A heavenly shade of blue was always in her eyes and her innocent smile captured the hearts of many. But even a beautiful smile can cover the ugliest of things. Who would've ever known that the beautiful and loving Princess Marrisa would fall victim to a very dark and hostile scheme, conjured up by something that is as old as time? No one did—not even Tairren, who was one of Marrisa's dearest friends. Overtaken by Marrisa's beauty and charm, Tairren was very much in love with her and would do anything for her—even if that meant facing the overwhelming powers of darkness... It was on Marrisa's long awaited sixteenth birthday, her engagement to Prince Phillip and the day before her enthronement to the kingdom of Ishkar, when it happened. When Marrisa is abducted by someone she had always trusted, she is forced into the Forbidden Lands of Minslethrate and awakens upon a

plot that would shake the world. With the company of his very different comrades, the unconventional Lady Natalia and the arrogant Prince Phillip of Ishkar, Tairren travels across the uncertain lands of Minslethrate to rescue Marrisa. They begin to realize that their precarious situation is dealing with more than just a kidnapped princess—that's just the beginning... They must trust in the unseen God of Light and have faith in a legend that they don't even understand. While their beloved princess awaits a terrifying fate, they must become awakened by light if they are to face their own dark quest... Prophecy stirs, blood spills, light burns and darkness screams—revealing The Last Legend...

The Aesthetics of Loss Oxford University Press, USA

A revised edition of Whitney Chadwick's seminal work on the women artists who shaped the Surrealist art movement. This pioneering book stands as the most comprehensive treatment of the lives, ideas, and art works of the remarkable group of women who were an essential part of the Surrealist movement. Leonora Carrington, Frida Kahlo, and Dorothea Tanning, among many others, embodied their age as they struggled toward artistic maturity and their own "liberation of the spirit" in the context of the Surrealist revolution. Their stories and achievements are presented here against the background of the turbulent decades of the 1920s, '30s, and '40s and the war that forced Surrealism into exile in New York and Mexico. Whitney Chadwick, author of the highly acclaimed *Women, Art, and Society*, interviewed and corresponded with most of the artists themselves in the course of her research. *Women Artists and the Surrealist Movement*, now revised with a new foreword by art historian Dawn Ades, contains a wealth of extracts from unpublished writings and numerous illustrations never before reproduced. Since this book was first published, it has acquired the undeniable status of a classic among artists, art historians, critics, and cultural historians. It has inspired and necessitated a revision of the story of the Surrealist

movement.

Available now as both paperback and e-book, this volume brings together the series of landmark introductory essays and prefaces written by Norma Broude and Mary D. Garrard for their three influential anthologies on feminism and art history (1982-2005); their introduction to *The Power of Feminist Art*, the first book on the American Feminist Art movement (1994); and the catalogue essay for *Claiming Space*, their co-curated exhibition of feminist art at American University (2007). Collectively, these introductory essays articulate many of the major and still relevant questions that have concerned feminist art historians and critics over the past quarter century, and they define shifts of thinking and theoretical controversies that developed in the field as a whole over those years. With a new preface entitled "Introducing the Introductions," these essays will provide scholars, teachers, and a younger generation of readers and students with an accessible overview of the historical evolution of feminist thinking about art and art history during its formative period. Broude and Garrard are professors emeritae of art history at American University in Washington D.C. Through their individual and collective scholarship, they have helped to define and shape the field of feminist art history. Their co-edited volumes of feminist essays have long served as basic texts in art history and women's studies courses in the United States and around the world.

Women Who Made Their Mark on the World Thames & Hudson

The fiftieth anniversary edition of the essay that is now recognized as the first major work of feminist art theory—published together with author Linda Nochlin's reflections three decades later. Many scholars have called Linda Nochlin's seminal essay on women artists the first real attempt at a feminist history of art. In her revolutionary essay, Nochlin refused to answer the question of why there had been no "great women artists" on its own corrupted terms, and instead, she dismantled the very concept of greatness, unraveling the basic assumptions that created the male-centric genius in art. With unparalleled insight and wit, Nochlin questioned the acceptance of a white male viewpoint in art history. And future freedom, as she saw it, requires women to leap into the unknown and risk demolishing the art world's institutions in order to rebuild them anew. In this stand-alone anniversary edition, Nochlin's essay is published alongside its reappraisal, "Thirty Years After." Written in an era of thriving feminist theory, as well as queer theory, race, and postcolonial studies, "Thirty Years After" is a striking reflection on the emergence of a whole new canon. With reference to Joan Mitchell, Louise Bourgeois, Cindy Sherman, and many more, Nochlin diagnoses the state of women and art with unmatched precision and verve. "Why Have There Been No Great Women Artists?" has become a slogan and rallying cry that resonates across culture and society. In the 2020s, Nochlin's message could not be more urgent: as she put it in 2015, "There is still a long way to go."

Don't Take the Blame Value Art Politics Lup

A new edition of the groundbreaking book by Whitney Chadwick maps the complete history of women artists from the Middle Ages and the Renaissance to today. Art historian Whitney Chadwick's acclaimed bestselling study challenges the assumption that great women artists are exceptions to the rule who "transcended" their gender to produce major works of art. While introducing some of the many women since the Middle Ages whose contributions to visual culture have often been neglected, Chadwick's survey reexamines the works themselves and the ways in which they have been perceived as marginal, often in direct reference to gender. In her discussion of feminism and its influence on such a reappraisal, she also addresses the closely related issues of ethnicity, class, and sexuality. This revised edition features a completely redesigned interior and full-color illustrations. With a new preface and epilogue from this emerging authority on the history of women artists, curator and professor Flavia Frigeri, this revised edition continues the project of charting the evolution of feminist art history and pedagogy, revealing how artists have responded to new strategies of feminism for the current moment.
