Experiments which in previous years were made with ornamental plants have already afforded evidence that the hybrids, as a rule, are not exactly intermediate between the parental species. With some of the more striking characters, those, for instance, which relate to the form and size of the leaves, the pubescence of the several parts, etc., the intermediate, indeed, is nearly always to be seen; in other cases, however, one of the two parental characters is so preponderant that it is difficult, or quite impossible, to detect the other in the hybrid. from 4. The Forms of the Hybrid One of the most influential and important scientific works ever written, the 1865 paper Experiments in Plant Hybridisation was all but ignored in its day, and its author, Austrian priest and scientist GREGOR JOHANN MENDEL (1822-1884), died before seeing the dramatic long-term impact of his work, which was rediscovered at the turn of the 20th century and is now considered foundational to modern genetics. A simple, eloquent description of his

18561863 study of the inheritance of traits in pea plants Mendel analyzed 29,000 of them this is essential reading for biology students and readers of science history. Cosimo presents this compact edition from the 1909 translation by British geneticist WILLIAM BATESON (1861-1926).

"Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

The four types of yoga are covered in length in the current book, along with its philosophy, psychology, and practise techniques. It provides a comparison of the four yogas, outlining their similarities and distinctions. By destroying the ego, karma yoga, also known as the yoga of selfless action, aims to address the issue of ignorance. We are tethered to this world by attachment because of the ego, which was born out of ignorance. The practise of bhakti yoga involves inward purification. Bhakti-central yoga's thesis is that love is the most fundamental human emotion. Love is cosmocentric and divinely inspired in its most pure form. Raja-yoga ignites the flame of awareness of the self within in order to reach the Divine.

While the word "gentlemen" suggests that its heroes are adults, *The Two Gentlemen of Verona* is more intelligible if we think of them as boys, leaving home for the first time. One has a crush on a girl, Julia, though he hasn't yet told her. Sent to court to learn to be "perfect gentlemen," Valentine and Proteus are derailed by their attraction to Sylvia, the ruler's daughter. Valentine's mental denseness does not deter Sylvia from returning his love, but he is caught, and banished, when he tries to elope with her. Proteus' desire for Sylvia wipes out his former love, leading him into despicable acts that win scorn from Sylvia and wound Julia, who has pursued him disguised as a boy. When Sylvia follows Valentine into banishment, Proteus follows Sylvia, and Julia follows Proteus, the stage is set for a disturbing ending. But the stage is also set for the "gentlemen" to take small steps toward maturity.
