the federal government can try the worst mass murderer in Wyoming history for his crime. Rulon, sensitive to the rising tide of public outrage, wants his own investigation into the murders and will reinstate Joe as a game warden if he'll go to Yellowstone 'without portfolio' to investigate. Joe, happy to get his badge back, even under these circumstances, agrees. It quickly becomes clear that McCann is deeply involved with some illegal activity taking place in the park - something tremendously lucrative and unusually dangerous. As Joe and his associate Nate Romanowski search for the key to the murders, they discover that it may be hidden in the rugged terrain of the park itself. Reviews for *Free Fire* 'Absorbing... his best yet.' Publishers Weekly 'The setting, action, new characters and old favourites join together to enrich this compelling tale.' Denver Post 'Delivers like a well-oiled rifle taking down its trophy elk at three hundred yards.' Madison County Herald 'A splendid thriller, deftly plotted and skillfully executed.' San Diego Union-Tribune

Estimation of the Time Since Death

LEARN THE TRUE STORY OF ONE OF THE FBI PROFILERS WHO COINED THE PHRASE "SERIAL KILLER" Face-to-face with some of America's most terrifying killers, FBI veteran Robert K. Ressler learned how to identify the unknown

monsters who walk among us -- and put them behind bars. In *Whoever Fights Monsters*, Ressler—the inspiration for the character Agent Bill Tench in David Fincher's hit TV show

Mindhunter—shows how he was able to track down some of the country's most brutal murderers. Ressler, the FBI Agent and ex-Army CID colonel who advised Thomas Harris on *The Silence of the Lambs*, used the evidence at a crime scene to put together a psychological profile of the killers. From the victims they choose to the way they kill to the often grotesque souvenirs they take with them—Ressler unlocks the identities of these vicious killers. And with his discovery that serial killers share certain violent behaviors, Ressler goes behind prison walls to hear bizarre first-hand stories from countless convicted murderers, including Ted Bundy, John Wayne Gacy; Edmund Kemper; and Son of Sam. Getting inside the mind of a killer to understand how and why he kills is one of the FBI's most effective ways of helping police bring in killers who are still at large. Join Ressler as he takes you on the hunt for the world's most dangerous psychopaths in this terrifying journey you will not forget.

Hemlock Bay Bloomsbury Publishing

The author of this book played a major part in the FBI's development of psychological profiles for serial killers, he even invented the term serial killer. Whilst Thomas Harris made Ressler's work famous in fiction, Ressler did it for real.

U.S. Marshals Random House

Don't miss the JOE PICKETT series—now streaming on Paramount+ Wyoming game warden Joe Pickett encounters bad behavior on his own turf—only to have the FBI and the DOJ ask him to stand down--in the thrilling novel from #1 New

York Times-bestselling author C.J. Box. The good news is that Joe Pickett has his job back, after his last adventure in *The Disappeared*. The bad news is that he's come to learn that a drone is killing wildlife—and the drone belongs to a mysterious and wealthy man whose son is dating Joe's own daughter, Lucy. When Joe tries to lay down the rules for the drone operator, he's asked by the FBI and the DOJ to stand down, which only makes him more suspicious. Meanwhile, bodies are piling up in and around Joe's district in shocking numbers. He begins to fear that a pack of four vicious killers working on behalf of the Sinaloa cartel known as the Wolf Pack has arrived. Their target seems to be the mystery man and everyone—including Joe, Nate, and others—who is associated with him. Teaming up with a female game warden (based on a real person, one of the few female game wardens at work in Wyoming today) to confront these assassins, Joe finds himself in the most violent and dangerous predicament he's ever faced.

To Be an FBI Special Agent Ballantine Books

'A darkly entertaining tale about American espionage, set in an era when Washington's fear and skepticism about the agency resembles our climate today.' *New York Times* At the end of World War II, the United States dominated the world militarily, economically, and in moral standing – seen as the victor over tyranny and a champion of freedom. But it was clear – to some – that the Soviet Union was already executing a plan to expand and foment revolution around the world. The American government's strategy in response relied on the secret efforts of a newly-formed CIA. *The Quiet Americans* chronicles the exploits of four spies –

Michael Burke, a charming former football star fallen on hard times, Frank Wisner, the scion of a wealthy Southern family, Peter Sichel, a sophisticated German Jew who escaped the Nazis, and Edward Lansdale, a brilliant ad executive. The four ran covert operations across the globe, trying to outwit the ruthless KGB in Berlin, parachuting commandos into Eastern Europe, plotting coups, and directing wars against Communist insurgents in Asia. But time and again their efforts went awry, thwarted by a combination of stupidity and ideological rigidity at the highest levels of the government – and more profoundly, the decision to abandon American ideals. By the mid-1950s, the Soviet Union had a stranglehold on Eastern Europe, the US had begun its disastrous intervention in Vietnam, and America, the beacon of democracy, was overthrowing democratically elected governments and earning the hatred of much of the world. All of this culminated in an act of betrayal and cowardice that would lock the Cold War into place for decades to come. Anderson brings to the telling of this story all the narrative brio, deep research, sceptical eye, and lively prose that made *Lawrence in Arabia* a major international bestseller. The intertwined lives of these men began in a common purpose of defending freedom, but the ravages of the Cold War led them to different fates. Two would quit the CIA in despair, stricken by the moral compromises they had to make; one became the archetype of the duplicitous and destructive American spy; and one would be so heartbroken he would take his own life. Scott Anderson's *The Quiet Americans* is the story of these four men. It is also the story of how the United States, at the very pinnacle of its power,

managed to permanently damage its moral standing in the world. *Fear No Evil* Thorndike Press "Electrifying."—The New York Times Book Review "Encyclopedic and compelling."—The New Yorker A New York Times Bestseller A Christian Science Monitor Best Non-Fiction Book of the Year A Kirkus Reviews Best Non-Fiction Book of the Year Winner of the PEN Center USA Book Award Winner of the Ridenhour Book Prize Winner of the Society of Professional Journalists' Sunshine Award Winner of Before Columbus Foundations's American Book Award *Subversives* traces the FBI's secret involvement with three iconic figures who clashed at Berkeley during the 1960s: the ambitious neophyte politician Ronald Reagan, the fierce but fragile radical Mario Savio, and the liberal university president Clark Kerr. Through these converging narratives, the award-winning investigative reporter Seth Rosenfeld tells a dramatic and disturbing story of FBI surveillance, illegal break-ins, infiltration, planted news stories, poison-pen letters, and secret detention lists all centered on the nation's leading public university. Rosenfeld vividly evokes the campus counterculture, as he reveals how the FBI's covert operations—led by Reagan's friend J. Edgar Hoover—helped ignite an era of protest, undermine the Democrats, and benefit Reagan personally and politically. The FBI spent more than \$1 million trying to block the release of the secret files on which *Subversives* is based, but Rosenfeld compelled the bureau to reveal more than 300,000 pages, providing an extraordinary view of what the government was up to during a turning point in our nation. Part history, part biography, and part police procedural,

Subversives reads like a true-crime mystery as it provides a fresh look at the legacy of the 1960s, sheds new light on one of America's most popular presidents, and tells a cautionary tale about the dangers of unchecked secrecy and power.

The FBI and Religion Quarto Publishing Group USA

In cyberspace, no one can hear you scream. Instead of preparing for her high school graduation, Lucy Kincaid is facing a vicious execution. Lured by an online predator, she's destined to die horribly-live on the Internet-while hundreds of heartless viewers watch and vote on the method of her slaughter. Her family's only hope rests with Kate Donovan, an FBI agent who took on the same sadistic killer once before . . . and lost. Blamed for another girl's gruesome murder, Kate's been fighting to clear her name. But she agrees to join the hunt for Lucy-and reluctantly steps back into her worst nightmare. With time running out before the bloody webcast airs, Kate teams up with forensic psychiatrist Dillon Kincaid to get inside the head of her twisted quarry, zero in on his chamber of horrors, and reach Lucy before grim history repeats itself and another innocent's brutal death goes hideously live. Face the fear. Speak its name. See its face.

The Night Agent Hachette UK

See No Evil is the astonishing and controversial memoir from one of the CIA's top field officers of the past quarter century. Robert Baer recounts his career as a ground soldier in the CIA's war on terrorism, running agents in the back alleys of the Middle East, with blistering honesty. He paints a chilling picture of how terrorism works on the inside and provides compelling evidence about how Washington sabotaged the CIA's efforts

to root out the world's deadliest terrorists. See No Evil is an unprecedented examination of the roots of modern terrorism and the CIA's failure to acknowledge and neutralise the growing fundamentalist threat, and an engrossing memoir of Baer's education as an intelligence operative. See No Evil includes revelations about the strategic alliance Osama bin Laden forged with Iran in 1996 to mastermind terrorist attacks on the United States and elsewhere, about the planned coup d'etat against Saddam Hussein and how it was aborted by the National Security Council, and about the CIA's disastrous decision in 1991 to shut down its operations in Afghanistan and Saudi Arabia, ignoring the fundamentalists working in those countries. An extraordinary testimony that has become even more vital and damning since the events of 9/11 and the subsequent War on Iraq.

The Quiet Americans Mariner Books

A fifteen-year member of the FBI who received its coveted Medal of Bravery, former agent Christopher Whitcomb electrified readers with his breathtaking memoir, Cold Zero. Now his remarkable past and hard-edged prose illuminate his highly acclaimed first thriller... Selected for the FBI's elite Hostage Rescue Team, Special Agent Jeremy Waller is about to fight terrorism at its source-by diving headlong into a violent world of trapdoor truths and shifting alliances. And he'll have company: a beautiful executive more adept at murder than marketing who turns his assignment into a cipher...a ruthless tycoon set on selling a revolutionary technology to terrorists...and a female senator and presidential hopeful charged with an unspeakable crime. Here there is no justice-and only one way out of the

darkness: Head even deeper into the shadows...

Into the Kill Zone Mercer University Press
The names, we sometimes say, have been changed "to protect the innocent". As regards those agents in KGB networks in the U.S. during and following World War II, their presence and their deeds (or misdeeds) were known, but their names were not. The FBI-KGB War is the exciting, true (which often really is stranger than fiction), and authentic story of how those names became known and how the not-so-innocent persons to whom those names belonged were finally called to account. Following World War II, FBI Special Agent Robert J. Lamphere set out to uncover the extensive American networks of the KGB. Lamphere used a large file of secret Russian messages intercepted during the war. The FBI-KGB War is the detailed (but never boring) story of how those messages were finally decoded and made to reveal their secrets, secrets that led to persons with such now-infamous names as Judith Coplon, Klaus Fuchs, Harry Gold, and Ethel and Julius Rosenberg.

Cold Zero Hachette+ORM

Madness and murder rip through the suspense novel by the bestselling author Catherine Coulter. FBI Agent Dillion Savich is on a challenging case involving the kidnapping of two teenage boys when trouble boils up in his personal life. His younger sister Lily has crashed her car into a redwood in California's Hemlock Bay. Is it another suicide attempt, the second since the loss of her young daughter some seven months before? Savich and Sherlock discover that four of Lily's paintings, left to her by their very famous grandmother, artist Sarah Elliot, now worth millions, are at the heart of an intricate conspiracy. Lily

and art broker Simon Russo are thrust into ever widening circles of danger that radiate from a notorious collector's locked room. Dillion Savich and his sister Lily both have to face their worst fears to survive.

Cold Zero HarperCollins

Cataloging some of the most notorious criminal events of the last 30 years, Coulson, the creator of the FBI's Hostage Rescue Team, provides firsthand accounts and reflective personal opinions of his experiences in bringing hundreds of murderous extremists and killers to justice--from the Black Liberation Army to the sieges at Ruby Ridge and Waco.

Chasing Phil Random House Digital, Inc.

John Hayes is a Special Operations legend who went rogue on a deep-cover mission and betrayed his own soldiers. Disgraced and on the run, he returns to the United States to get back to his wife and daughter and take revenge on his accusers with a series of devastating attacks. Only one man can stop him: Thomas Byrne. He once fought alongside Hayes as a combat medic, but he gave up the gun. Now a surgeon, he moves from town to town, trying to forget his past, until he is called upon by a high-ranking government official to help capture the man he once called a friend. Hayes and Byrne were once as close as brothers, but with the fate of the nation hanging in the balance and nothing as it seems, both men must decide whom to trust -- and whom to betray. In a final, explosive battle for justice, they face off along a rifle's cold barrel. *Cold Barrel Zero* brings together the blistering pace of Lee Child, the nonstop action of Brad Thor, and the richly drawn characters and moral stakes of Daniel Silva. An experienced reporter armed with deep behind-the-scenes research into

America's Special Operations Forces, Quirk takes the military thriller to a new level of suspense.

Free Fire Random House

On Monday, 4 March 2019, Sergei Skripal and his 33-year-old daughter Yulia collapsed in the centre of Salisbury in Wiltshire. Both were suffering the effects of A-234, a third-generation Russian-manufactured military grade Novichok nerve agent. As three suspects, all GRU officers, were quickly identified, it was also established that the door handle to the Skripals' suburban home had been contaminated with the toxin. Whilst the Skripals had lived in the cathedral city for the past seven years, what Sergei's neighbours did not know was that he had once been a colonel in the Russian Federation's military intelligence service. Back in July 1996, he had been posted under diplomatic cover to Madrid where he was subsequently cultivated by Pablo Miller, an MI6 officer operating as a businessman under the alias Antonio Alvares de Idalgo. Sergei's recruitment by Miller was one of many successes achieved by Western agencies following the collapse of the Soviet Bloc. These counter-intelligence triumphs had their origins in a joint FBI/CIA project codenamed COURTSHIP which was based on the rather risky tactic of making an approach to almost any identified KGB or GRU officer, in almost any environment – a technique known as a 'cold pitch'. It soon yielded results; within five years COURTSHIP had netted about twenty assets. Codenamed FORTHWITH, Sergei was betrayed in December 2001. Arrested in 2004, he was convicted of high treason in Russia, but was subsequently included in a prisoner swap in July 2010 and brought to the UK. The journey to the attempt on

his life had begun. The Vienna spy swap was the culmination of a CIA plan to free a specific individual, Gennadi Vasilenko, who had been the Agency's key mole inside the KGB since March 1979. To acquire the necessary leverage, the FBI swooped on a large network in the United States, bringing to an end a surveillance operation, codenamed GHOST STORIES, that lasted ten years. Anxious to avoid further embarrassment over the arrests, Vladimir Putin personally authorised an exchange, unaware of Vasilenko's true status. It was only after the transaction had been completed, and two further Russian spies were exfiltrated from Moscow, that the Kremlin learned of Vasilenko's value, and the scale of the deception. For the very first time, a Russian government had been persuaded to release four traitors and send them to the West. The humiliation was complete. As Spy Swap reveals, Putin's retribution would manifest itself in a quiet Wiltshire market town.

Element Zero Penguin

An FBI agent teams up with the first police robot to hunt a shadowy terrorist in this gripping technothriller--and fact-based tour of tomorrow--from the authors of Ghost Fleet America is on the brink of a revolution. AI and robotics have realized science fiction's dreams, but have also taken millions of jobs and left many citizens fearful that the future is leaving them behind. After narrowly averting a bombing at Washington's Union Station, FBI Special Agent Lara Keegan receives a new assignment: to field test the first police robot. In the wake of a series of shocking catastrophes, the two find themselves investigating a conspiracy whose mastermind is using cutting-edge tech to rip the nation apart. To stop this new

breed of terrorist, Keegan's only hope is to forge a new kind of partnership. With every tech, trend, and scene drawn from the real world, *Burn-In* blends a technothriller's excitement with nonfiction's insight to illuminate the darkest corners of our chilling tomorrow.

Saving Faith Pan Macmillan

For the first time a member of the F.B.I.'s elite Hostage Rescue Team--its most highly trained and specialized squadron that handles large-scale emergencies in the U.S.--reveals his experiences, describing in breathtaking detail the brutal training, the weapons and tactics, and the dramatic showdowns that marked many of his missions, including Ruby Ridge and Waco.

The Burglary John Wiley & Sons

A first-person account of life inside the FBI & its elite Hostage Rescue Team (HRT). Only 200 U.S. law enforcement officers have ever been in this highly trained & specialized branch of the FBI. Equivalent to the Navy's SEALs & the Army's Delta Force, the HRT is charged with terrorist capture, hostage release, & other emergencies in the U.S. & around the world. Whitcomb is the first HRT member ever to write about his experience. He describes his journey from civilian to FBI agent & from field agent into the highly competitive HRT -- the brutal training, the weapons & tactics, & the unbreakable camaraderie of the HRT. He was sent on missions to Ruby Ridge, Waco & Kosovo. His frank assessment of these & many other missions is must reading.

Black Harper Collins
